---

Peg & Tom,

With the funding issues on the bridge program, I was thinking that we should request additional funds for this project as soon as possible (in case the problem spreads to the STP rural funding too).

Peg - Are you comfortable with me using your current estimate for the cost increase request? If so, how much of the estimate was non-participating?

Tom – if the funding is approved, the construction funds will be capped…do you agree that we should proceed with this now, or would you prefer to wait until the final design is nearly done before asking?
