PROPOSAL REQUIREMENTS AND CONDITIONS

The bidder, signing and submitting this proposal, agrees and declares as a condition thereof, to be bound by the following conditions and requirements.

If the bidder has a corporate relationship with the proposal design engineering company, the bidder declares that it did not obtain any facts, data, or other information related to this proposal from the design engineering company that was not available to all bidders.

The bidder declares that they have carefully examined the site of, and the proposal, plans, specifications and contract forms for the work contemplated, and it is assumed that the bidder has investigated and is satisfied as to the conditions to be encountered, as to the character, quality, and quantities of work to be performed and materials to be furnished, and as to the requirements of the specifications, special provisions and contract. It is mutually agreed that submission of a proposal shall be considered conclusive evidence that the bidder has made such examination.

The bidder submits herewith a proposal guaranty in proper form and amount payable to the party as designated in the advertisement inviting proposals, to be retained by and become the property of the owner of the work in the event the undersigned shall fail to execute the contract and contract bond and return the same to the office of the engineer within fourteen (14) days after having been notified in writing to do so; otherwise to be returned.

The bidder declares that they understand that the estimate of quantities in the attached schedule is approximate only and that the attached quantities may be greater or less in accordance with the specifications.

The bidder agrees to perform the said work, for and in consideration of the payment of the amount becoming due on account of work performed, according to the unit prices bid in the following schedule, and to accept such amounts in full payment of said work.

The bidder declares that all of the said work will be performed at their own proper cost and expense, that they will furnish all necessary materials, labor, tools, machinery, apparatus, and other means of construction in the manner provided in the applicable specifications and the approved plans for the work together with all standard and special designs that may be designed on such plans, and the special provisions in the contract of which this proposal will become a part, if and when accepted. The bidder further agrees that the applicable specifications and all plans and working drawings are made a part hereof, as fully and completely as if attached hereto.

The bidder, if awarded the contract, agrees to begin the work not later than ten (10) days after the date of written notification from the engineer to do so, unless otherwise stipulated in the special provisions.

The bidder declares that if they are awarded the contract, they will execute the contract agreement and begin and complete the work within the time named herein, and they will file a good and sufficient surety bond for the amount of the contract for performance and also for the full amount of the contract for payment.

The bidder, if awarded the contract, shall pay all claims as required by Section 779.14, Statutes of Wisconsin, and shall be subject to and discharge all liabilities for injuries pursuant to Chapter 102 of the Statutes of Wisconsin, and all acts amendatory thereto. They shall further be responsible for any damages to property or injury to persons occurring through their own negligence or that of their employees or agents, incident to the performance of work under this contract, pursuant to the Standard Specifications for Road and Bridge Construction applicable to this contract.

In connection with the performance of work under this contract, the contractor agrees to comply with all applicable state and federal statutes relating to non-discrimination in employment. No otherwise qualified person shall be excluded from employment or otherwise be subject to discrimination in employment in any manner on the basis of age, race, religion, color, gender, national origin or ancestry, disability, arrest or conviction record (in keeping with s.111.32), sexual orientation, marital status, membership in the military reserve, honesty testing, genetic testing, and outside use of lawful products. This provision shall include, but not be limited to the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation, and selection for training, including apprenticeship. The contractor further agrees to ensure equal opportunity in employment to all applicants and employees and to take affirmative action to attain a representative workforce.

The contractor agrees to post notices and posters setting forth the provisions of the nondiscrimination clause, in a conspicuous and easily accessible place, available for employees and applicants for employment.

If a state public official (section 19.42, Stats.) or an organization in which a state public official holds at least a 10% interest is a party to this agreement, this contract is voidable by the state unless appropriate disclosure is made to the State of Wisconsin Ethics Board.

Effective with August 2015 Letting

BID PREPARATION

Preparing the Proposal Schedule of Items

A General

- (1) Obtain bidding proposals as specified in [section 102](#) of the standard specifications prior to 11:45 AM of the last business day preceding the letting. Submit bidding proposals using one of the following methods:
 1. Electronic bid on the internet.
 2. Electronic bid on a printout with accompanying diskette or CD ROM.
 3. Paper bid under a waiver of the electronic submittal requirements.
- (2) Bids submitted on a printout with accompanying diskette or CD ROM or paper bids submitted under a waiver of the electronic submittal requirements govern over bids submitted on the internet.

- (3) The department will provide bidding information through the department's web site at:
<http://wisconsindot.gov/Pages/doing-bus/contractors/hcci/bid-let.aspx>

The contractor is responsible for reviewing this web site for general notices as well as information regarding proposals in each letting. The department will also post special notices of all addenda to each proposal through this web site no later than 4:00 P.M. local time on the Thursday before the letting. Check the department's web site after 5:00 P.M. local time on the Thursday before the letting to ensure all addenda have been accounted for before preparing the bid. When bidding using methods 1 and 2 above, check the Bid Express™ on-line bidding exchange at <http://www.bidx.com/> after 5:00 P.M. local time on the Thursday before the letting to ensure that the latest schedule of items Expedite file (*.ebs or *.00x) is used to submit the final bid.

- (4) Interested parties can subscribe to the Bid Express™ on-line bidding exchange by following the instructions provided at the www.bidx.com web site or by contacting:

Info Tech Inc.
5700 SW 34th Street, Suite 1235
Gainesville, FL 32608-5371
email: <mailto:customer.support@bidx.com>

- (5) The department will address equipment and process failures, if the bidder can demonstrate that those failures were beyond their control.
- (6) Contractors are responsible for checking on the issuance of addenda and for obtaining the addenda. Notice of issuance of addenda is posted on the department's web site at:
<http://wisconsindot.gov/Pages/doing-bus/contractors/hcci/bid-let.aspx>

or by calling the department at (608) 266-1631. Addenda can ONLY be obtained from the departments web site listed above or by picking up the addenda at the Bureau of Highway Construction, Room 601, 4802 Sheboygan Avenue, Madison, WI, during regular business hours.

- (7) Addenda posted after 5:00 PM on the Thursday before the letting will be emailed to the eligible bidders for that proposal. All eligible bidders shall acknowledge receipt of the addenda whether they are bidding on the proposal or not. Not acknowledging receipt may jeopardize the awarding of the project.

B Submitting Electronic Bids

B.1 On the Internet

- (1) Do the following before submitting the bid:
 1. Have a properly executed annual bid bond on file with the department.
 2. Have a digital ID on file with and enabled by Info Tech Inc. Using this digital ID will constitute the bidder's signature for proper execution of the bidding proposal.
- (2) In lieu of preparing, delivering, and submitting the proposal as specified in 102.6 and 102.9 of the standard specifications, submit the proposal on the internet as follows:
 1. Download the latest schedule of items reflecting all addenda from the Bid ExpressTM web site.
 2. Use ExpediteTM software to enter a unit price for every item in the schedule of items.
 3. Submit the bid according to the requirements of ExpediteTM software and the Bid ExpressTM web site. Do not submit a bid on a printout with accompanying diskette or CD ROM or a paper bid. If the bidder does submit a bid on a printout with accompanying diskette or a paper bid in addition to the internet submittal, the department will disregard the internet bid.
 4. Submit the bid before the hour and date the Notice to Contractors designates.
 5. Do not sign, notarize, and return the bidding proposal described in 102.2 of the standard specifications.
- (3) The department will not consider the bid accepted until the hour and date the Notice to Contractors designates.

B.2 On a Printout with Accompanying Diskette or CD ROM

- (1) Download the latest schedule of items from the Wisconsin pages of the Bid ExpressTM web site reflecting the latest addenda posted on the department's web site at:
<http://wisconsindot.gov/Pages/doing-bus/contractors/hcci/bid-let.aspx>
Use ExpediteTM software to prepare and print the schedule of items. Provide a valid amount for all price fields. Follow instructions and review the help screens provided on the Bid ExpressTM web site to assure that the schedule of items is prepared properly.
- (2) Staple an 8 1/2 by 11 inch printout of the ExpediteTM generated schedule of items to the other proposal documents submitted to the department as a part of the bidder's sealed bid. As a separate submittal not in the sealed bid envelop but due at the same time and place as the sealed bid, also provide the ExpediteTM generated schedule of items on a 3 1/2 inch computer diskette or CD ROM. Label each diskette or CD ROM with the bidder's name, the 4 character department-assigned bidder identification code from the top of the bidding proposal, and a list of the proposal numbers included on that diskette or CD ROM as indicated in the following example:

Bidder

Name

BN00

Proposals: 1, 12, 14, & 22

- (3) If bidding on more than one proposal in the letting, the bidder may include all proposals for that letting on one diskette or CD ROM. Include only submitted proposals with no incomplete or other files on the diskette or CD ROM.
- (4) The bidder-submitted printout of the ExpediteTM generated schedule of items is the governing contract document and must conform to the requirements of section 102 of the standard specifications. If a printout needs to be altered, cross out the printed information with ink or typewriter and enter the new information and initial it in ink. If there is a discrepancy between the printout and the diskette or CD ROM, the department will analyze the bid using the printout information.

- (5) In addition to the reasons specified in [section 102](#) of the standard specifications, proposals are irregular and the department may reject them for one or more of the following:
1. The check code printed on the bottom of the printout of the ExpediteTM generated schedule of items is not the same on each page.
 2. The check code printed on the printout of the ExpediteTM generated schedule of items is not the same as the check code for that proposal provided on the diskette or CD ROM.
 3. The diskette or CD ROM is not submitted at the time and place the department designates.

C Waiver of Electronic Submittal

- (1) The bidder may request a waiver of the electronic submittal requirements. Submit a written request for a waiver in lieu of bids submitted on the internet or on a printout with accompanying diskette or CD ROM. Use the waiver that was included with the paper bid document sent to the bidder or type up a waiver on the bidder's letterhead. The department will waive the electronic submittal requirements for a bidding entity (individual, partnership, joint venture, corporation, or limited liability company) for up to 4 individual proposals in a calendar year. The department may allow additional waivers for equipment malfunctions.
- (2) Submit a schedule of items on paper conforming to [section 102](#) of the standard specifications. The department charges the bidder a \$75 administrative fee per proposal, payable at the time and place the department designates for receiving bids, to cover the costs of data entry. The department will accept a check or money order payable to: "Wisconsin, Dept. of Transportation."
- (3) In addition to the reasons specified in [section 102](#) of the standard specifications, proposals are irregular and the department may reject them for one or more of the following:
 1. The bidder fails to provide the written request for waiver of the electronic submittal requirements.
 2. The bidder fails to pay the \$75 administrative fee before the time the department designates for the opening of bids unless the bidder requests on the waiver that they be billed for the \$75.
 3. The bidder exceeds 4 waivers of electronic submittal requirements within a calendar year.
- (4) In addition to the reasons specified in [section 102](#) of the standard specifications, the department may refuse to issue bidding proposals for future contracts to a bidding entity that owes the department administrative fees for a waiver of electronic submittal requirements.

PROPOSAL BID BOND

DT1303 1/2006

Wisconsin Department of Transportation

Proposal Number	Project Number	Letting Date
Name of Principal		
Name of Surety	State in Which Surety is Organized	

We, the above-named Principal and the above-named Surety, are held and firmly bound unto the State of Wisconsin in the sum equal to the Proposal Guaranty for the total bid submitted for the payment to be made; we jointly and severally bind ourselves, our heirs, executors, administrators, successors and assigns. The condition of this obligation is that the Principal has submitted a bid proposal to the State of Wisconsin acting through the Department of Transportation for the improvement designated by the Proposal Number and Letting Date indicated above.

If the Principal is awarded the contract and, within the time and manner required by law after the prescribed forms are presented for signature, enters into a written contract in accordance with the bid, and files the bond with the Department of Transportation to guarantee faithful performance and payment for labor and materials, as required by law, or if the Department of Transportation shall reject all bids for the work described, then this obligation shall be null and void; otherwise, it shall be and remain in full force and effect. In the event of failure of the Principal to enter into the contract or give the specified bond, the Principal shall pay to the Department of Transportation **within 10 business days of demand** a total equal to the Proposal Guaranty as liquidated damages; the liability of the Surety continues for the full amount of the obligation as stated until the obligation is paid in full.

The Surety, for value received, agrees that the obligations of it and its bond shall not be impaired or affected by any extension of time within which the Department of Transportation may accept the bid; and the Surety does waive notice of any such extension.

IN WITNESS, the Principal and Surety have agreed and have signed by their proper officers and have caused their corporate seals to be affixed this date: **(DATE MUST BE ENTERED)**

CERTIFICATE OF ANNUAL BID BOND

DT1305 8/2003

Wisconsin Department of Transportation

Time Period Valid (From/To)	
Name of Surety	
Name of Contractor	
Certificate Holder	Wisconsin Department of Transportation

This is to certify that an annual bid bond issued by the above-named Surety is currently on file with the Wisconsin Department of Transportation.

This certificate is issued as a matter of information and conveys no rights upon the certificate holder and does not amend, extend or alter the coverage of the annual bid bond.

Cancellation: Should the above policy be cancelled before the expiration date, the issuing surety will give thirty (30) days written notice to the certificate holder indicated above.

(Signature of Authorized Contractor Representative)

(Date)

March 2010

LIST OF SUBCONTRACTORS

Section 66.0901(7), Wisconsin Statutes, provides that as a part of the proposal, the bidder also shall submit a list of the subcontractors the bidder proposes to contract with and the class of work to be performed by each. In order to qualify for inclusion in the bidder's list a subcontractor shall first submit a bid in writing, to the general contractor at least 48 hours prior to the time of the bid closing. The list may not be added to or altered without the written consent of the municipality. A proposal of a bidder is not invalid if any subcontractor and the class of work to be performed by the subcontractor has been omitted from a proposal; the omission shall be considered inadvertent or the bidder will perform the work personally.

No subcontract, whether listed herein or later proposed, may be entered into without the written consent of the Engineer as provided in Subsection 108.1 of the Standard Specifications.

[illegible]

DECEMBER 2000

**CERTIFICATION REGARDING DEBARMENT, SUSPENSION, AND OTHER
RESPONSIBILITY MATTERS - PRIMARY COVERED TRANSACTIONS**

Instructions for Certification

1. By signing and submitting this proposal, the prospective contractor is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective contractor shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective contractor to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when the department determined to enter into this transaction. If it is later determined that the contractor knowingly rendered an erroneous certification in addition to other remedies available to the Federal Government the department may terminate this transaction for cause or default.
4. The prospective contractor shall provide immediate written notice to the department to whom this proposal is submitted if at any time the prospective contractor learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549. You may contact the department to which this proposal is being submitted for assistance in obtaining a copy of those regulations.
6. The prospective contractor agrees by submitting this proposal that, should this contract be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department entering into this transaction.
7. The prospective contractor further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," which is included as an addendum to PR-1273 - "Required Contract Provisions Federal Aid Construction Contracts," without

modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. The contractor may rely upon a certification of a prospective subcontractor/materials supplier that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A contractor may decide the method and frequency by which it determines the eligibility of its principals. Each contractor may, but is not required to, check the Disapproval List (telephone # 608/266/1631).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a contractor is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
10. Except for transactions authorized under paragraph 6 of these instructions, if a contractor in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department may terminate this transaction for cause or default.

Certification Regarding Debarment, Suspension, and Other Responsibility Matters - Primary Covered Transactions

- (1) The prospective contractor certifies to the best of its knowledge and belief, that it and its principals:
 - (a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
 - (b) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements or receiving stolen property;
 - (c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offense enumerated in paragraph (1)(b) of this certification; and
 - (d) Have not within a three-year period preceding this proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
- (2) Where the prospective contractor is unable to certify to any of the statements in this certification, such prospective contractor shall attach an explanation to this proposal.

SPECIAL PROVISIONS

1. General.

Perform the work under this construction contract for Project 1060-35-81, Zoo IC - Landscaping, Zoo IC Project Limits, Var Hwy, Milwaukee, Wisconsin as the plans show and execute the work as specified in the State of Wisconsin, Department of Transportation, Standard Specifications for Highway and Structure Construction, 2018 Edition, as published by the department, and these special provisions.

If all or a portion of the plans and special provisions are developed in the SI metric system and the schedule of prices is developed in the US standard measure system, the department will pay for the work as bid in the US standard system.

100-005 (20170615)

2. Scope of Work.

The work under this contract shall consist of planting, restoration and all incidental items necessary to complete the work as shown on the plans and included in the proposal and contract.

104-005 (20090901)

3. Prosecution and Progress.

Begin work within ten calendar days after the engineer issues a written notice to do so.

Provide the start date to the engineer in writing within a month after executing the contract but at least 14 calendar days before the preconstruction conference. Upon approval, the engineer will issue the notice to proceed within 10 calendar days before the approved start date.

To revise the start date, submit a written request to the engineer at least two weeks before the intended start date. The engineer will approve or deny that request based on the conditions cited in the request and its effect on the department's scheduled resources.

There are numerous existing utility facilities throughout the project limits. These facilities will remain in place without adjustment. No utility relocations are anticipated for this project. Contact Digger's Hotline in order to arrange utility locations. Adjust proposed landscape locations as necessary and with approval of engineer to avoid conflict with existing utility facilities.

Contractor Coordination

Provide an individual to serve as the contractor's sole point of contact for field utility coordination and communication for the duration of the project.

Attend weekly scheduling meetings to discuss the near term schedule activities, address any long-term schedule issues, and discuss any relevant technical issues. Develop a rolling three-week schedule identifying the previous week worked and a two week “look ahead”. Provide sufficient detail to include actual and planned activities and all the subcontractors for offsite and construction activities, addressing all activities including ramp and lane closure schedules to be performed and identifying issues requiring engineering action or input.

Advance Notification

Notify the engineer if there are any changes in the schedule, early completions, or cancellations of scheduled work. Coordinate the locations of messages of portable changeable message sign with the engineer and WisDOT STOC. Notify the engineer of proposed changes for alternate routes and detours and provide a revised signing plan for the review by and approval of the engineer.

Notify the engineer and Karl Hackbarth of the Milwaukee County Zoo at (414) 256-5413 five business days in advance of commencing any work that affects the Milwaukee County Zoo property or access to the Zoo Maintenance Facility.

Portable Changeable Message Signs

Obtain acceptance from the engineer regarding the wording of all messages on portable changeable message signs prior to placing the message.

Freeway and Ramp Work Restrictions

Definitions

The following definitions apply to this contract for freeway work restrictions:

System Ramps	Freeway to freeway ramps
Service Ramps	Freeway to/from local road ramps

Weekday Peak Hours

- 5:30 AM – 9:00 AM Monday, Tuesday, Wednesday, Thursday, and Friday
- 2:00 PM – 7:00 PM Monday, Tuesday, Wednesday, Thursday, and Friday

Weekday Midday

- 9:00 AM – 2:00 PM Monday, Tuesday, Wednesday, Thursday, and Friday

Weekend Peak Hours

- 10:00 AM – 7:00 PM Saturday, Sunday

Weekend Off-Peak Hours

- 8:00 AM – 10:00 AM Saturday, Sunday
- 7:00 PM – 11:00 PM Saturday
- 7:00 PM – 9:30 PM Sunday

Weekday Off-Peak Hours

- 7:00 PM – 9:30 PM Monday, Tuesday, Wednesday, Thursday
- 7:00 PM – 11:00 PM Friday

Night Time Hours

- 9:30 PM – 5:30 AM (Sunday PM to Monday AM, Monday PM to Tuesday AM, Tuesday PM to Wednesday AM, Wednesday PM to Thursday AM, Thursday PM to Friday AM)
- 11:00 PM – 8:00 AM (Friday PM to Saturday AM, Saturday PM to Sunday AM)

Full Freeway and System Ramp Closure/Hours

- 11:00 PM – 4:30 AM (Sunday PM to Monday AM, Monday PM to Tuesday AM, Tuesday PM to Wednesday AM, Wednesday PM to Thursday AM, Thursday PM to Friday AM)
- 11:00 PM – 6:00 AM (Friday PM to Saturday AM, Saturday PM to Sunday AM)

Do not close freeway lanes or shoulders and ensure that the freeways are entirely clear for traffic during Weekday Peak Hours, Weekday Midday, and Weekend Peak Hours. Close service ramps only during Night Time Hours, unless otherwise specified in the plan, or unless otherwise approved by the engineer for safety or operational reasons associated with other adjacent lane or freeway closures.

Interim and Final Completion of Work

Supplement standard spec 108.10 with the following:

The department will not grant time extensions for the following:

- Severe weather as specified in standard spec 108.10.2.2.
- Labor disputes that are not industry wide.
- Delays in material deliveries.

sef-108-015 (20171004)

Interim Completion of Work 05/31/2019

If the contractor fails to complete all of the work necessary to complete all of the planting, seeding and final restoration by 12:01 AM on June 1, 2019, the department will assess the contractor \$1,540 in liquidated damages per calendar day for each calendar day after 12:01 AM on June 1, 2019, that this work is not completed. An entire calendar day will be charged for any period of time within a calendar day that this work remains uncompleted beyond 12:01 AM, on June 1, 2019.

