Here is what I had

| | Total | Federal | % | Sponsor | % |
|---|---|---|---|---|---|
| Design | $357,850 | $286,280 | 80% | $71,570 | 20% |
| State Review | $81,650 | $65,320 | 80% | $16,330 | 20% |
| Total | $439,500 | $351,600 | 80% | $87,900 | 20% |

---

Rich

Snapshot is what is currently in SMA. Was it your intention that the entire $90,262 of additional federal funds is added to the design only or is any added to the state review?

Rich

The project cost increase has been approved. A revised SMA will be sent to Fond du Lac County today.

Hi Sandy,

I've approved this request and updated the approved amount in LES.  Please be sure that the new federal funding cap of $351,600 is reflected in FIIPS and the SMA.

Good Morning

We are submitting the attached project cost increase request for the design ID only. This project was approved under the 2013-2018 STP-Rural program. It is a reconstruction project through the middle of the Village of St. Cloud and consists of reconstructing the existing roadway with an urban cross section. The design estimate was based on the percentages in the application, which are absolutely not enough to cover the consultant design fees for this complex project in addition to the revised MC template costs as previously discussed. Further explanation is noted in the document below.

The design consultant negotiations are complete and the desire is to send the contract to Central Office for approval as soon as possible to maximum as much time as possible for design.

An expedited review of the request would be appreciated.
