Heath,

Just following up with our facility information as requested from the utility meeting we had on 4-26. I marked/highlight the NB P&Ps with that information & also identified some locations that correspond to the attached deck of slide photos.

As far as “path shifting” goes in effort to help us protect our above ground appearance points, I’d like to request some sort of path shift from Sta 58+00 Rt to Sta 70+00 Rt & Sta 87+00 Rt to Sta 100+00. I highlighted those area on the attached NG P&Ps.

Hope this helps and I appreciate the time/consideration.

Rick