If contract time expires prior to completing all work specified in the contract, additional liquidated damages will be affixed according to standard spec 108.11.

4. Traffic.

General

Keep IH 894, IH 94, USH 45, all system ramps and all service ramps open to through traffic at all times for the duration of this project except as noted below and in the Prosecution and Progress article in these special provisions.

Residential and Business Property Access

Maintain access to properties along Bluemound Road, Wisconsin Avenue, N. 97th Street, N. 95th Street, W. Adler Street (and all adjacent side streets), W. Chester Street, Schlinger Avenue, S. 100th Street, Curtis Road, Fairview Avenue and any other local road effected by construction for local residents, businesses, and emergency vehicles. Maintain and keep open the access to all driveways and parking lots.

Pedestrian Access

Maintain sidewalk at all times except under direction of the engineer. Maintain sidewalk access to all businesses and residences at all times.

Maintain pedestrian movements crossing the construction zone at all intersections at all times, unless otherwise directed by the engineer. At all times, ADAAG accessible pedestrian walkways shall be maintained free from mud, sand, and construction debris. Closures of sidewalk must be approved by the engineer and conform to signing shown on the traffic control plan. At locations where crosswalks crossing Bluemound Road, Wisconsin Avenue, S. 100th Street, 95th Street, 97th Street, Fairview Avenue, Schlinger Avenue and Curtis Road exist on both sides of the intersection, closure of one of the two crosswalks is permitted as long as all other crossings are completely open. At intersections where only one crosswalk exists crossing Wisconsin Avenue, S. 100th Street, 95th Street, 97th Street, Fairview Avenue, and Curtis Road, stage work to maintain a crosswalk at all times.

5. Holiday and Special Event Work Restrictions.

Holiday Restrictions

Do not perform work on, nor haul materials of any kind along or across any portion of the highway right-of-way of USH 45, IH 94, IH 894, and entirely clear the traveled way and shoulders of such portions of the highway of equipment, barricades, signs, lights, and any other material that might impede the free flow of traffic during the following holiday periods:

- From noon Friday, May 25, 2018 to 6:00 AM Tuesday, May 29, 2018 for Memorial Day;
- From noon Tuesday, July 3, 2018 to 6:00 AM Thursday, July 5, 2018 for Independence Day;
- From noon Friday, August 31, 2018 to 6:00 AM Tuesday, September 4, 2018 for Labor Day;

- From noon Wednesday, November 21, 2018 to 6:00 AM Monday, November 26, 2018 for Thanksgiving;
- From noon Friday, December 21, 2018 to 6:00 AM Wednesday, December 26, 2018 for Christmas;
- From noon Friday, December 28, 2018 to 6:00 AM Wednesday, January 2, 2019 for New Years' Day;
- From noon Friday, May 24, 2019 to 6:00 AM Tuesday, May 28, 2019 for Memorial Day.

Provide any proposals to work within the work zone(s) adjacent to the highway carrying USH 45, IH 94, and IH 894 traffic during the established holiday periods to the engineer for approval. Proposals will include a plan that establishes work type, hours of operations, and will certify no ingress/egress to the site by construction or worker vehicles from USH 45, IH 94, and IH 894 consistent with the above restrictions for equipment, barricades, signs, lights, and any other material that might impede the free flow of traffic as noted above.

Freeway Special Event Restrictions

During Summer Fest, scheduled for June 27 through July 8, 2018, keep open the following roadways until one hour after the event closes each night:

- System ramps
- Service interchange ramps at the Watertown Plank, 84th Street, and 68th/70th Street service interchanges
- Maintain two open lanes on IH 94 WEST, IH 94 EAST, and USH 45, north of I-94, in both directions.

During Wisconsin State Fair, scheduled for August 2-12, 2018, keep open the following roadways until one hour after the event closes each night:

- System ramps
- Service interchange ramps
- Maintain two open lanes on IH 94 and USH 45 in both directions.

On days with a Milwaukee Brewer home game at Miller Park, maintain two outbound lanes on westbound IH 94 from Miller Park up until four hours after the start of the game. IH94 restrictions during other special events at Miller Park will be determined on an as needed basis.

Local Road Special Event Restrictions

Work will be restricted on these local roads during these special events.

- On Bluemound Road, between HWY 100 and 95th Street, no work allowed during the Milwaukee County Zoo's A la Carte event, August 16-19, 2018.

- On 84th Street between Bluemound Road and Greenfield Avenue and Kearney between 84th Street and 70th Street, no work allowed on days with the Wisconsin State Fair festival at State Fair Park, August 2-12, 2018.

These restrictions also apply to hauling of materials and equipment.

6. Utilities.

This contract comes under the provisions of Administrative Rule TRANS 220.

Additional information regarding recently relocated utility facilities may be available on permits issued to the utility companies. These permits can be viewed at the Region Office during normal working hours. Contact WisDOT SE Freeways Utility Coordinator Greg Berry at (414) 750-7828 for further information.

Underground and overhead utility facilities are located within the project limits. Coordinate construction activities with a call to Diggers Hotline or a direct call to the utilities that have facilities in the area as required per state statute. Use caution to ensure the integrity of underground facilities and maintain code clearances from overhead facilities at all times.

Contact utility companies listed in the plans prior to preparing bids to obtain current information on existing utility locations and the status of any new utility relocation work.

There may be discontinued utility facilities within the project limits. If a conflict with a discontinued utility facility is encountered, contact the appropriate utility owner/representative to coordinate construction activities and proper removal and disposal of said facility as necessary.

Known utilities in the projects are as follows:

American Transmission Company has overhead and underground 138kV electric transmission lines within the project limits in the following locations:

- Three overhead 138kV electric transmission circuits beginning at the Bluemound Substation east of S. 116th Street and running northwesterly, crossing IH 94 between Station 125EW+25 and Station 126EW+85, and continuing northwesterly to beyond the project limits. These lines will remain in place without adjustment.
- Six overhead 138kV electric transmission circuits beginning at the Bluemound Substation east of S. 116th Street and running northeasterly to approximately 543SC+23, 45'RT where they turn and run southeasterly along the south side of IH 94 to approximately Station 169EW+78, 288'RT. From there they turn and run northeasterly, crossing IH 94 between Station 171EW+35 and Station 174EW+78, and continue northeasterly on the south side of the Milwaukee County Zoo, crossing USH 45 between Station 299NS+50 and Station 302NS+08, and continue northeasterly to the 96th Street Substation in the northeast quadrant of the Zoo Interchange. These lines will remain in place without adjustment.

- Two overhead 138kV electric transmission circuits beginning at the 96th Street Substation in the northeast quadrant of the Zoo Interchange and running southwesterly, crossing IH 94 between Station 196EW+62 and Station 198EW+68, to approximately Station 277NS+33, 179'RT. From there the lines run southerly along the east side of USH 45/ IH 894 to beyond the southerly project limits. These lines will remain in place without adjustment.
- Two overhead 138kV electric transmission circuits beginning at the West Junction Substation east of USH 45/ IH 894 at the Union Pacific Railroad and running westerly, crossing USH 45/ IH 894, and continuing westerly to beyond the project limits. These lines will remain in place without adjustment.
- An overhead 138kV electric transmission line beginning at the 96th Street Substation in the northeast quadrant of the Zoo Interchange and running northwesterly to a pole at Station 811BB+79, 28'LT where it turns and runs northerly along the east side of USH 45, crossing Bluemound Road at Station 199BL+63, and continues northerly, crossing Wisconsin Avenue at Station 30WX+10, and continues northerly along the east side of USH 45 to a pole at Station 337NS+34, 132'RT, to a pole at Station 340NS+60, 137'RT and to a pole at Station 343NS+86, 138'RT. From there the line continues northwesterly to a pole at Station 347NS+14, 162'RT, to a pole at Station 349NW+75, 155'RT and then continues northwesterly to a pole at Station 753WJ+92, 15'RT and then continues northerly to a pole at Station 758WJ+20, 37'RT. This line will remain in place without adjustment.
- An underground 138kV transmission line beginning at a pole at Station 758WJ+20, 37'RT and running northeasterly to the eastbound lanes of Watertown Plank Road where it turns and runs easterly to beyond the project limits. This line will remain in place without adjustment.
- An overhead 138kV line beginning beyond the westerly project limits and running easterly, approximately 775' north of Watertown Plank Road, to a pole at Station 773WD+54, 34'LT where it turns and runs northeasterly, crossing USH 45 at Station 373NS+55, and continues northeasterly to a pole at Station 773WA+23, 94'RT. From there it turns and runs southeasterly to a pole at Station 58WWB+02, 76'LT where it turns and runs easterly to a pole at Station 65WWB+04, 65'LT and then continues easterly to beyond the easterly project limits. This line will remain in place without adjustment.

ATC also has discontinued underground electric lines within the project limits in the following locations:

- A discontinued underground 138kV electric transmission line beginning at the Bluemound Substation east of S. 116th Street and running northeasterly, crossing the Hank Aaron State Trail at Station 130HA+65, and continuing northeasterly to Station 143EW+44, 165'RT. From there it turns and runs southeasterly, crossing STH 100 at Station 568SN+81, and continues southeasterly to Station 169EW+62, 103'RT.

- A discontinued underground 138kV electric transmission line beginning at the Bluemound Substation east of S. 116th Street and running northeasterly, crossing the Hank Aaron State Trail at Station 131HA+42, and continuing northeasterly to Station 143EW+43, 196'RT. From there it turns and runs southeasterly, crossing STH 100 at Station 568SN+11, and continuing southeasterly to Station 169EW+82, 142'RT. From there it turns and runs easterly to Station 171EW+23, 112'RT where it turns and runs northeasterly, crossing IH 94 at Station 172EW+56, and continues northeasterly, crossing USH 45 at Station 301NS+17. From there it continues northeasterly to the 96th Street Substation in the northeast quadrant of the Zoo Interchange.

Contact Ivan Keller, (262) 506-6773, of American Transmission Company 7 days in advance to coordinate locations and any excavation near their facilities.

AT&T Legacy (aka. AT&T Corporation) has existing underground communications facilities within the project limits in the following locations:

- An underground communications duct package beginning beyond the project limits at a point in the We Energies 96th Street Substation located at Station 802FH+47, 292'LT and running southwesterly, crossing IH 94 at Station 198EW+05, and continuing southwesterly to a point on the easterly right-of-way of USH 45/ IH 894 at Station 592SE+77, 247'RT. From there the line continues southwesterly to Station 587SE+49, 290'RT where it turns and runs westerly along the north side of the Hank Aaron State Trail, crossing USH 45/ IH 894 at Station 286NS+10, and continuing westerly. From there the line continues westerly and northwesterly along the north side of the Hank Aaron State Trail to Station 565WS+78, 256'RT where it turns and runs westerly across the trail to Station 560WS+62, 317'RT. From there the line runs northwesterly along the south side of the Hank Aaron State Trail to Station 130EW+35, 108'RT where it turns and runs westerly along the north side of Fairview Avenue to Station 121EW+70, 96'RT. From there it turns and runs southwesterly along the north side of Fairview Avenue, crossing S. Curtis Road at Station 11CT+35, and continuing southwesterly along the southerly right-of-way of IH 94 to Station 95EW+71, 140'RT where it turns and runs northerly, crossing IH 94 at Station 95EW+71, and continues northerly to Station 95EW+71, 148'LT. From there it turns and runs westerly along the northerly right-of-way of IH 94 to beyond the westerly project limits. This line will remain in place without adjustment.
- An underground communications duct package beginning beyond the easterly project limits and running westerly along the north side of the Hank Aaron State Trail to Station 184HA+13, 33'LT where it turns and runs southwesterly to a handhole at Station 784GE+60, 135'RT. From there the line turns and runs southerly along the east right-of-way of USH 45/ IH 894, crossing Schlinger Avenue at Station 531SCH+64, and continuing southerly to Station 768GE+07, 56'RT. From there it runs southerly along the existing easterly fence line of USH 45/ IH 894, crossing Greenfield Avenue at Station 519G+21, and continues southerly to Station 749GB+86, 30'RT. From there it runs southerly along the east side of northbound off-ramp to Greenfield Avenue to Station 744GB+00, 26'RT. From there the duct

package continues southerly along the easterly right-of-way of USH 45/ IH 894 to Station 737GB+79, 30'RT and continues southerly to Station 717LA+09, 46'RT. From there it continues southerly to Station 712LA+19, 27'LT where it turns and continues southerly to Station 708LA+83, 44'LT where it turns and continues southerly to Station 704LA+74, 81'LT. From there it turns and runs southwest, crossing Lincoln Avenue at Station 48L+20, and continues southerly along the east fence of USH 45/ IH 894 to beyond the southerly project limits. This line will remain in place without adjustment.

- An underground communications duct package beginning at Station 717LA+09, 46'RT and running southerly to Station 712LA+19, 27'LT where it turns and continues southerly to Station 708LA+83, 44'LT where it turns and continues southerly to Station 704LA+74, 81'LT. This line will remain in place without adjustment.
- An underground communications duct package beginning at Station 749GB+86, 30'RT and running southerly along the east side of northbound off-ramp to Greenfield Avenue to Station 744GB+00, 26'RT. From there the duct package continues southerly along the easterly right-of-way of USH 45/ IH 894 to Station 737GB+79, 30'RT. This line will remain in place without adjustment.
- An underground communications duct package beginning at Station 768GE+07, 56'RT and running southerly along the east right-of-way of USH 45/ IH 894 to Station 758GA+62, 35'RT. This line will remain in place without adjustment.

AT&T Corporation also has discontinued underground communication duct packages within the project limits in the following locations:

- A discontinued underground communications duct package beginning beyond the easterly project limits and running westerly along the northerly fence line of IH 94 to Station 525EN+61, 158'RT. From there it runs westerly through the interchange, crossing USH 45 at Station 299NS+93, and continues westerly to Station 490NW+08, 62'RT. From there it turns and runs southwest along the south side of the NW Ramp to Station 480NW+26, 52'RT where it turns and runs westerly along the north side of IH 94 to Station 558SA+91, 19'LT. From there it turns and runs northwest to Station 577SS+85, 101'RT where it turns and runs westerly, crossing STH 100 at Station 577SS+85, and continues westerly along the north fence of IH 94 to Station 95EW+70, 148'LT. Portions of this line may have been previously removed during the Zoo IC Phase 1 project.
- A discontinued underground communications duct package beginning beyond the easterly project limits and running westerly along the southerly fence line of IH 94 to Station 800FC+00, 0'LT where it turns and runs southwest along the east right-of-way of USH 45/ IH 894 to Station 600SW+00, 11'RT where it turns and runs southerly to Station 767GE+57, 76'LT. Portions of this line may have been previously removed as part of the Zoo IC Phase 1 project.
- A discontinued underground communications duct package beginning at Station 768GE+07, 56'RT and running southwest to Station 767GE+57, 76'LT.

- A discontinued underground communications duct package beginning at a handhole at Station 530SCH+34, 24'LT and running westerly along the north side of Schlinger Avenue to beyond the westerly project limits. Portions of this line may have been previously removed as part of the Zoo IC Phase 1 project.
- A discontinued underground communications duct package between Station 768GE+07, 23'LT and Station 758GA+62, 35'RT, crossing Ramp GA at Station 760GA+16. Portions of this line may have been previously removed as part of the Zoo IC Phase 1 project.
- A discontinued underground duct package beginning at Station 749GB+86, 30'RT, heads east to Station 750GB+04, 241'RT and turns south along the east right-of-way line to Station 737GB+79, 30'RT. Portions of this line may have been previously removed as part of the Zoo IC Phase 1 project.
- A discontinued underground communications duct package between Station 749GB+86, 30'RT and Station 737GB+79, 30'RT. Portions of this line may have been previously removed as part of the Zoo IC Phase 1 project.
- A Discontinued underground duct package along the east right-of-way line between Station 717LA+09, 46'RT and Station 705LA+10, 38'RT, then turns and runs southwesterly to Station 704LA+74, 81'LT. Portions of this line may have been previously removed as part of the Zoo IC Phase 1 project.

Contact Ken Nine, (574) 904-6336 cell, of JMC Engineers & Associates, Inc. 7 days in advance to coordinate locations and any excavation near their facilities.

AT&T Local Network (aka. Teleport Communications of America) has underground and overhead communication facilities within the project limits in the following location:

- An underground communications line beginning at a pole at Station 123EW+15, 224' LT and running southerly to Station 123EW+00, 165'LT where it turns and runs southeasterly, crossing IH 94 at Station 123EW+45, and continuing southeasterly to a pole at Station 124EW+14, 185' RT. This line will remain in place without adjustment.
- An overhead communications line beginning at a pole at Station 124EW+14, 185' RT and running easterly to a pole at Station 130EW+51, 192'RT. This line will remain in place without adjustment.
- An underground communications line beginning at a pole at Station 130EW+51, 192'RT and running northerly to the previously described AT&T Corporation duct package at Station 130EW+79, 126'LT where it turns and runs in a joint location with AT&T Corporation along the Hank Aaron State Trail to Station 154HA+28, 33' LT. From there it turns and runs southerly, crossing the Hank Aaron State Trail, and continues southerly to beyond the project limits. This line will remain in place without adjustment.
- An underground communications line beginning beyond the westerly project limits near W. Bungalow Parkway and running easterly along the north side of W. Bungalow Parkway to Station 39TD+60, 27'LT where it turns and runs southerly along the west side of S. 100th Street, crossing Schlinger Avenue at Station 526SCH+19, and continues southerly to Station 37TD+10, 26'LT. From there the

line turns and runs easterly, crossing S. 100th Street at Station 37TD+11, and continues easterly to Station 531SCH+51, 30'RT where it turns and runs northeasterly, crossing Schlinger Avenue at Station 531SCH+66, and continues northeasterly to a pole at Station 531SCH+80, 27'LT. This line will remain in place without adjustment.

- An overhead communications line beginning at a pole at Station 531SCH+80, 27'LT and running northeasterly on We Energies poles along the east right-of-way of USH 45/ IH 894 to a pole at Station 182HA+46, 108'RT where it turns and runs easterly to beyond the easterly project limits. This line will remain in place without adjustment.
- An underground communications line in the Union Pacific Railroad corridor beginning beyond the westerly project limits and running easterly north of the railroad tracks, crossing USH 45/ IH 894 at Station 230NS+35 and continuing easterly to beyond the project limits. This line will remain in place without adjustment.
- An underground communications line in the previously described AT&T Corporation duct package beginning at approximately Station 231NS+05, 161' RT and running southerly along the east right-of-way of USH 45/IH 894 to beyond the southerly project limits.
- An underground communications line beginning at Station 231NS+05, 161' RT and running southerly to a handhole at Station 230NS+55, 150' RT. This line will remain in place without adjustment.

TCA also has discontinued underground communications lines within the project limits in the following locations:

- A discontinued underground communications line beginning at a handhole at Station 230NS+55, 150' RT and running southerly under the Union Pacific Railroad to an AT&T Corporation duct package at approximately Station 227NS+45, 108' RT.
- A discontinued underground communications line beginning at Station 784GE+67, 197'RT and running southwesterly to a handhole at Station 530SCH+33, 25'LT where it turns and runs westerly along the north side of Schlinger Avenue to Station 526SCH+93, 29'LT. From there it turns and runs northerly along the east side of S. 100th Street to Station 38TD+30, 41'RT.

Contact Jennifer Navarro, (414) 459-3564, of Northwind Technical Services 7 days in advance to coordinate locations and any excavation near their facilities.

AT&T Wisconsin has underground and overhead communication facilities within the project limits in the following locations:

- An underground communications line beginning beyond the westerly project limits near Lincoln Avenue and running easterly, crossing USH 45/ IH 894 on the Lincoln Avenue Bridge at Station 202NS+81, and continuing easterly to beyond the project limits. This line will remain in place without adjustment.

