Electronic permitting

- On-line application form; PDF also available
 - Revisions to current DT1553 are likely
- Submit drawings with application
- Confirmation receipt when received
 - Includes tracking number
- Returned immediately if something is missing
 - Ability to interface with WisDOT staff for help
- Utilities/WisDOT able to track status
- GIS component
- Obtain WisMUTCD standard drawings
- May include fee collection

Targeted topics

“Bummer of a birthmark, Hal.”

Targeted topics

- Require as-built survey data (X-Y-Z) for
trenched/open-cut installed utility facilities
 - Primarily major projects: gas sewer, pipelines
 - Main reason: Safety

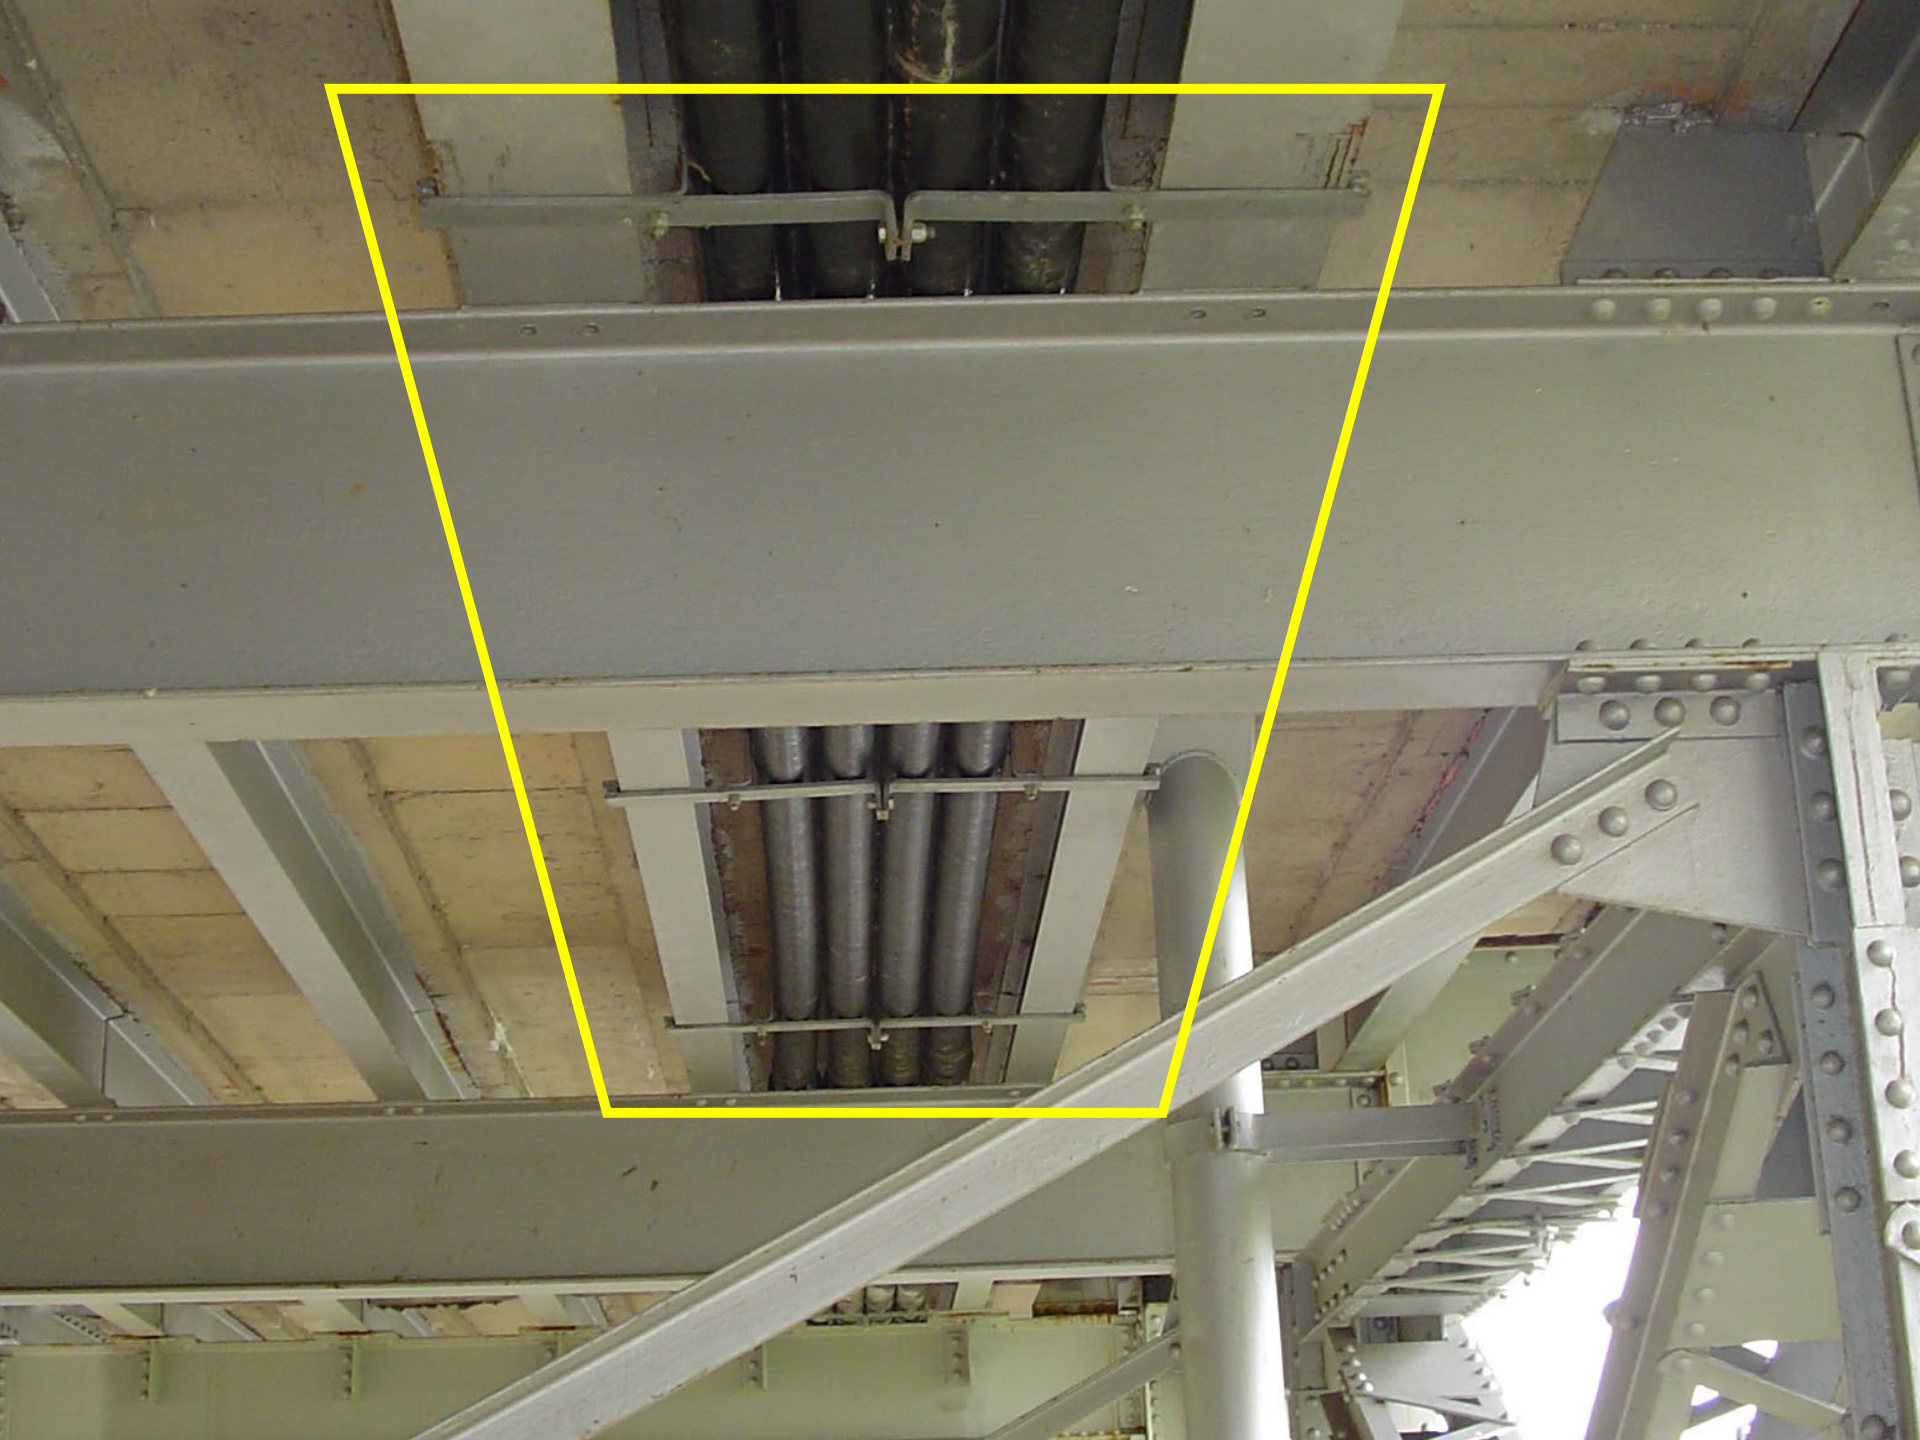

Targeted topics

- Structure attachments 09-15-30
 - Add information/guidance when structure attachments are allowed
 - Clamping systems – no drilling into girders or deck
 - Providing attachment information during structure design – not after the design has been completed
