	Total				\$264.02

EXAMPLE

Price for one item

The following data elements are grayed out and the Survey Editor will not be able to edit -

Material Code,  
Item, Description,  
Quantity,  
Calculated Total Price

The Quantity values shown are based on statewide averages.

The Calculated Total Price is a calculation result of Most Recent Unit Price x Quantity.

Survey Editor will enter the Most Recent Invoice Price for **one item**.

Entering the Most Recent Invoice Price for more than one item will skew the statewide averages.