- An underground communications line beginning beyond the westerly project limits near the southbound USH 45/ IH 894 off-ramp to Lincoln Avenue and running easterly to Station 706LD+21, 45'LT where it turns and runs northeasterly along the west right-of-way of USH 45/ IH 894 to Station 221NS+54, 158'LT. From there it turns and runs westerly to beyond the westerly project limits. This line will remain in place without adjustment.
- An underground communications line beginning beyond the westerly project limits near W. Orchard Street and running easterly, crossing USH 45/ IH 894 at Station 248NS+50, and continuing easterly to a manhole at Station 748GB+78, 56'RT. From there it turns and runs northeasterly to a manhole in Greenfield Avenue at Station 520G+97, 15'LT. This line will remain in place without adjustment.
- An overhead communications line beginning at a pole at Station 757GA+52, 49'RT and running northerly on We Energies poles along the easterly right-of-way of IH 894 / USH 45 to a pole at Station 779GE+08, 66'RT. This line will remain in place without adjustment.
- An underground communications line beginning at a manhole in Greenfield Avenue at Station 514G+78, 15'LT and running northerly along the west side of the southbound USH 45/ IH 894 off-ramp to Greenfield Avenue to a manhole at Station 13TD+18, 14'RT where it turns and runs southwestwardly along the south side of W. Madison Place to beyond the westerly project limits. This line will remain in place without adjustment.
- An underground communications line beginning beyond the southerly project limits and running northerly along the southbound lanes of S. Curtis Road to beyond the northerly project limits. This line will remain in place without adjustment.
- An underground communications line beginning beyond the southerly project limits and running northerly, crossing IH 94 at Station 153EW+57, approximately 193' west of the centerline of STH 100, and continuing northerly to beyond the project limits. This line will remain in place without adjustment.
- An underground communications line beginning at a manhole in Bluemound Road at Station 194BL+79, 17'LT and running northerly along the center of N. 97th Street to a manhole at Station 40TF+30, 1'RT. From there it turns and runs easterly, crossing USH 45 at Station 325NS+20, and continues easterly to a manhole located at Station 41TRN+54, 18'RT. From there it turns and runs southerly along the center of N. 95th Street to a manhole in Bluemound Road at Station 202BL+86, 20'LT. This line will remain in place without adjustment.
- An underground communications line beginning beyond the westerly project limits near Wisconsin Avenue and running easterly in the westbound lanes of Wisconsin Avenue to a manhole at Station 25WX+26, 34'LT where it turns and runs southerly along the east side of N. 97th Street to a manhole at Station 47TF+08, 34'RT. From there it turns and runs easterly, crossing USH 45 at Station 331NS+54, to a manhole located at Station 47TRN+18, 18'RT where it turns and runs northerly in N. 95th Street to a manhole in Wisconsin Avenue at Station 32WX+56, 34'LT. From there it turns and runs easterly along the north edge of Wisconsin Avenue to beyond the easterly project limits. This line will remain in place without adjustment.

- An underground communications line beginning beyond the westerly project limits and running easterly along the north right-of-way of Wisconsin Avenue to Station 24WX+77, 91'LT where it turns and runs northerly along the westerly right-of-way of USH 45 to beyond the northerly project limits. This line will remain in place without adjustment.
- An underground communications line beginning beyond the westerly project limits and running easterly in the eastbound lanes of Watertown Plank Road to a manhole at Station 44WWB+11, 54'RT where it turns and runs southeasterly approximately 8' east of the westerly right-of-way of USH 45 to a manhole at Station 746WF+50, 21'RT where it turns and runs northeasterly, crossing USH 45 at Station 356NS+54, and continues northeasterly to a manhole at Station 758WJ+25, 18'RT. From there it continues northeasterly to Station 61WWB+45, 54'RT where it turns and runs easterly in the eastbound lanes of Watertown Plank Road to beyond the project limits. This line will remain in place without adjustment.
- An underground communications line beginning beyond the southerly project limits and running northerly along the southbound lanes of S. Curtis Road to beyond the northerly project limits. This line will remain in place without adjustment.
- An underground communications line beginning beyond the southerly project limits and running northerly, crossing IH 94 at Station 153EW+57, approximately 193' west of the centerline of STH 100, and continuing northerly to beyond the project limits. This line will remain in place without adjustment.
- An underground communications line beginning beyond the easterly project limits near Burleigh Street and running westerly along the median of Burleigh Street to beyond the westerly project limits. This line will remain in place without adjustment.

AT&T Wisconsin also has discontinued communications facilities within the project limits in the following locations:

- A discontinued underground line beginning at a manhole in S. 100th Street at Station 13TD+18, 14'RT and running northerly along the westerly fence of USH 45/ IH 894, crossing Schlinger Avenue at Station 526SCH+80, and continuing northerly to Station 39TD+64, 38'RT. From there it turns and runs westerly, crossing S. 100th Street at Station 39TD+59, and continues westerly to beyond the project limits.
- A discontinued underground line beginning at a manhole in Wisconsin Avenue at Station 25WX+26, 34'LT and running easterly in the westbound lanes of Wisconsin Avenue to a manhole at Station 26WX+82, 33'LT.
- A discontinued underground line beginning at a manhole in Wisconsin Avenue at Station 32WX+57, 33'LT and running westerly in the westbound lanes of Wisconsin Avenue to Station 31WX+26, 33'LT.

Contact Jay Bulanek (262-896-7669 office) of AT&T Wisconsin 7 days in advance to coordinate locations and any excavation near their facilities.

Level 3 Communications has existing underground communications facilities within the project limits in the following locations:

- An existing underground communications line in the Union Pacific Railroad corridor beginning beyond the westerly project limits and running easterly between the existing railroad tracks and an existing spur track, crossing USH 45/ IH 894 at Station 229NS+80 and continuing easterly to beyond the project limits. This line will remain in place without adjustment.
- An existing underground communications line in the Union Pacific Railroad corridor beginning at the existing handhole located approximately 350' west of the centerline of USH 45/IH 894 and running northerly under the UPRR tracks to a point on the north right-of-way of the UPRR where it will turn and run easterly to a Midwest Fiber Networks handhole at Station 230NS+79, 228'LT. From there it will turn and run northeasterly in a joint location with a Midwest Fiber Networks duct package, to Station 231NS+18, 174'LT where it will turn and run easterly, crossing USH 45 at Station 231NS+40, and continue easterly to Station 231NS+60, 156'RT. From there it will leave the joint location with Midwest Fiber Networks and run southeasterly to the existing handhole at the north right-of-way of the railroad located approximately 400' east of the centerline of USH 45/IH 894. This line will remain in place without adjustment.
- An underground communications line beginning at the manhole at Station 37WWB+01, 8'LT and running easterly in the westbound lanes of Watertown Plank Road to Station 43WWB+50, 11'LT where it turns and runs northerly to Station 43WWB+50, 50'LT. From there it turns and runs easterly along the north side of Watertown Plank Road, north of the proposed USH 45 structure abutments, and continues easterly to beyond the project limits. This line will remain in place without adjustment.

Level 3 Communications also has a discontinued underground communications line beginning at a manhole at Station 37WWB+01, 8'LT and running northerly to a handhole at Station 37WWB+01, 37'LT where it turns and runs easterly along the north side of Watertown Plank Road, crossing USH 45 at Station 363NS+00, and continues easterly to beyond the project limits.

Contact Brahim Gaddour (414-908-1027 office/414-704-1026 cell) of Level 3 Communications 7 days in advance to coordinate locations and any excavation near their facilities.

Midwest Fiber Network has existing communications facilities within the project limits in the following locations:

- An underground communications line beginning at a handhole at Station 194BL+46, 8'LT and running northeasterly to a manhole at Station 40TF+14, 39'LT where it turns and runs easterly, crossing USH 45 at Station 324NS+91, to a manhole located at Station 41TRN+19, 48'LT. From there it turns and runs southerly down the west side of N. 95th Street to beyond the southerly project limits near N. 95th Street. This line will remain in place without adjustment.

- An underground communications line beginning beyond the westerly project limits and running easterly along the north right-of-way of the Union Pacific Railroad corridor to Station 230NS+79, 228'LT where it turns and runs northeasterly to Station 231NS+18, 174'LT. From there it turns and runs easterly, crossing USH 45 at Station 231NS+40, and continues easterly to Station 231NS+60, 156'RT. From there it turns and runs southerly to an existing handhole at Station 231NS+19, 167'RT where it turns and runs easterly to beyond the easterly project limits. This line will remain in place without adjustment.
- An underground communications line beginning beyond the westerly project limits and running easterly along the south right-of-way of Watertown Plank Road to Station 43WWB+75, 93' RT where it turns and runs southeasterly along the westerly right-of-way of USH 45 to a handhole at Station 752WC+88, 44' LT. From there it turns and runs northeasterly, crossing USH 45 at Station 353NS+17, and continues northeasterly to Station 754WJ+00, 17' RT where it turns and runs northerly along the east right-of-way of USH 45 to Station 60WWB+64, 85' RT. From there it turns and runs easterly along the south side of Watertown Plank Road to beyond the easterly project limits. This line will remain in place without adjustment.
- An underground communications line beginning at Station 230NS+79, 228'LT and running northeasterly to Station 231NS+18, 174'LT where it will turn and run easterly, crossing USH 45 at Station 231NS+40, and continue easterly to Station 231NS+60, 156'RT. From there it will turn and run southerly to the existing handhole at Station 231NS+19, 167'RT. This line will remain in place without adjustment.

Midwest Fiber Networks also has discontinued underground communications lines in the project limits in the following locations:

- A discontinued underground communications line beginning at Station 230NS+79, 228'LT and running easterly, crossing USH 45 at Station 230NS+80, and continuing easterly and ending at a handhole at Station 231NS+19, 167'RT.
- A discontinued underground communications line beginning beyond the westerly project limits and running easterly along the south side of Watertown Plank Road to a handhole at Station 46WWB+54, 98' RT and continuing easterly to a handhole at Station 63WWB+01, 82' RT.

Contact Richard Trgovec, (414) 459-3554 office, of Midwest Fiber Network 7 days in advance to coordinate locations and any excavation near their facilities.

Milwaukee, City of - Cable has existing underground cable facilities in City of Milwaukee
 - Conduit along Bluemound Road beginning beyond the westerly project limits and running easterly in the eastbound lanes of W. Bluemound Road, crossing USH 45 on the Bluemound Road structure and continuing easterly to beyond the project limits. This line will remain in place without adjustment.

Contact Brian Pawlak, (414) 286-5970 office, of the City of Milwaukee - Cable 7 days in advance to coordinate locations and construction activities.

Milwaukee, City of - Conduit has an existing underground conduit package along Bluemound Road beginning beyond the westerly project limits and running easterly in the eastbound lanes of W. Bluemound Road, crossing USH 45 on the Bluemound Road structure and continuing easterly to beyond the project limits. This conduit package will remain in place without adjustment.

Contact Karen Rogne, (414) 286-3243, of the City of Milwaukee – Conduit 7 days in advance to coordinate locations and any excavation near their facilities.

Milwaukee, City of - Lighting has overhead and underground street lighting facilities along the curb lines of N. 95th Street and along the medians of Bluemound Road and Wisconsin Avenue. These facilities will remain in place without adjustment.

Contact Dennis Miller, (414) 708-4251, George Berdine, (414) 708-4245, or Thomas Hughs, (414) 286-3457 office / (414) 708-3175 cell, of the City of Milwaukee - Lighting 10 days in advance to coordinate locations and any excavation near their facilities.

Milwaukee, City of – Sanitary has sanitary sewer facilities within the project limits in the following locations:

- An underground sanitary sewer beginning beyond the westerly project limits and running easterly through the Milwaukee County Zoo parking lot, crossing USH 45 at Station 315NS+67, and continuing easterly to a manhole at Station 315NS+82, 161'RT. From there it turns and runs northerly to a manhole at Station 315NS+98, 160'RT where it turns and runs easterly to beyond the project limits. This line will remain in place without adjustment.
- An underground sanitary sewer beginning at a manhole at Station 330NS+10, 432'RT and running southwesterly to a manhole at Station 329NS+96, 401'RT where it turns and runs westerly, crossing USH 45 at Station 329NS+62, and continuing westerly to a manhole at Station 329NS+40, 252'LT. From there it turns and runs northerly to a manhole at Station 332NS+81, 244'LT where it turns and runs northwesterly and connects to a City of Wauwatosa manhole at Station 25WX+37, 23'RT. This line will remain in place without adjustment.
- An underground sanitary sewer beginning at a manhole at Station 33WX+12, 22'RT and running easterly along the south side of Wisconsin Avenue to beyond the easterly project limits. This line will remain in place without adjustment.

The City of Milwaukee also has discontinued sanitary sewer facilities within the project limits in the following locations:

- A discontinued sanitary sewer beginning beyond the westerly project limits and running easterly through the Milwaukee County Zoo parking lot, crossing USH 45 at Station 315NS+81 and continuing easterly and ending at a manhole at Station 315NS+98, 160'RT.

- A discontinued sanitary sewer beginning at a manhole at Station 330NS+10, 432'RT and running westerly, crossing USH 45 at Station 329NS+75, to a manhole at Station 329NS+65, 94'LT. From there it turns northerly to a manhole at Station 27WX+20, 22'RT where it turns and runs westerly and ends at a manhole at Station 25WX+37, 23'RT.

Contact Jason Barman, (414) 286-3267 office, of the City of Milwaukee - Sanitary 7 days in advance to coordinate locations and any excavation near their facilities.

Milwaukee, City of - Signals has existing signal facilities at the intersection of W. Wisconsin Avenue and N. 95th Street. These facilities will remain in place without adjustment.

Contact Dennis Miller, (414) 708-4251, of the City of Milwaukee - Signals 7 days in advance to coordinate locations and any excavation near their facilities.

Milwaukee, City of - Water has underground water facilities within the project limits in the following locations:

- An underground water main beginning in Adler Street and running northerly, crossing IH 94 at Station 217EW+00, and continuing northerly to Chester Street. This line will remain in place without adjustment.
- An underground water main beginning beyond the easterly project limits south of Bluemound Road and running westerly to Station 815BB+02, 78'LT where it turns and runs northwesterly to Station 815BB+13, 67'RT. From there it turns and runs westerly, crossing USH 45 at Station 314NS+36, and continues westerly to Station 713BC+96, 50'LT. From there it turns and runs southwesterly along the westerly right-of-way of USH 45 to Station 491NW+70, 35'LT where it turns and runs southwesterly and westerly along the south side of the Milwaukee County Zoo to beyond the project limits. This line will remain in place without adjustment.
- An underground water main beginning beyond the westerly project limits and running easterly along the south side of Bluemound Road to Station 194BL+38, 54'RT where it turns and runs southeasterly to Station 195BL+15, 64'RT and then continues southeasterly to Station 195BL+51, 121'RT. From there it turns and runs easterly, crossing USH 45 at 321NS+30, and continues easterly to Station 198BL+78, 199'RT where it turns and runs northeasterly to Station 199BL+31, 54'RT. From there it turns and runs easterly along the south side of Bluemound Road to beyond the easterly project limits. This line will remain in place without adjustment.
- An underground water main beginning beyond the southerly project limits at N. 95th Street and running northerly along the east side of N. 95th Street to Station 32WX+50, 16'RT where it turns and runs easterly in the eastbound lanes of Wisconsin Avenue to beyond the easterly project limits. This line will remain in place without adjustment.

The City of Milwaukee also has discontinued water facilities within the project limits in the following locations:

- A discontinued underground water main beginning at Station 815BB+02, 78'RT and running westerly, crossing USH 45 at Station 314NS+27, and continuing westerly to Station 314NS+08, 136'LT where it turns and runs southwesterly along the west side of USH 45 to Station 492NW+43, 45'RT. From there it turns and runs westerly along the south side of the Milwaukee County Zoo and ends at Station 491NW+70, 35'LT.
- A discontinued underground water main beginning at Station 194BL+38, 54'RT and running easterly along the south side of Bluemound Road to Station 195BL+45, 58'RT where it turns and runs southeasterly to Station 195BL+65, 78'RT. From there it turns and runs easterly, crossing USH 45 at Station 322NS+90, and continues easterly to Station 198BL+00, 80'RT where it turns and runs northeasterly to Station 198BL+14, 60'RT. From there it turns and runs easterly along the south side of Bluemound Road and ends at Station 199BL+67, 58'RT.

Contact Dave Goldapp, (414) 286-6301, of the City of Milwaukee 7 days in advance to coordinate locations and any excavation near their facilities.

Milwaukee County – Electric & Communications has existing underground electric line and communication line facilities within the project limits in the following locations:

- An existing underground electric line and communication line beginning at a vault at Station 172EW+16, 307'RT and running northwesterly to a vault at Station 171EW+08, 212'RT where they turn and run northerly below the existing Zoo Maintenance Tunnel to a vault at Station 171EW+48, 146'LT. From there the lines continue northerly to beyond the project limits. These lines will remain in place without adjustment.
- A underground electric line beginning beyond the northerly project limits and running southerly to Station 59WWB+97, 64'LT where it turns and runs southeasterly, crossing Watertown Plank Road at Station 60WWB+25, and continues southeasterly to Station 60WWB+43, 38'RT. From there the line continues southerly to beyond the project limits. This line will remain in place without adjustment.

Milwaukee County also has discontinued electric & communications facilities within the project limits in the following locations:

- A discontinued underground electric and communications lines beginning at a vault at Station 172EW+16, 307'RT and running northwesterly to the Zoo Maintenance Tunnel at Station 171EW+15, 84'RT. The lines then run northeasterly below the Zoo Maintenance Tunnel to Station 171EW+54, 105'LT where it turns and runs northwesterly to a vault at Station 171EW+48, 146'LT.

- A discontinued underground communications line beginning beyond the easterly project limits and running southwesterly, crossing USH 45 at Station 345NS+50, and continuing southwesterly to Station 345NS+47, 69'LT where it turns and runs northerly along the west fence of USH 45 to beyond the northerly project limits.
- A discontinued underground communication line beginning beyond the westerly project limits and running easterly, crossing Ramp WF at Station 744WF+44, and continuing easterly to Station 746WF+62, 93'LT where it turns and runs southeasterly along the westerly right-of-way of USH 45 and ends at Station 749WC+12, 28'RT.
- A discontinued underground electric facility beginning beyond the northerly project limits and running southerly, crossing Watertown Plank Road at Station 59WEB+91, and continuing southerly to a manhole at Station 59WWB+95, 65'RT. From there it turns and runs southeasterly to beyond the project limits.
- A discontinued underground communication line beginning beyond the northerly project limits and running southerly, crossing Ramp WH at Station 782WH+48, and continuing southerly to Station 782WH+52, 08'RT where it turns and runs southeasterly to a manhole at Station 783WH+33, 8'RT. From there it runs southerly and southeasterly, crossing Ramp WA at Station 756WA+49, and continues southeasterly to Station 59WEB+76, 78'LT where it turns and runs easterly along the north side of Watertown Plank Road to beyond the project limits.
- A discontinued underground communication line beginning at a manhole at Station 783WH+33, 8'RT and running northerly, crossing Ramp WH at Station 783WH+29, and continuing northerly to Station 783WH+23, 14'LT where it turns and runs northeasterly and easterly to beyond the easterly project limits.

Contact Karl Hackbarth, (414) 256-5413 office, of Milwaukee County 7 days in advance to coordinate locations and any excavation near their facilities located by the Milwaukee County Zoo.

Contact Karl Stave, (414) 278-4863 office, of Milwaukee County 7 days in advance to coordinate locations and any excavation near their facilities located by Watertown Plank Road.

Milwaukee County – Sanitary has existing underground sanitary sewer facilities within the project limits in the following locations:

- An underground sanitary sewer beginning beyond the westerly project limits and running easterly along the north right-of-way of Watertown Plank Road to a manhole at Station 41WEB+22, 85'LT where it turns and runs northerly to beyond the project limits. This line will remain in place without adjustment.
- An underground sanitary sewer beginning at a manhole at Station 41WEB+22, 85'LT and running southeasterly to a manhole at Station 41WEB+54, 54'RT where it turns and runs easterly along the south right-of-way of Watertown Plank Road to a manhole at Station 43WEB+50, 54'RT where it turns and runs southeasterly to a manhole at Station 45WEB+27, 326'RT. From there the line runs southerly and ends

at a manhole at Station 45WEB+26, 651'RT beyond the southerly project limits. This line will remain in place without adjustment.

Milwaukee County also has discontinued underground sanitary sewer facilities in the project area at the following locations:

- A discontinued underground sanitary sewer beginning at a manhole at Station 759WA+90, 3'LT and running easterly to beyond the easterly project limits of the northeast interchange ramp.

Contact Karl Stave, (414) 278-4863 office, of Milwaukee County 7 days in advance to coordinate locations and any excavation near their facilities.

Milwaukee County – Storm has existing underground storm sewer facilities within the project limits in the following locations:

- An underground storm sewer beginning at an inlet at Station 571SW+42, 23'LT and running easterly across the Zoo Maintenance Tunnel to a inlet at Station 571SW+55, 20'LT where it turns and runs northeasterly along the east side of a gravel road to beyond the northerly project limits. This line will remain in place without adjustment.
- An underground storm sewer beginning at an inlet at Station 571WS+24, 48'LT and running easterly across the Zoo Maintenance Tunnel to an inlet at Station 571WS+48, 43'LT where it turns and runs southwesterly to a manhole at Station 571WS+36, 22'RT. From there it turns and runs southeasterly to a manhole at Station 571WS+85, 34'RT where it turns and runs southerly to beyond the southerly project limits. This line will remain in place without adjustment.
- An underground storm sewer beginning at an inlet at Station 708BC+34, 67'LT and running southerly to an inlet at Station 495NW+89, 31'LT where it turns and runs southwesterly in the Milwaukee County Zoo parking lot to beyond the westerly project limits. This line will remain in place without adjustment.

Contact Karl Hackbarth, (414) 256-5413 office, of Milwaukee County 7 days in advance to coordinate locations and any excavation near their facilities.