 - Yearly inspections/maintenance required

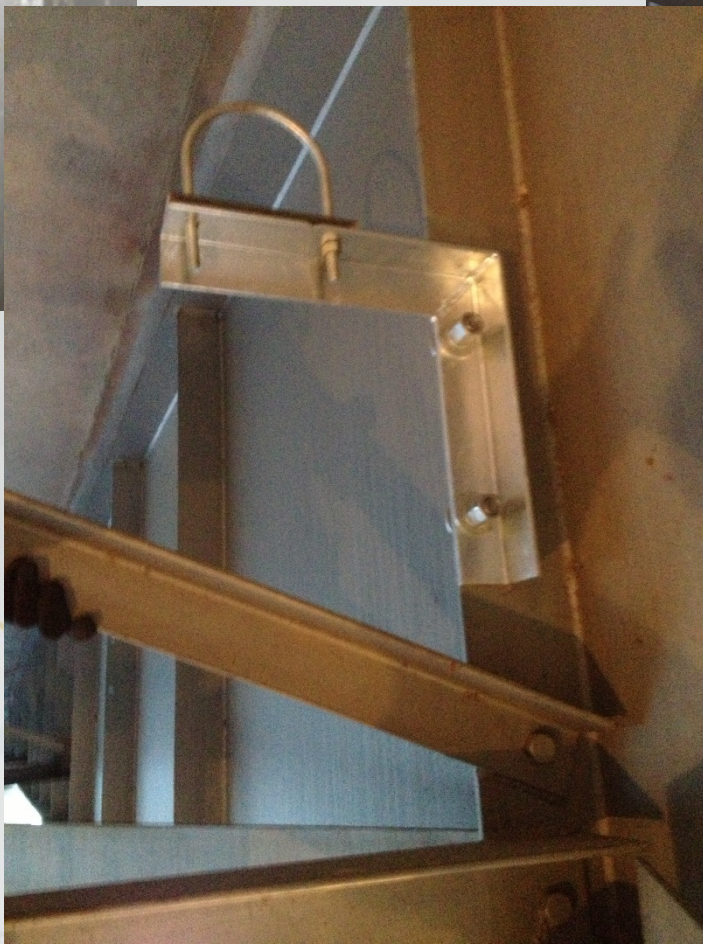

Targeted topics

- Controlled-access highways 09-15-40
 - Update highway listing in section 2.3
 - Additional requirements for new electric transmission line projects
 - Rural broadband deployment in unserved and underserved areas of Wisconsin
 - Develop separate procedure for cellular
 - Recent FCC requirements for 5G deployment
 - Installation types
 - Agreements
 - Pricing

