Discussed at the 1020-06-75 precon on Friday. It was the alignment stationing around the curbs that were used to build the surfaces that showed up on the sections… -Heath

Heath,
Hate to be last minute with this question, but I'm trying to put the finals on the 2236 and just noticed for the Short St and Hamilton P&P Sta vs x-sec Sta don't match. Hamilton P&P 25+00-28+00 & Short P&P 40+00 – 45+00 AND the Hamilton x-sec Sta 0+00 to 1+75 & Short 5+00 to 10+00

I was thinking No conflicts based off facility depths we found, but xsec Hamilton North Quad has my attention with proposed cuts.

Gary, do you have cross sections for STA 92-102 that depict the new path? Thanks. -Heath

Heath
Can I get the cross cuts for the new redesign maps from STA+92 to 102

Thank you