Milwaukee County – Water has an existing underground water main connecting the Milwaukee County Zoo and the Zoo Maintenance Facility south of IH 94 beginning beyond the northerly project limits and running southerly east of the Zoo Maintenance Tunnel, crossing IH 94 at Station 172EW+71, and continuing to beyond the southerly project limits. This line will remain in place without adjustment.

Milwaukee County also has discontinued water mains within the project limits in the following locations:

- A discontinued water main beginning beyond the easterly project limits and running southwesterly, crossing USH 45 at Station 345NS+47, and continuing southwesterly to beyond the project limits.
- A discontinued water main beginning beyond the westerly project limits and running easterly, crossing Ramp WC at Station 762WC+97, and continuing easterly to Station 360NS+81, 545'LT. From there it turns and runs northeasterly to Station 363NS+97, 138'LT where it turns and runs southeasterly along the median of Watertown Plank Road to Station 361NS+61, 85' RT. From there it turns and runs southeasterly to Station 356NS+89, 122' RT. From there it turns and runs easterly to beyond the easterly project limits.
- A discontinued water main beginning beyond the westerly project limits and running easterly along the north side of Watertown Plank Road, crossing USH 45 at Station 363NS+35, and continuing easterly to beyond the easterly project limits.
- A discontinued water main beginning beyond the westerly project limits and running easterly, crossing USH 45 at Station 381NS+67, and continuing easterly to beyond the easterly project limits.
- A discontinued water main beginning beyond the westerly project limits and running easterly, crossing USH 45 at Station 382NS+24, and continuing easterly to beyond the easterly project limits.

Contact Karl Hackbarth, (414) 256-5413 office, of Milwaukee County 7 days in advance to coordinate locations and any excavation near their facilities located by the Milwaukee County Zoo.

Contact Karl Stave, (414) 278-4863 office, of Milwaukee County 7 days in advance to coordinate locations and any excavation near their facilities located by Watertown Plank Road.

Milwaukee Metropolitan Sewerage District has existing underground sewer facilities within the project limits in the following locations:

- A 39-inch MIS sanitary sewer beginning beyond the westerly project limits and running easterly along the south line of the Union Pacific Railroad, crossing USH 45 / IH 894 at Station 229NS+04, and continuing easterly to beyond the project limits. This line will remain in place without adjustment.
- A 15-inch underground sanitary sewer beginning at a manhole at Station 230NS+40, 76'LT and running southerly, crossing the UPRR tracks, and continuing southerly to a manhole at Station 228NS+96, 57'LT. This line will remain in place without adjustment.
- An underground sanitary sewer beginning beyond the southerly project limits near Underwood Creek and running northerly along the east side of Underwood Creek, crossing IH 94 at Station 101EW+73, and continuing northerly to beyond the project limits. This line will remain in place without adjustment.

- An underground sanitary sewer beginning beyond the southerly project limits near S. 116th Street and running northerly along the center of S. 116th Street, crossing IH 94 at Station 127EW+20, and continuing northerly to beyond the project limits. This line will remain in place without adjustment.
- An underground sanitary sewer beginning beyond the northerly project limits at STH 100 and running southerly along the east side of STH 100, crossing IH 94 at Station 156EW+72, and continuing southerly to a manhole at Station 566SS+67, 133'RT where it turns and runs westerly to a manhole at Station 566SS+56, 70'RT. From there it turns and runs southerly along the east side of STH 100 to beyond the southerly project limits. This line will remain in place without adjustment.
- A 39-inch MIS sanitary sewer beginning beyond the westerly project limits near STH 100 and running easterly, crossing STH 100 at Station 564SS+30, and continuing easterly, crossing IH 94 at Station 168EW+88, and continuing easterly to a manhole at Station 480NW+25, 41'RT. From there it turns and runs northeasterly to a manhole at Station 483NW+44, 36'RT where it turns and runs northerly through the Milwaukee County Zoo parking lot to a manhole in Bluemound Road at Station 186BL+91, 20'LT. From there it turns and runs easterly to a manhole at Station 188BL+62, 20'LT where it turns and runs northerly in the northbound lane of N. 99th Street to a manhole in Wisconsin Avenue at Station 18WX+78, 11'LT. From there it turns and runs easterly along the median of Wisconsin Avenue, crossing USH 45 at Station 334NS+43, and continues easterly to beyond the project limits. This line will remain in place without adjustment.
- A 15-inch underground sanitary sewer beginning at a manhole at 562SB+91, 57'RT and running southerly to a manhole at Station 562SB+96, 66'RT where it turns and runs southeasterly to a manhole at Station 565SB+41, 66'RT. From there it turns and runs southerly, crossing the Hank Aaron State Trail at Station 156HA+08, and continues southerly to beyond the project limits. This line will remain in place without adjustment.
- A 36" ductile iron force main beginning beyond the westerly project limits and running easterly along the south side of the median in the eastbound lanes of Watertown Plank Road, crossing USH 45 at Station 362NS+22, and continuing to a manhole at Station 61WEB+35, 2'RT. From there the line continues easterly as an underground gravity sewer along the median of Watertown Plank Road to beyond the easterly project limits. This force main and gravity sewer will remain in place without adjustment.

MMSD also has discontinued sanitary sewers within the project limits in the following locations:

- A discontinued underground sanitary sewer beginning beyond the northerly project limits near STH 100 and running southerly along the east side of STH 100, crossing IH 94 at Station 156EW+64, and continuing southerly to a manhole at Station 566SS+56, 70'RT.

- A discontinued underground sanitary sewer beginning at a manhole at Station 480NW+25, 41'RT and running easterly to a discontinued manhole at Station 482NW+87, 144'RT where it turns and runs to a manhole at Station 483NW+43, 36'RT.
- A discontinued 15-inch underground sanitary sewer beginning at a blind connection to a 39-inch MIS sanitary sewer at Station 165EW+30, 152'RT and running southerly to a manhole at Station 565SB+41, 66'RT.

Contact Micki Klappa-Sullivan, (414) 225-2178, of MMSD 7 days in advance to coordinate locations and any excavation near their facilities.

PaeTec Communications (aka. Windstream) has an underground communications line in a We Energies conduit package, beginning at the 96th Street Substation in the northeast quadrant of the Zoo Interchange and running southerly in and below an existing utility tunnel, crossing IH 94 at Station 201EW+00, and continuing southerly to the center of W. Adler Street where it turns and runs southwesterly along the east right-of-way of the Zoo Interchange to Station 783GE+76, 69'RT. From there it turns and runs southeasterly and southerly along the east right-of-way of USH 45/ IH 894, crossing the Hank Aaron State Trail at Station 181HA+66, and continuing southerly, crossing Schlinger Avenue at Station 531SCH+58. From there it continues southerly, crossing Greenfield Avenue at Station 518G+71, and continues southerly to Station 231NS+69, 180'RT. From there it turns and runs southwesterly and westerly, crossing IH 894/ USH 45 at Station 230NS+61 in the Union Pacific Railroad corridor, and continues westerly to beyond the project limits. This line will remain in place without adjustment.

Windstream has a discontinued communication facility in a discontinued We Energies conduit beginning at the 96th Street Substation in the northeast quadrant of the Zoo Interchange and running southerly in portions of a discontinued utility tunnel, crossing IH 94 at Station 201EW+00, and continuing southerly to Adler Street. From there it runs westerly to Station 985AD+28, 6'LT where it turns and runs southwesterly and southerly, crossing the Hank Aaron State Trail at Station 182+00, and continuing southerly, crossing Schlinger Avenue at Station 530SCH+14, and continuing southerly, crossing Greenfield Avenue at Station 518G+01, and continuing southerly to Station 740GB+00, 39'RT.

Contact Nathan Becker, (414) 313-9032 office, of Windstream 7 days in advance to coordinate locations and any excavation near their facilities.

Sprint Communications has underground communication facilities within the project limits in the following location:

- An underground communications line in the Union Pacific Railroad corridor beginning beyond the northerly project limits and running southerly along the east right-of-way of the corridor, crossing IH 94 at Station 161EW+17, and continuing southerly to beyond the project limits. This line will remain in place without adjustment.

- An underground communications line in the Union Pacific Railroad corridor beginning beyond the westerly project limits and running easterly along the spur track, crossing USH 45/ IH 894 at Station 229NS+48 and continuing easterly to beyond the project limits. This line will remain in place without adjustment.

Sprint Communications also has a discontinued communications line in the Union Pacific Railroad corridor beginning beyond the northerly project limits and running southerly approximately 20' east of the west right-of-way of the corridor, crossing IH 94 at Station 159EW+09, and continuing southerly to beyond the project limits.

Contact Gerry Crain, (847) 445-1869, of Sprint Communications 7 days in advance to coordinate locations and any excavation near their facilities.

TDS Metrocom has an underground communication line beginning beyond the westerly project limits and running easterly along the median of Watertown Plank Road to a manhole at Station 43WWB+31, 21'RT. From there it runs southeasterly to an AT&T Wisconsin manhole at Station 44WWB+11, 54'RT. This line will remain in place without adjustment.

Contact Matthew Schulte, (262) 754-3063 office / (262) 409-1177 cell, of TDS MetroCom 7 days in advance to coordinate locations and any excavation near their facilities.

Time Warner Cable (aka. Charter Communications) has existing overhead and underground communications facilities within the project limits in the following locations:

- An underground communications line beginning at a manhole at Station 39TF+66, 21'LT and running northerly to Station 39TF+87, 30'LT where it turns and runs easterly, crossing USH 45 at Station 324NS+38, and continuing easterly to a manhole at Station 201BL+20, 79'LT. From there it turns and runs southerly to beyond the southerly project limits. This line will remain in place without adjustment.
- An underground communications line beginning beyond the southerly project limits and running northerly along the easterly curb line of S. Curtis Road, crossing under IH 94 at Station 112EW+59, to beyond the northerly project limits. This line will remain in place without adjustment.
- An overhead communications line on We Energies poles beginning at a pole at Station 211NS+89, 311'RT and running southerly along the easterly right-of-way of USH 45/IH 894 to a pole at Station 706LA+49, 70'RT. This line will remain in place without adjustment.
- An underground communications line beginning at a pole at Station 706LA+49, 70'RT and running southerly to Station 706LA+25, 67' RT where it turns and runs westerly, crossing USH 45/IH 894 at Station 205LA+33, and continues westerly to a pole at Station 704LD+38, 42' LT. From there it turns and runs southerly to a pole at Station 703LD+76, 51' LT. This line will remain in place without adjustment.
- An underground conduit beginning at a pole at Station 706LA+49, 70' RT and running southerly to Station 706LA+09, 64' RT where it turns and runs southwesterly, crossing LA Ramp at Station 704LA+24 and Lincoln Avenue at

Station 49L+57, and continues southwesterly to a pole at Station 201NS+34, 274' RT. This line will remain in place without adjustment.

- An overhead communications line beginning at a pole at Station 201NS+34, 274' RT and running southerly to beyond the project limits. This line will remain in place without adjustment.
- An overhead communications line beginning at a We Energies pole at Station 703LD+41, 50'LT and running northerly along the westerly right-of-way of USH 45/ IH 894 to a pole at Station 228NS+24, 241'LT where it turns and runs easterly to a pole at Station 228NS+31, 194'LT. From there it turns and runs northeasterly to a pole at Station 228NS+98, 186'LT. This line will remain in place without adjustment.
- An underground communications line beginning at a pole at Station 228NS+98, 186'LT and running easterly approximately 20 feet north of the southerly right-of-way of the Union Pacific Railroad corridor, crossing USH 45/ IH 894 at Station 228NS+48, and continuing easterly to beyond the project limits. This line will remain in place without adjustment.
- An overhead communications line beginning beyond the southerly project limits near the northbound USH 45/ IH 894 off-ramp to Greenfield Avenue and running northerly along the east side of the ramp, crossing Greenfield Avenue at Station 519G+50, and continuing northerly approximately 15' west of the east right-of-way of USH 45/ IH 894, crossing Schlinger Avenue at Station 531SCH+73, and continuing northerly to a pole at Station 531SCH+80, 27'LT. From there the line turns and runs easterly along the north side of Schlinger Avenue to beyond the easterly project limits. This line will remain in place without adjustment.
- An underground communications line beginning at a We Energies pole at Station 752GB+07, 45'RT and running easterly to a pole at Station 751GB+90, 251'RT. This line will remain in place without adjustment.
- An underground communications line beginning at a We Energies pole at Station 762GE+59, 43'RT and running westerly, crossing USH 45/ IH 894 at Station 262NS+50, and continuing westerly to a pole at Station 19TD+79, 39'LT. From there the line turns and runs southerly along the west side of S. 100th Street to Station 17TD+65, 39'LT where it turns and runs westerly and ends at a pole at Station 17TD+65, 51'LT. This line will remain in place without adjustment.
- An overhead communications line on We Energies poles beginning at a pole at Station 17TD+65, 51'LT and running westerly to beyond the project limits. This line will remain in place without adjustment.
- An overhead communications line on We Energies poles running north-south, crossing the Hank Aaron State Trail at Station 173HA+00. This line will remain in place without adjustment.
- An underground communications line beginning at an existing hand hole at Station 39WWB+30, 92'RT and running easterly to Station 43WWB+77, 89'RT where it will turn and run southeasterly to Station 752WC+88, 44'LT. From there it turns and runs northeasterly, crossing USH 45 at Station 353NS+19, to Station 754WJ+02, 17'RT where it will turn and run northerly along the east right-of-way of USH 45 to Station 60WWB+59, 85'RT. From there it will turn and run easterly along the south

right-of-way of Watertown Plank Road to a handhole at Station 95WWB+18, 67'RT. This line will remain in place without adjustment.

- An underground communications line beginning beyond the westerly project limits and running easterly and southeasterly along the south side of Watertown Plank Road to Station 44WWB+78, 108'RT. From there it turns and runs easterly and southeasterly along the south side of Watertown Plank Road to Station 48WWB+53, 100'RT where it turns and runs southeasterly to Station 50WWB+32, 133'RT. From there it turns and runs southeasterly, crossing USH 45 at Station 360NS+86, and continues southeasterly to Station 59WWB+31, 82'RT. From there it runs easterly along the south side of Watertown Plank Road to beyond the project limits. This line will remain in place without adjustment.

Charter Communications also has discontinued communications lines within the project limits in the following locations:

- Two discontinued underground communications lines beginning at Station 526SCH+17, 47'RT and running easterly along the south side of Schlinger Avenue to Station 531SCH+10, 60'RT.
- A discontinued underground communications line beginning at Station 751GB+38, 7'LT and running northeasterly to a pole at Station 751GB+90, 251'RT.
- A discontinued underground communications line beginning beyond the westerly project limits and running easterly, southeasterly and easterly along the north side of Watertown Plank Road, crossing USH 45 at Station 363NS+00, and continuing easterly along the north side of Watertown Plank Road to beyond the easterly project limits.
- A discontinued underground communications line beginning beyond the westerly project limits and running easterly, southeasterly and easterly along the south side of Watertown Plank Road, crossing USH 45 at Station 361NS+75, and continuing easterly along the south side of Watertown Plank Road to beyond the easterly project limits.

Contact Steve Cramer, (414) 277-4045, of Charter Communications 7 days in advance to coordinate locations and any excavation near their facilities.

Wauwatosa, City of - Lighting has existing lighting facilities within the project limits in the following locations:

- Light poles and underground electric lines on both sides of W. Wisconsin Avenue beginning at the west right-of-way of N. 95th Street and running westerly along W. Wisconsin Avenue to beyond the project limits. These facilities will remain in place without adjustment.
- Light poles and underground electric lines in the median of W. Wisconsin Avenue beginning at N. 95th Street and running easterly to beyond the project limits. These facilities will remain in place without adjustment.

- Light poles and underground electric lines along the east side of N. 97th Street between Bluemound Road and W. Wisconsin Avenue. These facilities will remain in place without adjustment.
- Light poles and underground electric lines along both sides of Watertown Plank Road throughout the project limits. These facilities will remain in place without adjustment.

Contact Randy Michelz, (414) 471-8423, of the City of Wauwatosa 7 days in advance to coordinate locations and any excavation near their facilities.

Wauwatosa, City of – Sanitary has existing underground sanitary sewer facilities within the project limits in the following locations:

- An underground sanitary sewer beginning beyond the southerly project limits at N. 97th Street and running northerly along the east side of N. 97th Street to a manhole at Station 25WX+37, 23'RT where it turns and runs westerly in the eastbound lanes of Wisconsin Avenue to a manhole at Station 24WX+48, 23'RT. From there it turns and runs northerly and ends at a MMSD manhole at Station 24WX+49, 10'LT. This line will remain in place without adjustment.
- An underground sanitary sewer beginning at a manhole at Station 24WX+04, 22'RT and running westerly in the eastbound lanes of Wisconsin Avenue to beyond the westerly project limits. This line will remain in place without adjustment.
- An underground sanitary sewer beginning at a MMSD manhole at Station 127EW+19, 187'RT and running northwesterly to a manhole at Station 126EW+40, 151'RT. From there the line runs westerly to a manhole at Station 125EW+94, 151'RT and then runs northwesterly, crossing IH 94 at Station 123EW+41, and continuing northwesterly to Station 120EW+97, 174'LT. From there it turns and runs northerly to a manhole at Station 120EW+94, 197'LT where it turns and runs northwesterly along the center of Ripley Avenue to beyond the project limits. This line will remain in place without adjustment.

City of Wauwatosa - Sewer has a discontinued sanitary sewer beginning at a manhole at Station 126EW+40, 151'RT and running northwesterly, crossing IH 94 at Station 123EW+79, and continuing northwesterly to a manhole at Station 120EW+94, 197'LT.

Contact Mike Maki, (414) 479-8991, of City of Wauwatosa – Sewer 7 days in advance to coordinate locations and any excavation near their facilities.

Wauwatosa Water Utility has existing underground water facilities within the project limits in the following locations:

- A 24-inch transmission water main beginning beyond the westerly project limits near Wisconsin Avenue and running easterly along the north side of Wisconsin Avenue to Station 26WX+71, 76'LT where it turns and runs northeasterly to Station 27WX+25, 130'LT. From there it turns and runs easterly, crossing USH 45 at Station 335NS+63, and continues easterly to Station 31WX+02, 130'LT where it turns and

runs southerly to Station 31WX+02, 76'LT. From there it turns and runs easterly along the north side of Wisconsin Avenue to beyond the easterly project limits. This line will remain in place without adjustment.

- An underground water main beginning beyond the southerly project limits at N. 97th Street and running northerly along the west side of N. 97th Street to Station 25WX+08, 34'RT where it turns and runs westerly along the south side of Wisconsin Avenue to Station 22WX+23, 34'RT where it turns and runs northerly to Station 22WX+23, 12'RT. From there it turns and runs westerly in the eastbound lanes of Wisconsin Avenue to beyond the westerly project limits. This line will remain in place without adjustment.
- An underground water main beginning at Station 22WX+23, 34'RT and running southerly along the east side of S. 98th Street to beyond the southerly project limits. This line will remain in place without adjustment.
- An underground water main beginning beyond the westerly project limits near N. 121st Street and running easterly along the north side of W. Fairview Avenue, crossing N. 121st Street, to Station 115EW+65, 136'LT where it turns and runs northerly along the east side of N. 120th Street to beyond the northerly project limits. This line will remain in place without adjustment.
- An underground water main beginning beyond the westerly project limits and running easterly in the westbound lanes of Watertown Plank Road, crossing USH 45 at Station 362NS+91, and continuing easterly to Station 64WWB+43, 7'LT. From there the line turns and runs northerly to beyond the project limits. This line will remain in place without adjustment.
- An underground watermain beginning beyond the westerly project limits and running northeasterly along the south side of Swan Boulevard to Station 381NS+68, 145'LT where it turns and runs southeasterly to Station 381NS+25, 141'LT. From there the line turns and runs easterly, crossing USH 45 at Station 380NS+81, and continues easterly to Station 380NS+36, 151'RT where it turns and runs southeasterly to Station 379NS+70, 217'RT. From there the line turns and runs northeasterly to the south side of Swan Boulevard where it continues northeasterly to beyond the project limits. This line will remain in place without adjustment.

Wauwatosa Water Utility also has a discontinued 24-inch transmission water main beginning at Station 26WX+71, 76'LT and running easterly, crossing USH 45 at Station 335NS+09, and continuing easterly to Station 33WX+00, 76'LT where it turns and runs southeasterly and ends at Station 33WX+44, 52'LT.

Contact David Simpson, (414) 831-0799, of the Wauwatosa Water Utility 7 days in advance to coordinate locations and any excavation near their facilities.

We Energies – Electric has overhead and underground electric facilities within the project limits in the following locations:

- An overhead electric line beginning beyond the southerly project limits near IH 94 and running northerly to a pole at Station 103EW+50, 151'RT where it turns and runs northeasterly, crossing IH 94 at Station 103EW+96, to a pole at Station

104EW+42, 151'LT. From there it turns and runs northerly to beyond the northerly project limits. This line will remain in place without adjustment.