FEE SCHEDULE for CELLULAR OCCUPATIONS on WisDOT HIGHWAY RIGHT-OF-WAY

Cellular Site Description		Annual Site Fee by Highway Category			
		A	B	C	D
1. Install lattice tower or tall monopole with buildings		\$6,000	\$9,000	\$12,000	\$15,000
2. Install macro cell with pole or attach it to a WisDOT building		\$900	\$1,200	\$1,800	\$2,400
3. Attach* small cell or antenna to WisDOT facility (streetlight, signal, sign, building)		\$600	\$800	\$1,200	\$1,800
4. Attach* small cell or antenna to non-WisDOT (third party) facility		\$300	\$400	\$600	\$900
* Includes installation of a separate pole to attach the small cell or antenna					
Other factors:	No fee charged for initial installation of broadband in unserved or underserved areas (using PSC mapping)				
	Fees may be reduced or waived when State Patrol antennas are collocated				
	Rates fixed for 5 years (four, 5-year terms), then increased by the CPI change ¹				
Highway category: (AADT = Annual Average Daily Traffic)		A: Not controlled-access: AADT ≤ 2,000 C: <u>Controlled-access</u> : AADT < 100,000		B: Not controlled-access: AADT > 2,000 D: Controlled-access: AADT ≥ 100,000	

Site Descriptions

Lattice tower or tall monopole

Macro cell

Macro cells may be installed on rooftops, building facades, monopoles and other steel structures. These cells provide coverage over a broad area (up to several miles in some cases) while handling capacity demands from many mobile device users.

Small cell

Small cells are miniature versions of traditional cell sites. They are self-contained, small, lightweight and low power and are an extension of the macro network. Small cell technology includes microcells, picocells, metrocells, and femtocells.

Antenna attachment

FCC 5G deployment order

Shot clocks for approval

- **Create two new categories of shot clocks** for small cell wireless facility review. Local governments would have 60 days to complete review of applications for collocated small cells, and 90 days for small cells on new structures. These shot clocks include “all aspects of and steps in the siting process,” including mandatory pre-application procedures, public notice and meeting periods, and construction permitting.
- **Determine that exceeding the shot clock is a “prohibition on the provision of services,”** and allow wireless site applicants to seek expedited injunctive relief in court within 30 days of a local government missing a shot clock deadline.

Targeted topics

- Environmental information in 09-15-01 & 09-15-15
 - Update criteria and guidance
 - Include additional requirements for NEPA/WEPA documents when needed with an FHWA action

GENERAL NOTES

THIS DETAIL IS TYPICAL FOR CLOSING THE RIGHT SHOULDER. FOR CLOSING THE LEFT SHOULDER, REVERSE THE TRAFFIC CONTROL.

THIS DETAIL MAY BE USED FOR DIVIDED ROADWAYS WITH ANY NUMBER OF TRAVEL LANES.

THE EXACT NUMBER, LOCATION AND SPACING OF ALL SIGNS AND DEVICES SHALL BE ADJUSTED TO FIT FIELD CONDITIONS AS APPROVED BY THE ENGINEER.

ALL SIGNS ARE 48" X 48" UNLESS OTHERWISE NOTED.

SIGN LAYOUTS SHALL BE IN ACCORDANCE WITH THE FHWA'S MANUAL OF STANDARD HIGHWAY SIGNS OR THE WISCONSIN STANDARD SIGN PLATES.

