Not sure which WisDOT PM is overseeing this project, but you could forward this on to them?

Thanks

Rich

Troy,
Our final plans have been submitted to WisDOT and are in their process to be let on Nov 13, 2018. I suggest that you contact the Rich Glen, WisDOT Local Program Manager, after Nov 13 to find out who the contractor is and work directly with the contractor.

**Subject:** St. Cloud/ Hwy G project

Good Morning Peg,

I was on the village board for St cloud when this project initiated so I had you listed as the

appropriate contact from our previous interactions. If this request is better served with someone else on your team please just lead me in the right direction and I will follow through. I reside in the village of St Cloud, and would like to build a home in the near future on Main street within your project limits.

I would like to discuss with you the possibility of gaining a large portion of your fill from the project to hopefully ease some trucking/hauling cost of fill. I am looking at roughly 2500 yards that I could use and hopefully you don't have to dispose elsewhere or truck out of town.

Please e-mail me or call me on my cell listed below to see if I can help you and the Village with utilizing your fill. I would like to know or discuss your timeline so I could possibly coordinate. If this is already at a contractor and they are aware of the timeline I would welcome working with them directly but I thought you may be the best start.