- An overhead electric line beginning beyond the westerly project limits near W. Fairview Avenue and running easterly along the north side of W. Fairview Avenue, crossing N. 121st Street at Station 14CT+99, to a pole at Station 113EW+94, 183'LT where it turns and runs northerly to beyond the northerly project limits. This line will remain in place without adjustment.
- An underground electric conduit beginning at a pole at Station 123EW+33, 234' LT and running southeasterly, crossing IH 94 at Station 123EW+77, and continuing southeasterly to a pole at Station 124EW+29, 166' RT. This line will remain in place without adjustment.
- An underground electric conduit beginning at a pole at Station 123EW+14, 224' LT and running southeasterly, crossing IH 94 at Station 123EW+55, and continuing southeasterly to a pole at Station 124EW+10, 186' RT. This line will remain in place without adjustment.
- An overhead electric line beginning at a pole at Station 124EW+29, 166' RT and running southeasterly to a pole at Station 125EW+32, 185' RT. From there it turns and runs easterly to beyond the project limits. This line will remain in place without adjustment.
- An overhead electric line beginning at a pole at Station 124EW+10, 186' RT and running easterly to a pole at Station 125EW+32, 185' RT. This line will remain in place without adjustment.
- An underground electric duct package beginning beyond the northerly project limits near IH 94 and running southerly along the east right-of-way of STH 100, crossing IH 94 at Station 158EW+00, to Station 159EW+38, 295'RT where it turns and runs southwesterly, crossing the Hank Aaron State Trail at Station 148HA+14, to beyond the southerly project limits near the Hank Aaron State Trail. This duct package will remain in place without adjustment.
- An overhead electric line beginning at a pole at Station 164EW+73, 261'RT and running southwesterly, crossing the Hank Aaron State Trail at Station 153HA+48, to beyond the southerly project limits near the Hank Aaron State Trail. This line will remain in place without adjustment.
- An underground electric duct package beginning at Station 159EW+38, 295'RT and running southeasterly to Station 164EW+22, 278'RT where it turns and runs northeasterly to Station 164EW+66, 231'RT. From there it turns and runs southeasterly to a We Energies utility tunnel at Station 167EW+63, 243'RT. This line will remain in place without adjustment.
- An underground electric duct package beginning at Station 159EW+38, 295'RT and running southeasterly to Station 166EW+94, 309'RT where it turns and runs northeasterly to a We Energies utility tunnel at Station 167EW+63, 243'RT. From there the duct package continues northeasterly, crossing IH 94 at Station 171EW+13 in a We Energies utility tunnel, and continues northeasterly along the south right-of-way of the Milwaukee County Zoo, crossing USH 45 at Station 301NS+66 in a We Energies utility tunnel, to the 96th Street Substation in the northeast quadrant of the Zoo Interchange, beyond the easterly project limits near USH 45. This line will remain in place without adjustment.

- An underground electric line beginning at the 96th Street Substation and running northerly east of the east right-of-way of USH 45 to Station 199BL+69, 94'RT where it turns and runs easterly along the south side of Bluemound Road to Station 201BL+32, 88'RT. From there it turns and runs northerly, crossing Bluemound Road at Station 201BL+32, and continuing northerly to a transformer at Station 201BL+32, 87'LT. From there it continues northerly along the west side of N. 95th Street, crossing Wisconsin Avenue 31WX+43, and continuing northerly to Station 31WX+46, 147'LT where it turns and runs easterly to Station 32WX+89, 145'LT. From there it turns and runs southeasterly and easterly along the north line of Wisconsin Avenue to beyond the project limits. This line will remain in place without adjustment.
- An underground electric line beginning at a transformer at Station 201BL+32, 87'LT and running northerly along the west side of N. 95th Street to a transformer at Station 31WX+43, 51'RT. This line will remain in place without adjustment.
- Two underground electric lines approximately 10' apart beginning beyond the project limits and running northerly along the west side of N. 95th Street to Station 202BL+13, 81'RT. From there they turn and run westerly to Station 201BL+55, 80'RT where they turn and run northerly, crossing Bluemound Road at Station 201BL+50 and Station 201BL+60, and continue northerly along the west side of N. 95th Street to a transformer at Station 201BL+55, 85'LT. These lines will remain in place without adjustment.
- An underground electric line beginning at a transformer at Station 201BL+55, 85'LT and running northerly along the west side of N. 95th Street to Station 202BL+00, 296'LT. From there it runs easterly across N. 95th Street to beyond the project limits. This line will remain in place without adjustment.
- Two underground electric lines beginning at Station 32WX+89, 145'LT and running northerly along the east right-of-way of USH 45 to Station 752WJ+20, 23'RT. These lines will remain in place without adjustment.
- Six underground electric conduits beginning at Station 752WJ+20, 23'RT and running southwesterly, crossing USH 45 at Station 351NS+54, and continuing southwesterly to a vault at Station 351NS+27, 223'LT. These conduits will remain in place without adjustment.
- An underground electric duct package beginning at a vault at Station 351NS+27, 223'LT and running northwesterly along the westerly right-of-way of USH 45 to Station 43WWB+85, 122' RT where it turns and runs westerly along the south right-of-way of Watertown Plank Road to beyond the project limits. This line will remain in place without adjustment.
- An underground electric duct package beginning at Station 752WJ+20, 23'RT and running northerly along the easterly right-of-way of USH 45 to Station 59WWB+75, 261' RT where it turns and runs northeasterly to Station 60WWB+32, 119'RT. From there it turns and runs northerly, crossing Watertown Plank Road at Station 60WWB+29, and continues northerly to Station 60WWB+28, 78'LT where it turns and runs easterly along the north right-of-way of Watertown Plank Road to beyond the project limits. This line will remain in place without adjustment.

- An underground electric line beginning at a cabinet at Station 44WWB+64, 142' RT and running northeasterly to a cabinet at Station 45WWB+50, 112' RT where turns and run northerly, crossing Watertown Plank Road at Station 45WWB+51, to a pedestal at Station 45WWB+52, 65' LT. This line will remain in place without adjustment.
- An underground electric duct package beginning at the 96th Street Substation and running southerly, crossing IH 94 at Station 200EW+94 in a We Energies utility tunnel, to Station 799FC+99, 18'RT where it turns and runs southwesterly along the southeast right-of-way of the Zoo Interchange, crossing the Hank Aaron State Trail at Station 181HA+66 and Schlinger Avenue at Station 531SCH+58, to Station 531SCH+26, 94'RT. From there it turns and runs southerly, approximately 20' west of the east right-of-way of USH 45/ IH 894 to Station 760GA+81, 31'RT where it turns and runs southwesterly, crossing the USH 45/ IH 894 northbound on-ramp from Greenfield Avenue at Station 760GA+50, to Station 760GA+27, 24'LT. From there, it turns and runs southerly, crossing Greenfield Avenue at Station 518G+71, to Station 751GB+62, 32'LT where it turns and runs easterly, crossing the USH 45 / IH 894 northbound off-ramp to Greenfield Avenue at Station 751GB+62, to Station 751GB+55, 61'RT. From there it turns and runs southerly to a pole farm at approximately Station 739GB+25, 166'RT. This line will remain in place without adjustment.
- An overhead electric line beginning at a pole farm at Station 590SE+73, 273'RT and running southerly along the east right-of-way of USH 45/ IH 894, crossing the Hank Aaron State Trail at Station 183HA+13 and Schlinger Avenue at Station 531SCH+73, and continues southerly approximately 15' west of the east right-of-way of USH 45/ IH 894, crossing Greenfield Avenue at Station 519G+49, to a pole farm at approximately Station 739GB+92, 234'RT. This line will remain in place without adjustment.
- An overhead electric line beginning at the West Junction substation at approximately Station 739GB+92, 234'RT and running southerly, east of the east right-of-way of USH 45/ IH 894, to a pole at Station 709LA+80, 79'RT where it turns and runs southwesterly, crossing the USH 45/ IH 894 northbound on-ramp from Lincoln Avenue at Station 708LA+70, to a pole at Station 708LA+13, 50'LT. From there it turns and runs southerly, crossing Lincoln Avenue at Station 48L+05, and continues southerly to beyond the southerly project limits. This line will remain in place without adjustment.
- An overhead electric line beginning at the West Junction substation at approximately Station 739GB+92, 234'RT and running southerly east of the east right-of-way of USH 45/ IH 894 to a pole at Station 706LA+09, 64'RT. This line will remain in place without adjustment.
- An underground conduit beginning at a pole at Station 706LA+09, 64' RT and running southwesterly, crossing the Lincoln Avenue on-ramp at Station 704LA+24 and Lincoln Avenue at Station 49L+57, and continuing southwesterly to a pole at Station 201NS+64, 274' RT. This line will remain in place without adjustment.

- An underground conduit beginning at a pole at Station 710LA+15, 85'RT and running southwesterly, crossing the Lincoln Avenue on-ramp at Station 708LA+65, to a new pole at Station 707LA+84, 58' LT. This line will remain in place without adjustment.
- An underground conduit beginning at a new pole at Station 706LA+25, 67' RT and running westerly, crossing USH 45/IH 894 at Station 205NS+33, to a new pole at Station 704LD+13, 48' LT. This line will remain in place without adjustment.
- An underground electric line beginning at a pole at Station 762GA+86, 68'RT and running westerly, crossing the northbound USH 45/ IH 894 on-ramp from Greenfield Avenue at Station 762GA+83, to Station 762GA+83, 30'LT where it turns and runs southerly, crossing Greenfield Avenue at Station 518G+46, to Station 751GB+45, 69'LT. From there it turns and runs easterly, crossing the USH 45/ IH 894 northbound off-ramp to Greenfield Avenue at Station 751GB+38, to a pole at Station 751GB+46, 47'RT. This line will remain in place without adjustment.
- An underground electric line beginning at a pole at Station 762GA+31, 60'RT and running southwesterly to Station 762GA+08, 47'RT where it turns and runs westerly, crossing the northbound USH 45/ IH 894 on-ramp from Greenfield Avenue at Station 762GA+06, to Station 762GA+05, 24'LT. From there it turns and runs southerly, crossing Greenfield Avenue at Station 518G+57, to Station 751GB+56, 40'LT. From there it turns and runs easterly, crossing the USH 45/ IH 894 northbound off-ramp to Greenfield Avenue at Station 751GB+48, to a pole at Station 751GB+46, 47'RT. This line will remain in place without adjustment.
- An existing underground conduit package, occupied by Windstream, beginning at the 96th Street Substation in the northeast quadrant of the Zoo Interchange and running southerly in and below an existing utility tunnel, crossing IH 94 at Station 201EW+00, and continuing southerly to the center of W. Adler Street where it turns and runs southwesterly along the east right-of-way of the Zoo Interchange to Station 783GE+76, 69'RT. From there it turns and runs southeasterly and southerly along the east right-of-way of USH 45/ IH 894, crossing the Hank Aaron State Trail at Station 181HA+66, and continuing southerly, crossing Schlinger Avenue at Station 531SCH+58. From there it continues southerly, crossing Greenfield Avenue at Station 518G+71, and continues southerly to Station 231NS+69, 180'RT. From there it turns and runs southwesterly and westerly, crossing IH 894/ USH 45 at Station 230NS+61 in the Union Pacific Railroad corridor, and continues westerly to beyond the project limits. This line will remain in place without adjustment.
- An underground electric line beginning beyond the easterly project limits and running westerly, north of the northern-most track in the Union Pacific Railroad corridor to a pole at Station 230NS+51, 216'LT where it turns into an overhead electric line and turns and runs southerly, crossing the Union Pacific Railroad corridor, to a pole at Station 228NS+31, 194'LT. From there it turns and runs westerly to a pole at Station 228NS+24, 241'LT where it turns and runs southerly along the west right-of-way of USH 45/ IH 894, crossing Lincoln Avenue at Station 44L+86, to a pole at Station 45L+00, 57'RT. This line will remain in place without adjustment.

- An underground electric line beginning at a pole at Station 44L+62, 109'LT and running southerly to a manhole in Lincoln Avenue at Station 44L+68, 18'LT where it turns and runs easterly, crossing over USH 45/ IH 894 on the Lincoln Avenue Bridge, to a manhole at Station 48L+00, 11'LT. From there it turns and runs southerly to a pole at Station 47L+98, 56'RT. This line will remain in place without adjustment.
- An underground conduit beginning at a new pole at Station 234NS+83, 164' RT and running westerly, crossing USH 45/IH 894 at Station 234NS+69, and continuing westerly to beyond the westerly project limits. This line will remain in place without adjustment.

We Energies - Electric also has discontinued electric lines within the project limits in the following locations:

- A discontinued underground electric line beginning beyond the southerly project limits near IH 94 and running northeasterly, crossing the Hank Aaron State Trail at Station 131HA+56, to Station 142EW+42, 330'RT where it turns and runs southeasterly to Station 148EW+15, 357'RT. From there it turns and runs easterly to Station 154EW+07, 168'RT where it turns northeasterly to Station 154EW+34, 34'RT. From there it turns and runs easterly, crossing STH 100 at Station 569SN+93, to Station 156EW+16, 8'RT where it turns southeasterly to Station 159EW+96, 198'RT, crossing the Union Pacific Railroad, to Station 162EW+97, 173'RT. From there it turns and runs southeasterly to Station 164EW+47, 214'RT where it turns and run easterly to Station 169EW+89, 77'RT. Portions of this line may have been encountered and/or removed as part of the Zoo Interchange - Phase 1 project.
- A discontinued underground conduit beginning at the southerly We Energies Adler Tunnel headhouse at Station 200EW+23, 192'RT and running southwesterly and southerly to Station 590SE+50, 200'RT.
- A discontinued underground electric line beginning beyond the westerly project limits near USH 45 in the Milwaukee County Zoo and running northeasterly to Station 492NW+54, 67'RT where it turns and runs northerly to Station 315NS+50, 123'LT. From there it turns and runs westerly into the Milwaukee County Zoo, beyond the westerly project limits near USH 45/ IH 894. Portions of this line may have been encountered and/or removed as part of the Zoo Interchange - Phase 1 project.
- Two discontinued parallel underground electric lines beginning at the 96th Street Substation in the northeast quadrant of the Zoo Interchange and running northerly along the east right-of-way of USH 45/ IH 894 to Station 322NS+45, 119'RT where they turn and run easterly along the south side of Bluemound Road to Station 202BL+63'RT. From there they turn and runs northerly in the southbound lanes of N. 95th Street, crossing Wisconsin Avenue at Station 32WX+17 to Station 51TRN+43, 1'LT. Portions of this line may have been encountered and/or removed as part of the Zoo Interchange - Phase 1 project.

- A discontinued underground electric line beginning a switch fuse unit at Station 38WWB+88, 108'RT and running northerly to Station 38WWB+88, 84'RT where it turns and runs easterly along the south side of Watertown Plank Road to Station 46WWB+44, 83'RT. From there it turns and runs southeasterly along the west side of the USH 45 southbound on ramp to Station 759WG+00, 53'LT. Portions of this line may have been encountered and/or removed as part of the Zoo Interchange – Watertown Plank Road project.
- A discontinued underground electric line beginning at Station 45WWB+00, 81'RT and running northerly, crossing Watertown Plank Road at Station 45WWB+00, and continuing northerly to Station 45WWB+00, 32'LT where it turns and runs easterly to Station 45WWB+80, 32'LT. From there it turns and runs northerly along the west side of the USH 45 southbound off ramp to beyond the northerly project limits. Portions of this line may have been encountered and/or removed as part of the Zoo Interchange – Watertown Plank Road project.
- Two discontinued underground electric lines running parallel and approximately 10 feet apart beginning beyond the southerly project limits and running northwesterly along the east right-of-way of USH 45 to Station 56WWB+39, 230'RT where they turn and run northeasterly to Station 57WWB+24, 88'RT where they turn and run easterly along the south side of Watertown Plank Road to beyond the project limits. Portions of this line may have been encountered and/or removed as part of the Zoo Interchange – Watertown Plank Road project.
- Two discontinued underground electric lines running parallel beginning at Station 354NS+90, 132'RT and running northeasterly to Station 60WWB+81, 104'RT. Portions of this line may have been encountered and/or removed as part of the Zoo Interchange – Watertown Plank Road project.

Contact Nicholas Welch, (414) 791-0406 cell, of We Energies 7 days in advance to coordinate locations and any excavation near their facilities.

We Energies – Gas has underground gas facilities within the project limits in the following locations:

- An underground gas line beginning beyond the westerly project limits near W. Orchard Street and running easterly along the south side of W. Orchard Street to Station 20TE+70, 4'RT where it turns and runs southerly along the west side of S. 100th Street to beyond the southerly project limits. This line will remain in place without adjustment.
- An underground gas main beginning beyond the westerly project limits and running easterly, crossing USH 45/ IH 894 on the Greenfield Avenue Bridge, to beyond the easterly project limits. This line will remain in place without adjustment.
- An underground gas main beginning in Greenfield Avenue and running northerly along the west side of S. 100th Street, crossing Schlinger Avenue at Station 526SCH+11, to Station 39TD+56, 39'LT where it turns and runs easterly to Station 39TD+59, 17'LT. From there it turns and runs northerly along the west side of S. 100th Street, crossing the Hank Aaron State Trail on the S. 100th Street Bridge to

Station 44TD+08, 13'LT where it turns and runs westerly into the Zoo Maintenance Yard. This line will remain in place without adjustment.

- An underground gas main beginning beyond the westerly project limits near Schlinger Avenue and running easterly on the south side of Schlinger Avenue to Station 526SCH+11, 32'RT. This line will remain in place without adjustment.
- An underground gas line beginning at Station 525SCH+74, 29'RT and running northerly to Station 525SCH+74, 2'RT where it turns and runs easterly to Station 527SCH+17, 2'RT. From there it turns and runs southerly to Station 527SCH+17, 10'RT where it turns and runs easterly in the eastbound lanes of Schlinger Avenue to Station 529SCH+88, 9'RT. From there it turns and runs southeasterly to Station 529SCH+98, 18' where it turns and runs easterly along the south side of Schlinger Avenue to beyond the easterly project limits. This line will remain in place without adjustment.
- An underground gas line beginning beyond the southerly project limits near N. 97th Street and running northerly along the west right-of-way of N. 97th Street to Station 48TF+03, 20'LT where it turns and runs easterly, crossing USH 45 at Station 332NS+57, to Station 48TRN+24, 62'RT. This line will remain in place without adjustment.
- An underground gas line beginning beyond the southerly project limits near N. 95th Street and running northerly along the east right-of-way of N. 95th Street to Station 32WX+78, 39'RT where it turns and runs easterly along the south side of Wisconsin Avenue to beyond the easterly project limits. This line will remain in place without adjustment.
- An underground gas line beginning beyond the westerly project limits near Wisconsin Avenue and running easterly in the westbound lanes of Wisconsin Avenue to Station 21WX+92, 22'LT where it turns and runs northerly to Station 21WX+92, 41'LT. From there it turns and runs easterly to Station 22WX+45, 41'LT where it turns and runs southerly to Station 22WX+45, 5'RT. From there it turns and runs easterly in the eastbound lanes of Wisconsin Avenue to Station 25WX+20, 5'RT. From there it turns and runs southerly to Station 48TF+16, 10'LT where it turns and runs easterly, crossing USH 45 at Station 332NS+68, to an alley east of N. 95th Street to Station 35WX+90, 170'RT.
- An underground gas line beginning beyond the westerly project limits near Wisconsin Avenue and running easterly along the south side of Wisconsin Avenue to Station 24WX+56, 30'RT. This line will remain in place without adjustment.
- An underground gas line beginning beyond the southerly project limits near S. Curtis Road and running northerly in the southbound lanes of S. Curtis Road to Station 14CT+98, 21'LT where it turns and runs westerly along the north side of W. Fairview Avenue to beyond the westerly project limits near W. Fairview Avenue. This line will remain in place without adjustment.
- An underground gas line beginning at Station 10CT+91, 20'LT and running easterly along the south side of W. Fairview Avenue to Station 20FV+05, 19'RT. This line will remain in place without adjustment.

- An underground gas line beginning beyond the southerly project limits near the Hank Aaron State Trail and running northerly, crossing IH 94 at Station 156EW+80, to beyond the northerly project limits. This line will remain in place without adjustment.