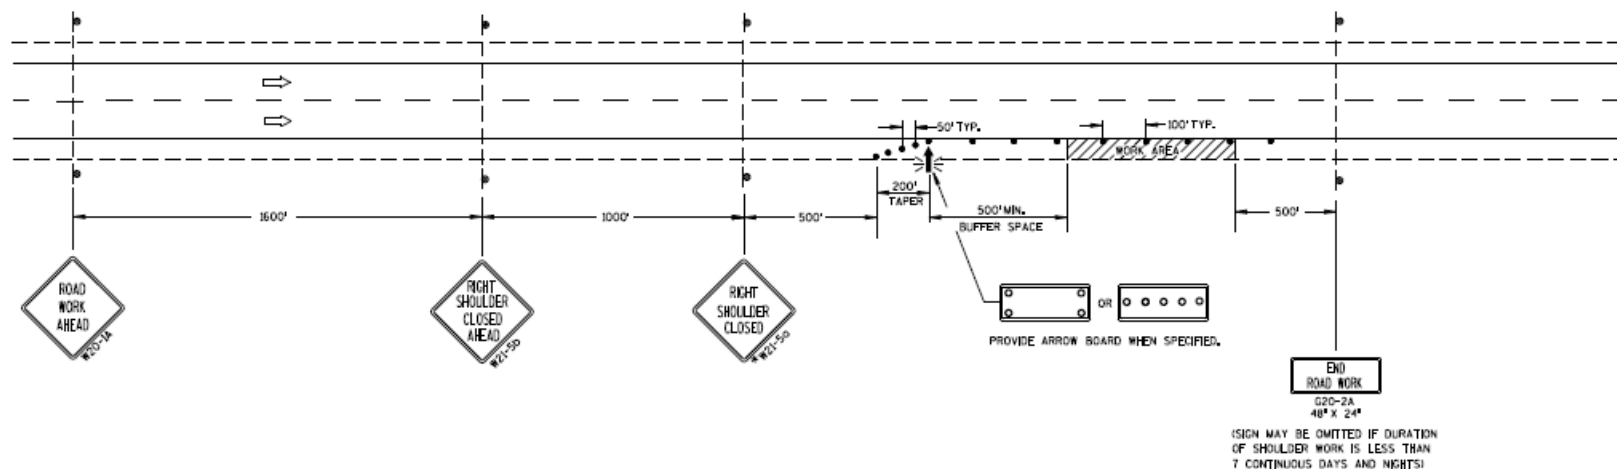

SIGNS THAT WILL BE IN PLACE LESS THAN 7 CONTINUOUS DAYS AND NIGHTS MAY BE MOUNTED ON PORTABLE SUPPORTS.

ANY SIGNS TEMPORARY OR EXISTING, WHICH CONFLICT WITH TRAFFIC CONTROL *IN USE* SHALL BE REMOVED OR COVERED AS NEEDED AND AS APPROVED BY THE ENGINEER.

CHANNELIZING DEVICES PLACED ADJACENT TO THE WORK AREA SHALL BE PULLED BACK FROM THE TRAVEL LANE WHEN WORK IS NOT IN PROGRESS.

WHEN A RAMP INTERSECTS THE FACILITY ON WHICH THE WORK IS BEING PERFORMED, ADDITIONAL TRAFFIC CONTROLS SHALL BE PROVIDED AS SPECIFIED IN THE PLANS AND/OR THE SPECIAL PROVISIONS OR AS APPROVED BY THE ENGINEER.

*FOR SHORT DURATION SHOULDER WORK OF LESS THAN ONE HOUR, THE W21-50 SIGN MAY BE OMITTED.

Pedestrian Accommodation in Work Zones: The Basics

Whenever you are working on or near a sidewalk or walking path as part of a temporary traffic control (TTC) zone, you must accommodate pedestrians who use that sidewalk or path, including individuals with disabilities. This is a federal standard defined in Section 6D.02 (03) of the *Manual on Uniform Traffic Control Devices (MUTCD)*:

When existing pedestrian facilities are disrupted, closed, or relocated in a TTC zone, the temporary facilities shall be detectable and include accessibility features consistent with the features present in the existing pedestrian facility. Where pedestrians with visual disabilities normally use the closed sidewalk, a barrier that is detectable by a person with a visual disability traveling with the aid of a long cane shall be placed across the full width of the closed sidewalk.

This requirement applies to all TTC zones by state and local transportation agencies, construction and maintenance contractors (both road and vertical construction), utility companies, landscaping companies, as well as any sidewalk, lane, or road closures for vertical construction activities.
