UTILITY SUPPLY INC.

Model  
PM - 303

*Marking Lines Worldwide*<sup>™</sup>

### *DOME MARKER POST*

The **PM-303** Dome Marker Post is a Cable and Pipeline Marker used as a Warning Sign to mark underground utilities such as: Fiber Optic Cable, Gas Pipelines, Petroleum Pipelines, Electric Lines, Water Lines, Sewer Lines and other buried utility lines.

The **PM-303** Dome Marker Post is manufactured in the USA from specially formulated resins with UV inhibitors. Its 360° cylindrical shape insures that the Marker Post can be seen from all angles on the ground and by air patrols. Unlike decals or hot stamping, the Pro-Mark graphic system has a lifetime guarantee not to fade, peel or chip. Graphics are customized to meet customer specifications and U.S. Department of Transportation regulations. The Marker Post is environmentally friendly and is 100% recyclable. The **PM-303** Dome Marker Post is resistant to chemicals and has high impact resistance making it the most durable way to mark underground utilities.

The Dome Marker Post has a 3.5" outside diameter and is available in all standard lengths, colors and comes complete with anchor bar. The **PM-303** is also available with a **PM-TS3** Test Station or Vent.