We Energies - Gas also has discontinued gas facilities within the project limits in the following locations:

- A discontinued underground gas line beginning at Station 525SCH+70, 28'RT and running easterly along the south side of Schlinger Avenue to Station 526SCH+83, 31'RT where it turns and runs northerly to Station 526SCH+84, 10'RT. From there it turns and runs easterly to Station 527SCH+17, 10'RT.
- A discontinued 24-inch underground gas line beginning beyond the southerly project limits near the Hank Aaron State Trail and running northerly, crossing IH 94 at Station 156EW+26, to beyond the northerly project limits. Portions of this line may have been encountered and/or removed as part of the Zoo Interchange - Phase 1 project.
- A discontinued underground gas line beginning beyond the southerly project limits near IH 94 and running northerly to the Zoo Maintenance Tunnel at Station 171EW+46, 57'RT and continues to the north side of the Zoo Maintenance Tunnel at Station 171+74, 105'LT to beyond the northerly project limits.
- A discontinued underground gas main beginning at Station 42TD+50 and running northerly through the Zoo Interchange Core to Station 582SW+90, 125'LT. Portions of this line may have been encountered and/or removed as part of the Zoo Interchange - Phase 1 project.
- A discontinued underground gas line beginning beyond the southerly project limits near N. 97th Street and running northerly along the west right-of-way of N. 97th Street to Station 25WX+04, 27'RT where it turns and runs westerly along the south side of Wisconsin Avenue to Station 24WX+68, 29'RT.
- A discontinued underground gas line beginning at Station 21WX+93, 21'LT and running easterly in the median of Wisconsin Avenue to Station 334NS+53 where it turns and runs northeasterly to Station 334NS+95, 38'RT. From there it turns and runs easterly to Station 31WX+44, 60'LT where it turns and runs southeasterly to Station 31WX+78, 18'LT. From there it turns and runs easterly in the westbound lanes of Wisconsin Avenue to Station 35WX+11, 21'LT. Portions of this line may have been encountered and/or removed as part of the Zoo Interchange - Phase 1 project.
- A discontinued underground gas line beginning at Station 22WX+46, 55'LT and running easterly along the north side of Wisconsin Avenue to Station 25WX+75, 70'LT where it turns and runs southeasterly to Station 26WX+02, 49'LT. From there it turns and runs easterly to Station 344NS+80, 25'RT. Portions of this line may have been encountered and/or removed as part of the Zoo Interchange - Phase 1 project.
- A discontinued underground gas line beginning at Station 31WX+76, 21'LT and running northeasterly to Station 32WX+05, 54'LT where it turns and runs easterly along the north side of Wisconsin Avenue to Station 35WX+12, 51'LT.

- A discontinued underground gas line beginning at Station 48TRN+12, 62'RT and running northerly along the east side of N. 95th Street to Station 32WX+70, 34'LT where it turns and runs easterly in the westbound lanes of Wisconsin Avenue to Station 33WX+81, 35'LT. From there it turns and runs northeasterly to an existing gas regulation station to remain at Station 34WX+23, 69'LT.
- A discontinued underground gas line beginning at Station 32WX+72, 33'RT and running easterly along the south side of Wisconsin Avenue to Station 34WX+04, 31'RT.
- A discontinued underground gas line beginning at Station 33WX+93, 22'LT and running northeasterly to an existing gas regulation station to remain at Station 34WX+23, 69'LT.
- A discontinued underground gas main beginning at Station 36WWB+44, 25'LT and running easterly along the north curb line of Watertown Plank Road to Station 47WWB+85, 27'LT where it turns and runs southeasterly in the westbound lanes of Watertown Plank Road to Station 55WWB+38, 20'LT. From there it turns and runs southerly, crossing Watertown Plank Road at Station 55WWB+38, and continues southerly to Station 55WWB+37, 54'RT where it turns and runs southeasterly along the south side of Watertown Plank Road to a pressure regulation pit at Station 76WWB+63, 94'RT. Portions of this line may have been encountered and/or removed as part of the Zoo Interchange – Watertown Plank Road project.

Contact Nick Ernster, (414) 944-5574, of We Energies 7 days in advance to coordinate locations and any excavation near their facilities.

We Energies – Steam has discontinued underground steam facilities within the project limits in the following locations:

- Discontinued steel steam lines in an underground concrete trench box beginning beyond the westerly project limits and running easterly to a manhole at Station 48WWB+03, 95'RT where it turns and runs northerly, crossing Watertown Plank Road at Station 48WWB+23, and continues northerly to a manhole at Station 48WWB+35, 54'LT. From there it turns and runs northeasterly, crossing USH 45 at Station 365NS+00, and continues northeasterly to a manhole at Station 761WA+58, 3'LT where it turns and runs easterly to beyond the easterly project limits of the northeast interchange ramp. Portions of this line may have been previously removed as part of the Zoo IC Watertown Plank Road interchange project.
- Discontinued steel steam lines in an underground concrete trench box beginning at a manhole at Station 761WA+58, 3'LT and running northerly to beyond the northerly project limits of the northeast interchange ramp. Portions of this line may have been previously removed as part of the Zoo IC Watertown Plank Road interchange project.
- Two discontinued direct-buried steel steam lines beginning at an existing manhole at Station 44WWB+00, 254'RT and running northwesterly to Station 43WWB+56, 129'RT where they turn and run westerly to Station 42WWB+43, 124'RT. From there they turn and run northerly, crossing Watertown Plank Road at Station 42WWB+44, and continue northerly to beyond the northerly project limits. Portions

of this line may have been previously removed as part of the Zoo IC Watertown Plank Road interchange project.

Contact Dan Sande, (414) 221-4578, of We Energies 7 days in advance to coordinate locations and any excavation near their facilities or with any questions.

West Allis, City of - Lighting has existing lighting facilities within the project limits in the following locations:

- Light poles and overhead wires beginning beyond the southerly project limits at S. 100th Street and running northerly along S. 100th Street to Orchard Street where it turns and runs westerly to beyond the project limits. These facilities will remain in place without adjustment.
- Light poles and electric lines beginning beyond the westerly project limits at Madison Place and running easterly to S. 100th Street and then running northerly along S. 100th Street to beyond the project limits. These facilities will remain in place without adjustment.
- Light poles and electric lines beginning beyond the westerly project limits and running easterly along W. Schlinger Avenue to beyond the easterly project limits. These facilities will remain in place without adjustment.
- Underground lighting cable beginning beyond the southerly project limits and running northerly along the west side of S. Curtis Road, crossing IH 94 at Station 111EW+81, and continuing northerly to Station 111EW+86, 137'LT where it turns and runs easterly across S. Curtis Road to a pedestal at Station 113EW+22, 126'LT. This line will remain in place without adjustment.
- Light poles and underground cable beginning at a pedestal at Station 113EW+22, 126'LT and running westerly to the east curb line of W. Curtis Road where it turns and runs southerly along the east curb line, crossing IH 94 at Station 112EW+66, and continuing southerly to Station 113EW+00, 154'RT where it turns and runs southeasterly and easterly along the north curb line of W. Fairview Street to Station 127EW+31, 152'RT. From there it turns and runs southeasterly and southerly along the east curb line of S. 116th Street to beyond the southerly project limits. These facilities will remain in place without adjustments.

Contact Peter Daniels, (414) 302-8374 office, of the City of West Allis 7 days in advance to coordinate locations, construction and any excavation near their facilities.

West Allis, City of - Sanitary has existing sanitary sewer facilities within the project limits in the following locations:

- An underground sanitary sewer beginning at a City of Wauwatosa sanitary manhole at Station 125EW+93, 152'RT and running westerly along the south side of W. Fairview Avenue to a manhole at Station 117EW+38, 172'RT. This line will remain in place without adjustment.

- An underground sanitary sewer beginning beyond the easterly project limits near Schlinger Avenue and running westerly in the westbound lanes of Schlinger Avenue to a manhole at Station 532SCH+76, 13'LT where it turns and runs southerly in the northbound lanes of S. 98th Street to beyond the southerly project limits. This line will remain in place without adjustment.
- An underground sanitary sewer beginning beyond the westerly project limits near W. Bungalow Parkway and running easterly in the center of W. Bungalow Parkway to a manhole at Station 9BU+66, 2'LT where it turns and runs northerly along the west right-of-way of S. 100th Street to a manhole at Station 42TD+00, 69'LT. This line will remain in place without adjustment.
- An underground sanitary sewer beginning at a manhole at Station 779GD+24, 24'LT and running southerly along the center of S. 100th Street to a manhole at Station 773GD+65, 34'LT where it turns and runs westerly in the westbound lanes of W. Walker Street to beyond the westerly project limits. This line will remain in place without adjustment.
- An underground sanitary sewer beginning at a manhole at Station 12TD+62, 35'RT and running northerly to a manhole at Station 23TD+49, 22'LT. This line will remain in place without adjustment.
- An underground sanitary sewer beginning at a manhole at Station 19TE+78, 1'LT and running southerly in S. 100th Street beyond the southerly project limits at S. 100th Street. This line will remain in place without adjustment.
- An underground sanitary sewer beginning at a manhole at Station 230NS+40, 76'LT and running northwesterly to beyond the westerly project limits near S. 100th Street at the Union Pacific Railroad. This line will remain in place without adjustment.

City of West Allis - Sewer also has discontinued sanitary sewer facilities within the project limits in the following locations:

- A discontinued underground sanitary sewer beginning at a manhole at Station 779GD+99, 1'RT and running southerly along the west right-of-way of USH 45 / IH 894 to a manhole at Station 773GD+64, 9'LT where it turns and runs westerly to a manhole at Station 773GD+65, 34'LT.
- A discontinued underground sanitary sewer beginning at a manhole at Station 749GC+45, 21'LT and running southerly along the west right-of-way of USH 45 / IH 894 to a manhole at Station 16TE+74, 7'RT.
- A discontinued underground sanitary sewer beginning at a manhole at Station 230NS+40, 76'LT and running northerly along the west side of USH 45/ IH 894 to a manhole at approximately Station 235NS+20, 125'LT.

Contact Joe Burtch, (414) 302-8379 office, of the City of West Allis 7 days in advance to coordinate locations and any excavation near their facilities.

West Allis, City of - Water has existing underground water facilities within the project limits in the following locations:

- An underground water main beginning beyond the westerly project limits and running easterly in the westbound lanes of Lincoln Avenue to Station 45L+42, 31'LT where it turns and runs northeasterly to Station 45L+77, 76'LT. From there it turns and runs easterly, crossing USH 45/ IH 894 at Station 203NS+45, and continues easterly to Station 49L+27, 76'LT where it turns and runs southeasterly to Station 49L+59, 31'LT. From there it turns and runs easterly in the westbound lanes of Lincoln Avenue to beyond the easterly project limits. This line will remain in place without adjustment.
- An underground water main beginning beyond the westerly project limits near USH 45/ IH 894 and running easterly to Station 214NS+08, 186'LT where it turns and runs northeasterly to Station 215NS+82, 135'LT. From there it turns and runs easterly, crossing USH 45/ IH 894 at Station 216NS+04, and continues easterly to beyond the project limits. This line will remain in place without adjustment.
- A 24-inch underground transmission water main beginning beyond the westerly project limits near the Union Pacific Railroad corridor and running easterly, crossing USH 45/ IH 894 at Station 231NS+55, and continuing easterly to beyond the project limits. This line will remain in place without adjustment.
- An underground water main beginning at Station 231NS+31, 192'LT and running northerly along S. 100th Street to Station 20TE+84 and then continuing northerly along the west right-of-way of USH 45/ IH 894 to connect to a water main in the eastbound lanes of Greenfield Avenue. This line will remain in place without adjustment.
- An underground water main beginning at Station 12TD+67, 33'RT and running easterly, crossing USH 45/ IH 894 at Station 255NS+22, and continuing easterly to Station 755GA+11, 34'LT. From there it turns and runs southerly to connect to a water main in the westbound lanes of Greenfield Avenue. This line will remain in place without adjustment.
- An underground water main beginning in Greenfield Avenue and running northerly in the southbound lanes of S. 100th Street, crossing Schlinger Avenue at Station 526SCH+34, and continuing northerly to Station 41TD+96, 18'LT. This line will remain in place without adjustment.
- An underground water main beginning at Station 39TD+35, 9'LT and running westerly along the center of W. Bungalow Parkway to beyond the westerly project limits. This line will remain in place without adjustment.
- An underground water main beginning beyond the westerly project limits near Schlinger Avenue and running easterly along the center of Schlinger Avenue to Station 525SCH+82, 2'LT where it turns and runs southeasterly to Station 526SCH+04, 22'RT. From there it turns and runs easterly along the south side of Schlinger Avenue, crossing S. 100th Street at Station 37TD+18, and continues easterly to beyond the project limits. This line will remain in place without adjustment.
- An underground water main beginning at Station 532SCH+68, 23'RT and running southerly in S. 98th Street to beyond the southerly project limits. This line will remain in place without adjustment.

- An underground water main beginning beyond the southerly project limits near S. 116th Street and running northerly along the west side of S. 116th Street to Station 127EW+06, 166'RT where it turns and runs westerly along the south side of W. Fairview Avenue to Station 121EW+53, 132'RT. This line will remain in place without adjustment.
- An underground water main beginning beyond the southerly project limits near Curtis Road and running northerly along the east side of Curtis Road, crossing IH 94 at Station 112EW+65, and continuing northerly to Station 112EW+68 136'LT where it turns and runs westerly along the south side of W. Fairview Avenue to beyond the westerly project limits. This line will remain in place without adjustment.
- An underground water main beginning at Station 112EW+88, 195'RT and running easterly along the south side of W. Fairview Avenue to Station 117EW+67, 190'RT. This line will remain in place without adjustment.

The City of West Allis also has discontinued water facilities within the project limits in the following locations:

- A discontinued underground water main beginning at Station 45L+66, 61'LT and running easterly, crossing USH 45/ IH 894 at Station 203NS+30, and continues easterly to Station 49L+37, 61'LT.
- A discontinued water main beginning at Station 16TE+89 and running northerly in the center of S. 100th Street and continues northerly along the west side of USH 45 / IH 894 to the median of Greenfield Avenue.

Contact Joe Burtch, (414) 302-8379 office, of the City of West Allis 7 days in advance to coordinate locations and any excavation near their facilities.

West Shore Pipeline has an existing underground petroleum pipeline beginning beyond the southerly project limits and running northeasterly, crossing Underwood Creek Parkway and continuing northeasterly to Station 101EW+64, 318'RT. From there the line runs northwesterly along the east side of Underwood Creek, crossing IH 94 at Station 101EW+42, and continuing northwesterly to beyond the project limits. This pipeline will remain in place without adjustment.

Contact Aric Aufdermauer, (414) 391-8102, of Buckeye Partners L.P. 7 days in advance to coordinate locations and any excavation or other construction activities within 25 feet of this facility.

WisVest, the development branch of We Energies, provides cooling for the Milwaukee County Regional Medical Center through chilled water lines from the power plant on the north side of Watertown Plank Road. WisVest is not a utility and the description of the lines contained herein is provided for informational purposes only. WisVest has two underground discontinued chilled water lines running parallel and approximately 5 feet apart beginning at Station 66WEB+22, 122'RT and running westerly to Station 62WEB+64, 107'RT where they turn and run westerly to Station 59WEB+96, 145'RT. From there the lines run southwesterly, crossing USH 45 at Station 355NS+25, and continuing southwesterly to

Station 748WF+32, 74'RT where they turn and run westerly to beyond the westerly project limits.

Contact Dan Sande, (414) 221-4578, of We Energies 7 days in advance to coordinate locations and any excavation near their facilities or with any questions.

WisDOT has existing lighting facilities along the medians of IH 94, IH 894 and USH 45 throughout the project limits and along the ramps at the Lincoln Avenue, Greenfield Avenue, Bluemound Road, STH 100 and Watertown Plank Road interchanges. These facilities will remain in place without adjustment.

Contact Eric Perea, (262) 574-5422 office / (414) 750-0935 cell, of WisDOT 7 days in advance to coordinate locations and any excavation near their facilities.

WisDOT has existing signal facilities at the IH 894 / USH 45 / Lincoln Avenue interchange ramps, at the IH 894 / USH 45 / Greenfield Avenue interchange ramps, at the USH 45 / Bluemound Road interchange ramps, at the intersection of Bluemound Road and N. 95th Street, at the IH 94/ STH 100 interchange ramps. These facilities will remain in place without adjustment.

Contact WisDOT Traffic Signal Operations, (414) 750-2605, 7 days in advance to coordinate locations and any excavation near their facilities.

WisDOT has existing traffic management and underground communication facilities located throughout the project limits, including along IH 41, and along the ramps at all of the interchanges. These facilities will remain in place without adjustment.

Contact Jeff Madson, (414) 225-3723, of WisDOT 7 days in advance to coordinate locations and any excavation near their facilities.

7. Other Contracts.

It is expected that routine maintenance by the city and county personnel may be required at certain times concurrently with the work being done under this contract.

The following contracts are anticipated to be under construction within the time period of this contract, unless otherwise indicated:

Contract ID 1060-33-81, Zoo Interchange Phase 2 reconstruction. The WisDOT contact is Mark Klipstein at (414) 750-1496; mark.klipstein@dot.wi.gov.

Contract ID 1060-33-82, IH 94 Auxiliary Lanes reconstruction from Moorland Road to Underwood Parkway. The WisDOT contact is Mark Klipstein at (414) 750-1496; mark.klipstein@dot.wi.gov.

Contract ID 1060-33-84, Zoo IC US45 WIS100 to Burleigh Street reconstruction. The WisDOT contact is Chris Zacharias at (262) 548-6716; christopher.zacharias@dot.wi.gov.

Contract ID 1060-33-96, Zoo IC – Advanced Signing Projects; various locations. The WisDOT contact is Christopher Hager at (414) 750-1487; christopher.hager@dot.wi.gov.

Contract ID 1060-33-94, Zoo IC – Swan Boulevard and Discovery Parkway roundabout construction from USH 45 to Underwood Parkway. The WisDOT contact is Christopher Hager at (414) 750-1487; christopher.hager@dot.wi.gov.

8. Railroad Insurance and Coordination – Union Pacific Railway Company.

A Description

Comply with standard spec 107.17 for all work affecting Union Pacific Railway Company property and any existing tracks.

A.1 Railroad Insurance Requirements

In addition to standard spec 107.26, provide railroad protective liability insurance coverage as specified in standard spec 107.17.3.

Insurance is filed in the name of Union Pacific Railway Company.

Notify evidence of the required coverage, and duration to Danielle Allen, Contract Administrator; 1400 Dodge Street, Stop 1690, Omaha, NE 68179; Telephone (402) 544-8020; E-mail: danielleallen@up.com.

Also send a copy to Paul Derksen, SE Region Railroad Coordinator; 141 N. W. Barstow Street, Waukesha, WI 53188; Telephone (262) 548-8770; E-mail: paul.derksen@dot.wi.gov.

Include the following information on the insurance document:

#	Route Name	City/ County	Crossing ID	RR Subdivision	RR Milepost
1060-35-81	IH894	West Allis, Milwaukee County	177 254F	Milwaukee	88.43
1060-35-81	IH94	West Allis, Milwaukee County	177 257B	Milwaukee	89.91

A.2 Train Operation

Approximately 20-25 through freight trains operate daily at up to 30 mph. In addition to through movements, there are switching movements at slower speeds.

A.3 Names and Addresses of Railroad Representatives for Consultation and Coordination

Construction Contact

John Venice, Manager Special Projects – Industry & Public Projects Engineering Department; 101 North Wacker Drive – Suite 1920, Chicago, IL 60606; Telephone (312) 777-2043; E-mail jnvenice@up.com for consultation on railroad requirements during construction.

Amend standard spec 108.4 to include the railroad in the distribution of the initial bar chart, and monthly schedule updates. The bar chart shall specifically show work involving coordination with the railroad.

Flagging Contact

See Construction Contact. If more than 30 days of flagging is required contact UP 30 days prior to needing a flagger on site. Reference the Wisconsin Milepost and Subdivision located in A.1.

Cable Locate Contact

In addition to contacting Diggers Hotline, contact the UP Call Before You Dig line at (800) 336-9193 at least five working days before the locate is needed. Normal business hours are 6:30 AM to 6:30 PM, Central Time, Monday through Friday, except holidays and are subject to change. Calls will be routed at all times in case of an emergency. Reference the Wisconsin Milepost and Subdivision located in A.1.

UP will only locate railroad owned cable buried in the railroad right-of-way. The railroad does not locate any other utilities.

A.4 Work by Railroad

The railroad will perform the work described in this section, except for work described in other special provisions and will be accomplished without cost to the contractor. none

A.5 Temporary Grade Crossing

If a temporary grade crossing is desired, submit a written request to the railroad representative named in A.3 at least 40 days prior to the time needed. Approval is subject to the discretion of the railroad. The department has made no arrangements for a temporary grade crossing.

stp 107-026 (20170615)

9. Erosion Control.

Supplement standard spec 107.20 with the following:

Erosion control best management practices (BMP's) the plans show are at suggested locations. The actual locations shall be determined by the contractor's ECIP and by the engineer. Include each dewatering (mechanical pumping) operation in the ECIP submittal.

The ECIP shall supplement information the plans show and not reproduce it. The ECIP shall identify how to implement the project's erosion control plan. ECIP shall demonstrate timely and diligently staged operations, continuing all construction operations methodically from the initial removals and topsoil stripping operations through the subsequent grading, paving, and re-application of top soil to minimize the exposure to possible erosion.

