---

Brian,

OMNNI has asked to proceed with the wetland delineation for the stormwater pond. The entire amendment has been reviewed by WisDOT, the county, and me and we have agreed to the hours. They have outlined the hours for the wetland delineation below, but the rest of the amendment is being held up by decisions by the Village.

Can you please authorize them to go forward with the wetland delineation?

Thanks

Rich,
We are waiting to finalize the amendment until the Village's next board meeting on July 5. At that meeting they plan to vote on the typical section on the north end of the project. They originally preferred the no parking option but are reconsidering this choice. Wetland delineation of the pond area is included in the proposed amendment. We would like to keep that part of the project moving along so as not to holdup the environmental document. The wetland delineation and report would involve 2 hour Project Manager, 16 hours Wetland Specialist, 4 hour Technician and 110 miles of company vehicle for direct expense. We would authorization to proceed with this part of the amendment while we wait for the Village's decision and the processing of the rest of the amendment.

Please let me know if you have any questions or concerns.
Peg
