Re: Wisconsin Department of Transportation Request for Bids Kenosha SWEF #21 Upgrades – Request for Bids #510178

Dear Mr. Diehl,

Please find attached Intelligent Imaging Systems' response to Wisconsin Department of Transportation Request for Bids Kenosha SWEF #21 Upgrades – Request for Bids #510178.

Our response is comprised of one original and one copy of:

- a) Attachment A: Vendor Information Sheet
- b) Attachment B: Reference Sheets (includes sheet with additional information)
- c) Attachment C: MBE Program Awareness, Compliance & Action Plan
- d) Attachment E: Bidder Response Sheet
- e) Attachment H: Bid Price Sheet
- f) Insurance documents
- g) Information on Jackson Construction

Intelligent Imaging Systems has a well-deserved reputation for delivering successful e-screening solutions to our agency partners. We are confident we can help the Wisconsin Department of Transportation to achieve their goals with our proposed solution.

If you have any questions related to this submission, please contact me at 1 877 393-3939 ext. 220 or fko@intelligentimagingystems.com.

Sincerely,

A handwritten signature in blue ink, appearing to read 'fko', is positioned above the printed name of the sender.

Fred Ko
Vice President

STATE OF WISCONSIN
DOA-3477 (R05/98)

Kenosha SWEF #21 Upgrades
Bid# 510178

Company Name: Tennessee Highway Patrol (THP)

Address: 1148 Foster Ave.

City: Nashville

State: Tennessee

Zip + 4: 37210

Contact Person: Lt. Allen England

Phone: (931) 261-8729

Email address: allen.england@tn.gov

Product(s) Used and/or Services Provided: Intelligent Imaging Systems (IIS) and THP have been partners since 2009. To date, THP has deployed 12 sites with IIS Smart Roadside technologies (fixed, virtual and mobile configurations) that includes the following IIS integrated WIM system technologies:

- Ramp - Overview Vehicle Image Capture, Automated License Plate Reader, Automated US DOT Number Reader, Over Height Detector, Weigh-In-Motion, Lane Control automated sorting software, traffic signals, and variable message signs.
- Static Scale - Smart Roadside screening software (vehicle display window and reporting), local and federal databases (Iteris CVIEW integration) and static scale integration.

The proposed WIM system will support WisDOT future 3rd party solutions and future screening enhancements. For instance, THP has seamlessly integrated additional technologies to their WIM screening systems like Automated Thermal Imaging Inspection System and Automated Hazardous Materials Placard Reader.

All IIS Smart Roadside systems provided to THP are under a multi-year service maintenance and support contract.

IIS provides turnkey deployment which included design, testing, installation, commissioning and training.

ATTACHMENT C
WisDOT MINORITY BUSINESS ENTERPRISE (MBE) PROGRAM
DISABLED VETERAN-OWNED BUSINESS (DVB) PROGRAM
AWARENESS, COMPLIANCE & ACTION PLAN

Complete, sign, and include in your bid response.

Failure to complete this form as a component of your bid may result in rejection of your bid.

Our company/organization is a Wisconsin-certified Minority Business Enterprise (MBE) ☐ Yes ☒ No

Our company/organization is a Wisconsin-certified Disabled Veteran-owned Business (DVB) ☐ Yes ☒ No

Our company/organization is a minority business but has not yet received Wisconsin certification (please provide details): ☐ Yes ☒ No

Our company/organization is a disabled veteran-owned business but has not yet received Wisconsin certification (please provide details): ☐ Yes ☒ No

We are aware of the WisDOT's goal to spend at least 5% of their total annual purchasing dollars with state-certified MBE /DVB firms. ☒ Yes ☐ No

We are aware that if awarded this contract/project our company/organization will provide monthly or quarterly reports to WisDOT reporting all expenditure activity directed to MBE/DVB subcontractors or second-tier MBE/DVB suppliers that directly relate to this contract. (Any non-certified minority or non-certified disabled veteran-owned businesses could be a potential subcontractor/second-tier supplier--indicate these on your plan. WisDOT will work with those businesses for possible certification.) ☒ Yes ☐ No

Subcontractors: Our company/organization intends to subcontract at least 5% dollar volume with certified MBE/DVB firms listed below (names, addresses, telephone numbers): ☐ Yes ☒ No

Second-tier Suppliers: In addition to direct subcontracting efforts, your company/organization can help WisDOT achieve the 5% goal by managing your second-tier MBE/DVB purchases. Second-tier business refers to incidental business expenses your company may spend with Wisconsin-certified MBE/DVB firms as it pursues the normal course of business supplying the WisDOT-contracted products or services. Here are some *examples*:

- Percentage of your office supplies specifically used during the course of this contract/project.
- Percentage of uniform costs for staff performing this contract/project.
- If you travel to perform this contract/project, you could use a state-certified MBE travel agency and report that expense.
- Percentage of facilities maintenance services for facility(ies) directly used by your staff during the course of this contract/project.

These second-tier expenses can only be reported to the extent that they directly relate to your business with WisDOT. The percentage of the expense you can report is determined by the amount of your WisDOT sales as it relates to your total sales volume. Per the terms of your contract, you should actively pursue directing business towards these types of companies, and report your efforts in this regard on a monthly basis.

In paragraph form, describe your company/organization's commitment/action plan with regard to the planned use of state-certified MBE/DVB businesses in subcontracting efforts, as well as developing MBE/DVB second-tier suppliers. Please list your specific commitments (attach sheet, if necessary).

IIS will seek to engage with MBE/DVB businesses in subcontracting efforts using the
State of Wisconsin Supplier Diversity Program as a starting point. Specific scope items
that we may be able to subcontract include traffic control. At the current time we have
not identified specific subcontractors.

September 18, 2018

Dear Sir/Madam:

For removal of existing equipment and installation of new equipment (Static scale system and WIM system), Intelligent Imaging Systems intends to use "Jackson Construction and General Contracting" as a subcontractor.

For over 33 years, Jackson Construction has been involved in Commercial, Residential and Public Works (Government) projects across the US and Canada. With a strong focus on commercial vehicle enforcement and IT projects, Jackson Construction's past and relevant experience includes 12 weigh station static scale installations (subcontractor for Mettler Toledo), and over 42 sites of integrated WIM systems like the proposed for the Kenosha SWEF to WisDOT. Jackson Construction expertise also includes fiber optics installation, termination and testing, electrical installation, signal loop installation, system coordination and integration, removing and installing concrete at mainline interstate systems and weigh station ramps.

Contact details for Jackson Construction and General Contracting is listed below.

David Jackson, President
Jackson Construction and General Contracting
500 Ninevah Road, Frankfort, KY 40601
Cell: 502-330-3030 Tel: 502-352-7808
Fax: 502-352-7327 Toll Free Fax: 1-866-941-8641

Sincerely,

A handwritten signature in blue ink, appearing to read 'Fred Ko', is written over a faint, circular embossed seal.

Fred Ko
Vice President