Provide the ECIP 14 days before the pre-construction conference. Provide 1 copy of the ECIP to the department and 1 copy of the ECIP to the WDNR Liaison, Michael Thompson, (414) 303-3408, michaelc.thompson@wisconsin.gov. Do not implement the ECIP until department approval, and perform all work conforming to the approved ECIP.

Maintain Erosion Control BMP's until permanent vegetation is established or until the engineer determines that the BMP is no longer required.

Stockpile excess materials or spoils on upland areas away from wetlands, floodplains, and waterways. Install perimeter silt fence protection around stockpiles within a timeframe acceptable to the engineer. If stockpiled materials will be left for more than 14 days, install temporary seed and mulch or other temporary erosion control measures the engineer orders.

Re-apply topsoil on graded areas, as designated by the engineer, within a timeframe acceptable to the engineer after grading is completed within those areas. Seed, fertilize, and mulch/erosion mat top-soiled areas, as designated by the engineer, within 5 days after placement of topsoil. If graded areas are left not completed and exposed for more than 14 days, seed those areas with temporary seed and mulch.

Do not allow excavation for; structures, utilities, grading, maintaining drainage that requires dewatering (mechanical pumping) of water containing sediments (sand, silt, and clay particles) to leave the work site or discharge to a storm water conveyance system without sediment removal treatment. Before each dewatering operation, submit to the department a separate ECIP amendment describing in words and pictorial format an appropriate BMP for sediment removal, conforming to WisDNR Storm Water Construction Technical Standard, Code 1061, Dewatering. Include reasoning, location, and schedule duration proposed for each operation. Per Code 1061, include all selection criteria: site assessment, dewatering practice selection, calculations, plans, specifications, operations, maintenance, and location of proposed treated water discharge. Provide a stabilized discharge area. If directing discharge towards or into an inlet structure, provide additional inlet protection for back-up protection. Dewatering is considered incidental to the project.
sef-107-010 (20170323)

10. Public Convenience and Safety.

Revise standard spec 107.8(6) as follows:

Check for and comply with local ordinances governing the hours of operation of construction equipment. Do not operate motorized construction equipment from 9:00 PM until the following 7:00 AM, unless prior written approval is obtained from the engineer.

Residential areas	Do not exceed 5 dB(A) over preconstruction ambient noise levels
All other areas outside WisDOT right-of-way	Do not exceed 5 dB(A) over preconstruction ambient noise levels

Prior to waiving the noise compliance by the engineer, provide 48 hour advance notice to Mr. Jeff Polenske, Milwaukee City Engineer, at (414) 286-3701; Mr. William Wehrley, Wauwatosa City Engineer, at (414) 479-8929; or Mr. Peter Daniels, West Allis City Engineer, at (414) 302-8374 regarding the evening noise generating construction operations. 107-001 (20060512)

11. Notice to Contractor – Hank Aaron State Trail.

Between N. 121st Street and S. 94th Place, the Hank Aaron State Trail (HAST) is closed to the public by the Zoo IC Core 2 Project 1060-33-81 and is available to access work zones. The contractor does not have full rights to the HAST and will need to coordinate access with contractors performing department work as part of the projects listed in the Other Contracts article.

In the Zoo IC Core 2 Project 1060-33-81, the contractor is required to place a new asphaltic surface on the HAST. Once this new surface is placed, no deliveries or delivery vehicles will be allowed on the HAST and access will be limited to small, rubber tired vehicles. All vehicles backing up on the HAST and its trail connections after this new surface is placed, shall have a spotter or flagger.

Any damage that occurs due to operations under this contract to the new asphaltic surface, shoulder, final restoration and other work completed under Project 1060-33-81, will be repaired under this contract at no cost to the department.

The Zoo IC Core 2 Project 1060-33-81 will re-open the HAST to the public prior to its completion date of August 31, 2018. After the HAST is open to the public, all access to the work zone utilizing the HAST and all work under this contract along the HAST shall be coordinated with and approved by the department and the Wisconsin DNR prior to entering the trail or performing the work.

12. Traffic Meetings and Traffic Control Scheduling.

Every Wednesday by 9:00 AM, submit a detailed proposed 2-week look-ahead traffic closure schedule to the engineer. Type the detailed proposed 2-week look-ahead closure schedule into an excel spreadsheet provided by the engineer. Enter information such as closure dates, duration, work causing the closure and detours to be used. Also enter information such as ongoing long-term closures, emergency contacts and general 2-month look-ahead closure information into the excel spreadsheet.

Meet with the engineer at 10:00 AM on Wednesdays at the Zoo Interchange project office on 2424 S. 102nd Street; West Allis to discuss and answer questions on the proposed schedule. Edit, delete and add closures to the detailed proposed 2-week look-ahead schedule,

as directed by the engineer, so that proposed closures meet specification requirements. Other edits, deletions or additions unrelated to meeting specification requirements may also be agreed upon with the engineer during the 10:00 AM meeting.

Every Wednesday at 2:00 PM, attend a weekly traffic meeting. The meeting will bring local agencies, project stakeholders, owner managers, owner engineers, contractors, document control and construction engineering personnel together to discuss traffic staging, closures and general impacts. Upon obtaining feedback from the meeting attendees, edit, delete and add information to the detailed 2-week look-ahead closure schedule, as needed. Submit the revised 2-week look-ahead to the engineer by 12:00 PM on Thursdays.

Obtain approval from the engineer for any changes to the closure schedule that is proposed outside the Wednesday meetings, including additional closures or cancellations. Submit requests for additional closures or cancellations for Friday, Saturday, Sunday or Monday of the current schedule week by 12:00 PM on Thursday. Revise the 2-week look-ahead as needed to reflect these changes and submit to the engineer.

13. Project Site Air Quality.

Because fine particulate matter levels for Milwaukee, Racine and Kenosha Counties are typically close to PM_{2.5} limits and the project is in a non-attainment area for the federal 8-hour ozone standard, contributions from construction activities can have a major impact well beyond the project limits. Take practical measures to mitigate the impact of operating construction equipment on the air quality in and around the project site.

Voluntarily establishing the staging zones for trucks waiting to load and unload is encouraged by the department. Locate staging zones where idling of diesel powered equipment will have minimal impact on abutting properties and the general public. The department will make signs available to help identify these zones. Have truckers queue up in these zones whenever it is practical. The department further encourages drivers to shut down diesel trucks as soon as it appears likely that they will be queued up for more than ten minutes. Notify employees and sub-contractors about fueling and engine idling.

Portable Concrete Crusher Plants

Portable concrete crusher plants may need a NR 440 Concrete Crusher Plant Air Permit for air emissions. Please contact Wisconsin Department of Natural Resources to request additional information and permit application materials. Complete permit applications may take 3 months to process.
sef-999-039 (20160929)

14. Notice to Contractor – OCIP Exclusions.

The Owner Controlled Insurance Program (OCIP) insurance coverage excludes environmental/abatement work, including hazardous materials/chemicals, lead and other materials considered hazardous – see Article – Owner Controlled Insurance Program for additional information. Environmental/abatement work must be performed by a qualified contractor and the work will not be covered under OCIP. The contractor performing

Environmental/abatement work may potentially be enrolled in the OCIP if also performing other work not excluded from the OCIP umbrella. The qualified subcontractor must carry Construction Pollution Liability insurance with limits of at least \$1,000,000 per Occurrence and \$2,000,000 Aggregate.

Report only payroll from non-environmental work under the OCIP. Do not report payroll generated from environmental/abatement work.

Direct questions regarding all aspects of OCIP to Chris Luttrell at (608) 381-2340, or chris.luttrell@dot.wi.gov.
sef-107-025 (20170406)

15. Owner Controlled Insurance Program.

Standard spec 107.26, “Standard Insurance Requirements” is deleted in its entirety and the following standard spec 107.26 is substituted thereof:

107.26 Standard Insurance Requirements

107.26(1)(a) Owner Controlled Insurance Program

1. Overview. The State of Wisconsin, Department of Transportation (“the WisDOT”) has arranged with Aon Risk Solutions, (the “OCIP administrator”) for this Project to be insured under its Owner Controlled Insurance Program (“OCIP”). The OCIP is more fully described in the Zoo Interchange manual for the Owner Controlled Insurance Program (the “Insurance Manual”) and the Safety and Health Plan Manual that are incorporated in this Special Provision and the Contract by this reference. Parties performing labor or services at the Project Site (as defined by the OCIP Policies) are eligible to enroll in the OCIP unless the party is an excluded party (as defined below). The OCIP will provide to enrolled parties(as defined below) workers’ compensation and employer’s liability insurance, commercial general liability insurance, Builders Risk and Excess Liability insurance as summarily described below in connection with the performance of the Work (“OCIP coverage’s”).

2. Enrolled Parties and Their Insurance Obligations. OCIP coverage applies only to Enrolled Parties. Enrolled Parties include the WisDOT and its employees, non-excluded Contractors and Subcontractors of all tiers who enroll in the OCIP, all employees of Enrolled Contractor’s and Subcontractor’s who perform Work at the Project Site, and such other persons or entities that the WisDOT, in its sole discretion, may designate (each such party who is insured under the OCIP is collectively referred to as an “Enrolled Party”).

Enrolled Parties shall obtain and maintain, and shall require each of its Subcontractors to obtain and maintain, the insurance coverage specified in 107.26(1)(a) 8 below.

3. Excluded Parties and Their Insurance Obligations. OCIP coverage's do not apply to the following "Excluded Parties":

- a. Hazardous materials remediation, removal and/or transport companies;
- b. Vendors *, suppliers, fabricators, material dealers, truckers**, haulers, drivers and others who merely transport, pickup, deliver, or carry materials, personnel, parts or equipment or any other items or persons to or from the Project;

* WisDOT is requiring all vendors who perform maintenance on an enrolled contractor's equipment to be enrolled in the OCIP. Please see "WisDOT OCIP Enrollment Guidance Relating to Service Vendors" to determine whether they will be enrolled per project id number or on a Miscellaneous blanket basis.

** Truckers that come on site must remain in the cab of the vehicle.

Refer to the "Enrollment Matrix" which clearly outlines the requirements contingent upon the category that the entity falls under, such as: Contractor; Subcontractor; Consultant; Visitor; etc.

- c. Sanitary disposal facility providers, if the only function is to drop off the units and pick them up later, they are material suppliers and are excluded. If the company also services/cleans the units on site, that is no longer being a material supplier. (Refer to "Enrollment Matrix", Vendors Providing Maintenance On Site).
- d. Contractors and Subcontractors of any tier that do not perform any actual labor on the Project site;
- e. Any party or entity not specifically identified in this special provision or excluded by the WisDOT as permitted by law, even if otherwise eligible.
- f. If you are not employed by an Enrolled Party, but performing services of an Excluded Party, you are not covered by the OCIP.

Excluded Parties and parties not enrolled in the OCIP shall obtain and maintain, and shall require each of its excluded Subcontractors to obtain and maintain, the insurance coverage specified in standard spec 107.26(1)(a) 8 below and in the Insurance Manual. Excluded Parties shall comply with all of the safety requirements pursuant to 107.26(1)(a) 16.

4. OCIP Insurance Policies Establish OCIP coverage's. The OCIP coverage's and exclusions summarized in this special provision and the other contract documents are set forth in full in their respective insurance policy forms. The summary descriptions of the OCIP coverage's in this special provision or the Insurance Manual are not intended to be complete or to alter or amend any provision of the actual OCIP coverage's. In the event any provision of this special provision, the Insurance Manual, or the contract documents, conflicts with the OCIP insurance policies, the provisions of the actual OCIP insurance policies shall govern.

5. Summary of OCIP Coverage's. OCIP coverage's will apply only to those operations of each Enrolled Party performed at the Project Site (as defined in the OCIP insurance Policies) in connection with the Work and only to Enrolled Parties that are eligible for the OCIP.

The OCIP coverage's are primary insurance for all Enrolled Parties for occurrences during the policy period at the Project Site (as defined in the OCIP Policies). The OCIP will provide at least the following insurance to Enrolled Parties:

Summary of OCIP Coverages

This is a brief description of OCIP Insurance Coverage. Enrolled Parties should refer to the actual policies for details concerning coverage, exclusions and limitations.

- a. Workers' Compensation Insurance -Statutory Limit including Jones Act and USL&H coverage, as applicable.
- b. Employer's Liability Insurance \$1,000,000 Bodily Injury by Accident, each accident \$1,000,000 Bodily Injury by Disease, each employee \$1,000,000 Bodily Injury by Disease, policy limits
- c. Commercial General Liability (ISO Occurrence Form – Limits Shared By All Insureds) \$2,000,000 Each Occurrence Limit (Annual Limit) \$2,000,000 Personal/Advertising Injury Aggregate \$4,000,000 General Aggregate Limit for all Enrolled Parties (Annual Limit)

\$4,000,000 Products and Completed Operations Aggregate for all Enrolled Parties (Single Limit Applies to Entire Products and Completed Operations Extension)

10 yr. Products and Completed Operations Extension
- d. The OCIP Commercial General Liability policy will not provide coverage for any claim that could be covered under a property policy or Builder's Risk policy.
- e. Excess Liability insurance (over Employer's Liability and General Liability – Limits Shared by All Insureds)

\$100,000,000 Each Occurrence Limit

\$100,000,000 Aggregate (Annual Limit)

\$100,000,000 Products and Completed Operations Aggregate Limit
(Single Limit Applies to Entire Products and Completed Operations Extension).

f. Builder's Risk Insurance Coverage:

This is a brief description of Builder's Risk Insurance Coverage. Contractor should refer to the actual policies for details concerning coverage, exclusions and limitations. The Builder's Risk insurance covers insures property, including materials, supplies, machinery, fixtures and equipment which will become a permanent part of the Work (excluding road work at grade level) in the course of construction.

The Builder's Risk coverage insures WisDOT and Enrolled Parties.

Builders Risk:

Limit

Each Occurrence Limit
\$100,000,000

Builder's Risk Obligation:

Contractor or Subcontractor shall pay to the WisDOT's designee within five (5) days Written notice a maximum of up to twenty-five thousand dollars (\$25,000.00) for each loss payable under the Builder's Risk Policy attributable to Contractor's Work, acts or omissions, or the Work, acts or omissions of any of Contractor's Subcontractors, or any other entity or party for whom Contractor may be responsible ("builder's risk obligation").

6. The WisDOT's Insurance Obligations.

- a. The WisDOT will pay the costs of premiums for the OCIP coverage's and WisDOT will receive or pay, as the case may be, all adjustments to such costs, whether by way of dividends, retroactive adjustments, return premiums, other moneys due, audits or otherwise.
- b. The WisDOT assumes no obligation to provide insurance other than that specified in this special provision and the OCIP insurance policies.
- c. Except as provided by applicable law, the WisDOT's furnishing of OCIP coverage's will in no way relieve or limit, or be construed to relieve or limit, Contractor or any of its Subcontractors of any responsibility, liability, or obligation imposed by the contract documents, the OCIP insurance policies, or by law, including without limitation any indemnification obligations which Contractor or any of its Subcontractors has to the WisDOT there under. The WisDOT reserves the right at its option, to furnish other insurance coverage of various types and limits provided that such coverage is not less than that specified in the contract documents.

7. Contractor's OCIP Obligations. Contractor shall:

- a. Assign to WisDOT the right to receive all such adjustments, and shall require that each of its Subcontractors of every tier assigns to WisDOT the right to receive all such adjustments.
- b. Incorporate the terms of this special provision in all subcontract agreements.
- c. Enroll and maintain enrollment in the OCIP, and shall ensure that each non-Excluded subcontractor, enrolls and maintains enrollment in the OCIP. Enrollment shall take place within five days of a receipt of a Notice to Proceed, and prior to commencement of work. Comply with all of the administrative, safety, insurance, and other requirements outlined in this special provision, the Insurance Manual, the OCIP insurance policies, the Safety and Health Plan Manual, or elsewhere in the contract documents.
- d. Provide each of its Subcontractors with a copy of the Insurance Manual and ensure Subcontractor compliance with the provisions of the OCIP insurance policies, the Insurance Manual, this special provision, and the contract documents. The failure of (a) the WisDOT to include the Insurance Manual in the bid documents or (b) Contractor to provide each of its eligible Subcontractors with a copy of same shall not relieve Contractor or any of its Subcontractors from any of the obligations contained therein.
- e. Acknowledge, and require all of its Subcontractors to acknowledge in writing, that the WisDOT and the OCIP administrator are not agents, partners or guarantors of the insurance companies providing coverage under the OCIP (each such insurer, an "OCIP insurer") and that the WisDOT is not responsible for any claims or disputes between or among Contractor, its Subcontractors, and any OCIP insurer(s). Any type of insurance coverage or limits of liability in addition to the OCIP coverage's that Contractor or any Subcontractor requires for its or their own protection, or that is required by applicable laws or regulations, shall be Contractor's or its Subcontractor's sole responsibility and expense and shall not be billed to the WisDOT.
- f. Cooperate fully with the OCIP administrator and the OCIP insurers, as applicable, in its or their administration of the OCIP.
- g. Provide, within five (5) business days of the WisDOT's or the OCIP administrator's request, all documents or information as requested of Contractor or its Subcontractors. Such information may include but not be limited to, payroll records, certified copies of insurance coverage's, declaration pages of coverage's, certificates of insurance, underwriting data, prior loss history information, insurance audits, safety records or history, OSHA citations, or such other data or information as the WisDOT, the OCIP administrator, or OCIP insurers may request in the administration of the OCIP, or as required by the Insurance Manual.

- h. Pay to the WisDOT's designee within five (5) days of written notification, a sum of up to **\$10,000** of each claim, including court costs, attorneys fees and costs of defense for property damage to the extent losses are insured under the OCIP Commercial General Liability policy for those losses that are attributable to Contractor's Work, acts or omissions, or the Work, acts or omissions of any of its Subcontractors, or any other entity or party for whom Contractor may be responsible ("contractor General Liability obligation"). The contractor General Liability obligation will not be insured by the OCIP Coverage's.

8. Additional Insurance Required From Enrolled Parties and Excluded Parties.

Contractor shall obtain and maintain, and shall require each of its Subcontractors of every tier to obtain and maintain, the insurance coverage specified in this Section in a form and from insurance companies reasonably acceptable to the WisDOT. The insurance limits may be provided through a combination of primary and excess policies, including the umbrella form of policy. The insurance required by this Section shall conform to the WisDOT's requirements outlined in the Insurance Manual and be written by companies authorized to do business in the state of Wisconsin with an **AM Best rating of A-or better**. Contractor shall provide certificates of insurance coverage to the WisDOT as required below and by the Insurance Manual.

As to Enrolled Parties, the Workers' Compensation, Employer's Liability, and Commercial General Liability insurance required by this section shall only be for operations away from the Project Site (as defined by OCIP Policies). The cost of providing the required insurance coverage and limits is incidental to the contract. The department will make no additional or special payment for providing insurance.

TYPE OF INSURANCE MINIMUM LIMITS REQUIRED

1. Commercial General Liability insurance shall be endorsed to include Blanket Contractual Liability coverage.
 - a. \$2,000,000 Combined Single Limits per occurrence with an annual aggregate limit of not less than \$4,000,000.
 - b. The OCIP Coverage's shall exclude blasting or explosion operations. If blasting or explosion operations are used in connection with the Work, Commercial General Liability insurance shall not contain an exclusion for blasting or explosion and shall be provided in limits established by the WisDOT at the time such blasting or explosion methods are elected. Such coverage shall apply to operations whether the operations occur on the Project site or away from the Project site.
 - c. Wisconsin Department of Transportation, their respective officers, agents and employees, and any additional entities as the WisDOT may request as additional insureds must be named as an Additional Insured which shall include: i) liability arising out of the Work performed by the named insured; ii) liability arising out of the supervision of the Work performed by or operations of the named insured; and iii) liability of the acts or omissions of the Additional Insureds relating to Work performed by the named insured for the Project, except for sole negligence of the

Additional Insureds iv) will state that coverage is afforded on a primary and non-contributory basis.

- d. Ongoing Construction Operation(s) in effect at all times while work is being performed by Contractor;
 - e. Subcontractors and Independent Contractors (if any);
 - f. Products and Completed Operations, including coverage applicable to additional insureds (as required by this agreement) with Completed Operations coverage to remain in force, whether by endorsement or renewal of coverage, including the Contractor, any party required to be indemnified by this Contract and any other party required by this Contract to be named as an additional insured, for at least two (2) years from the date of final completion of the Project and WisDOT's acceptance of the work; and
 - g. Explosion, collapse, and underground hazards.
 - h. Contractual Liability (insured contract) coverage sufficient to meet the requirements of this Contract (including defense costs and attorney's fees assumed under contract);
 - i. Personal and Advertising Injury Liability coverage (with the standard contractual and employee exclusions deleted);
 - j. Notice and Knowledge of Occurrence conditions limited to the knowledge of relevant corporate officers or risk managers with an Unintentional Errors and Omissions provision (providing that the insurer may not deny coverage unless it can show that it has been prejudiced by a failure of the insured to comply with a condition of the policy); and
 - k. CG 22 79 07 98 (or equivalent) is the only acceptable Professional Liability Exclusion.
 - l. Operations performed within 50' of railroad
 - m. Contractors must provide their own insurance for owned, leased, rented and borrowed equipment, whether such equipment is located at a Project Site or "in transit". Contractors are solely responsible for any loss or damage to their personal property including, without limitation, property or materials created or provided under the Contract until installed at the Project Site, Contractor tools and equipment, scaffolding and temporary structures.
2. Workers' Compensation and Employer's Liability insurance.
- a. Workers' Compensation Limits: Statutory Limits
 - b. Employer's Liability limits:
 - \$1,000,000 Bodily Injury by Accident, each accident \$1,000,000 Bodily Injury by Disease, each employee \$1,000,000 Bodily Injury by Disease, policy limits
- Terms and conditions shall include:
- USL&H – where applicable.
 - Jones Act – where applicable.
 - All states endorsement -where applicable.

3. Commercial Automobile Liability insurance as specified by Insurance Services Office (ISO), form CA 00 01, symbol 1 (any auto) with the following limits and endorsements:
 - a. No Trucking or Hauling: \$1,000,000 Each Accident
 - b. Trucking or Hauling (Non Hazardous Materials): \$2,000,000 Each Accident
 - c. Trucking or Hauling Hazardous Materials: \$5,000,000 Each Accident with an MCS 90 Endorsement and ISO Endorsement CA 99 48.
4. For any work over water, whether deemed navigable or otherwise, Contractors Pollution Liability insurance with \$2,000,000 per occurrence and \$2,000,000 aggregate policy limits.
5. Aviation and/or Watercraft Liability insurance, as appropriate, including hull and protection and indemnity for watercraft, or other insurance, in form and with limits of liability and from an insuring entity reasonably satisfactory to the WisDOT.

Contractor's failure to procure or maintain the insurance required by this Section and to assure all its Subcontractors of every tier maintain the required insurance during the entire term of the contract shall constitute a material breach of this contract under which the WisDOT may immediately suspend or terminate this contract or, at its discretion, procure or renew such insurance to protect the WisDOT's interests and pay any and all premiums in connection therewith, and withhold or recover all monies so paid from the Contractor.

Contractor shall provide the WisDOT with certificates of insurance as evidence that required coverage's for insurance detailed in this section are in force. The bidder shall provide certificates of insurance in their pre-qualification statement as specified in 102.1.

Contractor shall notify the WisDOT at least 60 calendar days before a cancellation or material change in coverage and only obtain coverage from insurance companies licensed to do business in the state that have an AM Best rating of A- or better. The cost of providing the required insurance coverage and limits is incidental to the contract. The WisDOT will make no additional or special payment for providing insurance.

The above insurance requirements shall apply with equal force whether the Contractor or a Subcontractor, or anyone directly or indirectly employed by either, performs the work under the Project.

9. Additional Insureds:

All insurance required by this agreement (excluding only workers compensation insurance) shall name WisDOT, all parties required to be indemnified by this Contract

and all other parties as reasonably requested by the WisDOT, as additional insureds. All policies (including primary, excess and/or umbrella) must provide that coverage shall be primary and non-contributory to any insurance maintained by the Contractor or the additional insured, all of which shall be stated on the Certificate of Insurance provided by the Contractor. The Additional Insured Endorsement shall be on Form CG 20 10 11/85, or CG 20 33 10/01 plus CG 20 37 10/01, or equivalent, and shall include ongoing and completed operations coverage, which shall not contain any restrictions.

IN THE EVENT THAT THE LAW OF THE STATE IN WHICH THE PROJECT IS LOCATED (OR APPLICABLE LAW) LIMITS THE ADDITIONAL INSURED COVERAGE THAT WISDOT MAY REQUIRE FROM THE CONTRACTOR, THEN THE CONTRACTOR SHALL BE REQUIRED TO OBTAIN ADDITIONAL INSURED COVERAGE TO THE FULLEST EXTENT OF COVERAGE AND LIMITS ALLOWED BY APPLICABLE LAW AND THIS CONTRACT SHALL BE READ TO CONFORM TO SUCH LAW.

10. Contractor Representations and Warranties to the WisDOT. Contractor represents and warrants to the WisDOT or behalf of itself and its Subcontractors:

- a. That all information it submits to the WisDOT or the OCIP administrator shall be accurate and complete.
- b. That Contractor, on behalf of itself and its Subcontractors, has had the opportunity to read and analyze copies of the OCIP binders and specimen policies that are on file in the WisDOT's office. Any reference or summary in the contract, this special provision, the Insurance Manual, or elsewhere in any other contract document as to amount, nature, type or extent of OCIP coverage's and/or potential applicability to any potential claim or loss is for reference only. Contractor and its Subcontractors have not relied upon said reference but solely upon their own independent review and analysis of the OCIP coverage's in formulating any understanding and/or belief as to amount, nature, type or extent of any OCIP coverage's and/or its potential applicability to any potential claim or loss.
- c. That the costs of OCIP coverage's were not included in Contractor's bid or proposal for the Work, the contract price, and will not be included in any change order, change modification, or any request for payment for the Work or extra work. The "costs of OCIP coverage's" is defined as the dollar amount of premiums, costs and fees the Contractor and its Subcontractors would have paid its insurance carrier to insure the operations and exposures which are being insured under the OCIP.
- d. That Contractor acknowledges that the WisDOT will not pay or compensate Contractor or any Subcontractor, in any manner, for costs of OCIP coverage's or for "insurance costs" except as specifically required to be maintained by Contractor by the terms of this special provision.

11. Severability of Interests (Cross Liability):

All insurance required by this agreement (excluding only workers compensation insurance) shall include a provision or be endorsed to provide that, inasmuch as the policy is written to cover more than one insured, all terms, conditions, insuring agreements and endorsements, with the exception of limits of liability, shall operate in the same manner as if there were a separate policy covering each insured. No cross liability exclusions are permitted and there may not be any restrictions in any policies that limit coverage for a claim brought by an additional insured against a named insured. Also, there shall not be any provision in any insurance policy which excludes or conditions coverage on the existence of a contract or other agreement requiring insurance.

12. Breach of Insurance Requirements:

The Contractor's failure to obtain and maintain insurance coverages as required by this agreement shall constitute a material breach of the Contract. In such event WisDOT may at its option: (i) terminate the Contractor for default; or (ii) purchase such coverage and backcharge the premium and associated costs to the Contractor; or (iii) at their respective option, WisDOT and/or an additional insured can require the Contractor and/or its Subcontractors to pay for attorney's fees, expenses, damages and liability as a result of any claim or lawsuit to the extent coverage would have been provided to them under the Contractor's insurance but for the Contractor's breach WisDOT has the right to backcharge the Contractor for such sums. Furthermore, to the extent of their respective interest, the Insurers of those entities that were to be included as additional insureds are deemed to be third-party beneficiaries of the insurance procurement obligation.

13. Subcontractor:

Before permitting any Subcontractor to perform work under a subcontract, the Contractor shall require by written contract that the Subcontractor maintain insurance in like form and amounts to that required herein. The Contractor shall be responsible to ensure that each Subcontractor maintains insurance in like form and amounts and shall Provide evidence of same if requested. Contractor shall provide copies of its Subcontractor's certificates of insurance coverage to WisDOT or the OCIP Administrator upon request.

14. Notice of Cancellation:

All insurance coverages required by this agreement shall contain a provision that the coverage afforded thereunder cannot be cancelled, non-renewed, allowed to lapse, or have any restricted modifications added unless at least thirty (30) days prior written notice has been given to WisDOT. The Contractor is responsible to provide replacement coverage conforming with the requirements of this agreement in the event of any cancellation, non-renewal or modification of any insurance coverages required by this agreement.

15. Limits of Insurance:

The Contractor's insurance coverage and any additional insured coverage provided to WisDOT and any additional insured shall be for the full amount of any loss up to the policy(s) limits of liability and shall not be limited to the minimum insurance requirements

of this Contract. The Contractor is responsible for notifying its insurance carriers in the event of a loss or potential loss involving coverage for the additional insureds. However, this does not prohibit any additional insureds from reporting a claim directly to the Contractor's insurance carriers.

16. Deductibles/Denial of Claims:

The Contractor shall be responsible, at no additional cost to WisDOT, for the payment of any deductibles or self-insured retention in connection with the insurance coverages required by this agreement, both for itself and all additional insureds. Any self-insured retention or deductible must be declared in writing at the time the Contractor submits its bid and must be specifically approved by WisDOT prior to execution of the Contract. The Contractor shall be responsible for any loss arising out of coverage denial by its insurance carrier. The Contractor may not procure policies that limit who may pay the SIR or deductible; rather, any SIR shall be payable by either the Contractor or the Subcontractor and the Contractor may not have a policy that prevents WisDOT from accessing or triggering coverage unless the SIR is paid by the Contractor. Contractor shall also ensure that similar conditions are incorporated into all subcontracts. In the event that WisDOT is required to pay any deductible and/or SIR to access any insurance policy, Subcontractor shall promptly reimburse the Contractor for such payment.

17. No Waiver of Insurance Requirements:

IT IS EXPRESSLY AGREED BETWEEN WISDOT AND THE CONTRACTOR THAT THE FAILURE OF WISDOT TO REQUIRE OR VERIFY COMPLETE AND TIMELY PERFORMANCE OF THE CONTRACTOR'S OBLIGATIONS UNDER THIS CONTRACT SHALL NOT BE A WAIVER BY WISDOT OF ANY RIGHT OF WISDOT TO REQUIRE THE CONTRACTOR TO COMPLY WITH THESE INSURANCE REQUIREMENTS AND/OR TO SEEK DAMAGES BECAUSE OF THE CONTRACTOR'S FAILURE TO COMPLY WITH THE INSURANCE REQUIREMENTS IN THIS CONTRACT.

18. Audits. Contractor agrees that the WisDOT, the OCIP administrator, and/or any OCIP insurer may audit Contractor's or any of its Subcontractor's Project payroll records, books and records, insurance coverage's, insurance cost information, or any other information that Contractor provides to the WisDOT, the OCIP administrator, or the OCIP insurers to confirm their accuracy and to assure that costs of OCIP coverage's are not included in any payment for the work.

19. The WisDOT's Election to Modify or Discontinue OCIP. The WisDOT may, for any reason, modify the OCIP coverage's, discontinue the OCIP, or request that Contractor or any of its Subcontractors withdraw from the OCIP upon thirty (30) days written notice. Upon such notice Contractor and/or one or more of its Subcontractors, as specified by the WisDOT in such notice, shall obtain and thereafter maintain at the WisDOT's expense, Contractor Maintained Coverages (or a portion thereof as specified by the WisDOT) of the OCIP coverage's. The form, content, limits of liability, cost, and the insurer issuing such replacement insurance shall be subject to the WisDOT's approval.

20. Withhold of Payments. The WisDOT may withhold from any payment owing to Contractor the costs of OCIP coverage's if included in a request for payment. In the event the WisDOT audit of Contractor's records and information as permitted in the Contract, this special provision, or other contract documents reveals a discrepancy in the insurance, payroll, safety, or any other information required by the contract documents to be provided by Contractor to the WisDOT, or to the OCIP administrator, or reveals the inclusion of costs of OCIP coverage's in any payment for the work, the WisDOT will have the right to full deduction from the Contract Price of all such costs of OCIP coverage's and all audit costs. Audit costs will include but not be limited to the fees of the OCIP administrator, and the fees of attorneys and accountants conducting the audit and review. If the Contractor or its Subcontractors fail to timely comply with the provisions of this special provision or the requirements of the Insurance Manual, the WisDOT may withhold any payments due Contractor and its Subcontractors until such time as they have performed the requirements of this special provision. Such withholding by the WisDOT will not be deemed to be a default hereunder.

21. Waiver of Claim and Waiver of Subrogation:

Where permitted by law, Contractor hereby waives all rights of recovery under subrogation because of deductible clauses, inadequacy of limits of any insurance policy, limitations or exclusions of coverage, or any other reason against the WisDOT, the State of Wisconsin and any of its Agencies or Officer's, Agents or employees including without limitation, the OCIP administrator, its or their officers, agents, shareholders or employees of each, if any, and any other Contractor or Subcontractor performing work or rendering services on behalf of the WisDOT in connection with the planning, development and construction of the Project, and Contractor shall require that all Contractor maintained insurance coverage related to the work include clauses providing that each insurer shall waive all of its rights of recovery by subrogation for claims described above.

22. Waiver of Subrogation. Where permitted by law, Contractor shall also require that all Contractor maintained insurance coverage related to the work include clauses providing that each insurer shall waive all of its rights of recovery by subrogation against the WisDOT, the State of Wisconsin and any of its Agencies or Officer's, Agents or employees including without limitation, the OCIP administrator, its or their officers, agents, shareholders or employees of each, if any. Contractor shall require similar written express waivers and insurance clauses from each of its Subcontractors. A waiver of subrogation shall be effective as to any individual or entity even if such individual or entity (a) would otherwise have a duty of indemnification, contractual or otherwise, (b) did not pay the insurance premium directly or indirectly, and (c) whether or not such individual or entity has an insurable interest in the property damaged.

23. Conflicts. In the event of a conflict, the provisions of this special provision shall govern, then the provisions of the contract and its other related contract documents, then the provisions of the Insurance Manual.

24. Safety. Contractor shall be solely responsible for safety on the Project and safety relating to the Work. Contractor shall establish a safety program that, at a minimum, complies with all local, state and federal safety standards, and any safety standards established by the WisDOT for the Project, including the Project Safety and Health Plan Manual.

SEF-ZOO IC 15_0112

16. Furnishing Plant Materials.

Amend standard spec 632.2.2.1 to include the following:

All plants shall be grown within the states of Wisconsin, Minnesota, Michigan, or parts of northern Illinois located within Zone 5 of the “Plant Hardiness Zone Map” produced by the United States Department of Agriculture, Miscellaneous Publication No. 1475, issued January, 2012.

Amend standard spec 632.2.2.9.1 to include the following:

Plugs shall not be held on site more than 48 hours prior to planting.

17. Digging, Handling, and Packing Plant Stock.

Amend standard spec 632.2.2.9.1 to include the following:

Plant materials specified for fall planting, that require spring digging, shall be reserved by the contractor in advance of the project to allow plant installation in conformance with the project schedule.

Spring dug plants shall be placed in a holding area where the root ball shall be covered to the existing soil line with hardwood bark mulch or a material approved by the landscape architect. Holding area shall allow for watering and protection from wind and sun. All plants in leaf shall be sprayed with an anti-descant in conformance with standard spec 632.2. Plants may be held by either the contractor or supplier.

18. Landscape Planting Surveillance and Care Cycles.

If the care specialist fails to perform any of the required care cycles as specified in standard spec 632.3.19.1, the department will assess daily damages in the amount of \$1000 per day to cover the cost of performing the work with other forces. The department will assess these damages for each day the requirements of the care cycle remain incomplete, except when the engineer extends the required time period.

632-005 (20070510)

19. **Daylily, Stella de Oro Dwarf Cont 1 Gal, Item SPV.0060.6000; Catmint, Walkers Low Cont 1 Gal, Item SPV.0060.6001 Coneflower, Purple Cont 1 Gal, Item SPV.0060.6002; Sage, Russian Cont 1 Gal, Item SPV.0060.6004; Geranium, Rozanne Cont 1 Gal, Item SPV.0060.6005, Grass, Karl Foerster Cont 1 Gal, Item SPV.0060.6007; Panicum, Heavy Metal Cont 1 Gal, Item SPV.0060.6009**

A Description

This special provision describes furnishing and planting perennial plants of the species, varieties and sizes specified, according to standard spec 632, as modified in the article Furnishing and Planting Plant Materials, and as hereinafter provided.

B Materials

Provide plants of the specific species, variety, size, color and other characteristics as shown on the plans and Plant Data chart unless prior written approval of the engineer is provided in advance for any substitution.

C Construction

Plant perennials in prepared beds that are a minimum of 6" deep and backfilled with Planting Mixture (standard spec 632.2.3.4). Incorporate timed-release fertilizer thoroughly into the top 3" inches of planting soil at the manufacturers recommended rate. Use a fertilizer conforming to the following minimum requirements:

Nitrogen.....	14%
Phosphoric Acid.....	14%
Potash.....	14%

Thoroughly water-in plants to eliminate all air pockets in the planting pit.

Plant all perennials between May 1st and September 1st unless directed otherwise by the engineer.

Contractor shall remove and dispose of all excess material from site.

D Measurement

The department will measure Perennials by Each unit in place, and the quantity to be paid shall be the number of perennials planted and accepted.

E Payment

The department will pay for measured quantities at the contract unit price under the following bid items:

ITEM NUMBER	DESCRIPTION	UNIT
SPV.0060.6000	Daylily, Stella de Oro Dwarf Cont 1 Gal	EACH
SPV.0060.6001	Catmint, Walkers Low Cont 1 Gal	EACH
SPV.0060.6002	Coneflower, Purple Cont 1 Gal	EACH
SPV.0060.6004	Sage, Russian Cont 1 Gal	EACH
SPV.0060.6005	Geranium, Rozanne Cont 1 Gal	EACH
SPV.0060.6007	Grass, Karl Forester Cont 1 Gal	EACH
SPV.0060.6009	Panicum, Heavy Metal Cont 1 Gal	EACH

Payment is full compensation according to standard spec 632.5.

20. Plugs Cont #2.5, Item SPV.0060.6010.

A Description

This special provision describes furnishing and planting perennial plants of the species, varieties and sizes specified, according to standard spec 632, as modified in the article Furnishing and Planting Plant Materials, and as hereinafter provided.

B Materials

Provide plants of the specific species, variety, size, color and other characteristics as defined in C Construction. Prior written approval of the engineer is required for any substitution.

Plant material shall be either vegetative plugs 2 ½" diameter x 2 ½" deep x 3" plant height cut from a known source, or container grown in plastic "cell packs" or trays with individual containers a minimum of 2 ½" x 2 ½" x 2 ½" deep, 3" plant height.

C Construction

Prepare beds prior to planting by spot weeding undesirable plants and mowing vegetation, including cover crop, to a height of 6" minimum of one week after spot weeding. Mowed stalks or leaf pieces shall be no larger than 12" long.

Identify and mark areas that have bare spots, where have not been established by seed, two weeks after vegetation has been cut. Upon approval by the engineer, install randomly mixed plants 5' on center. Plant species consist of Butterfly Weed 7%, Common Milkweed 9%, New England Aster 6%, Rough Blazingstar 6%, Showy Goldenrod 9%, Wild White Indigo 6%, Pale Purple Coneflower 9%, Showy Tick Trefoil 6%, Purple Prairie Clover 6%, Wild Lupine 6%, Showy Blazingstar 6%, Leadplant 6%, Wholred milkweed 6%, Smooth Blue Aster 6% and Bergamot 6%. Excavate holes twice the diameter and 1" deeper than depth of the plug or container, backfill with Planting Mix.

Thoroughly water-in plants to eliminate all air pockets in backfill.

Plant all perennials between April 15 and June 15 unless directed otherwise by the engineer. Space plants 5' on center unless directed by the engineer to modify spacing.

Water plants as in standard spec 632.3.19.1 (2) for plant establishment. After planting, proper care includes watering cutting, weed control. A second mowing to 6" is required for weed control during the first year. This second mowing shall occur during the last week of July to the first week of August.

Plant plugs in prepared planting pits that are a minimum of 6" deep and backfilled with Planting Mixture (standard spec 632.2.3.4). Incorporate timed-release fertilizer thoroughly into the top 3" inches of planting soil at the manufacturers recommended rate. Use a fertilizer conforming to the following minimum requirements:

Nitrogen.....	14%
Phosphoric Acid.....	14%
Potash.....	14%

Contractor shall remove and dispose of all excess material from site.

D Measurement

The department will measure Perennials by Each unit in place, and the quantity to be paid shall be the number of perennials planted and accepted.

E Payment

The department will pay for measured quantities at the contract unit price under the following bid items:

ITEM NUMBER	DESCRIPTION	UNIT
SPV.0060.6010	Plugs Cont #2.5	EACH

Payment is full compensation for furnishing all materials, storing plants, labor, tools, equipment, excavation, water; incidentals for the planting of perennial plugs (container grown) accepted and in place.

21. Watering Bag, Item SPV.0060.6011.

A Description

This special provision describes furnishing and installation of slow release watering bags on deciduous trees and their removal at the end of the growing season.

B Materials

Watering bags shall be UV stabilized polyethylene, polypropylene or polyvinyl chloride with nylon zippers for installation.

Bag capacity shall be a minimum of 20 gallons. There shall be two to four water release openings on the bottom of each bag. Water release rate shall be 20 gallons per 5 to 9 hours.

Bag height shall be approximately 2 times the base width.

Bags shall be filled with water as per standard spec 632.3.19.1.2 unless directed differently by the engineer. Watering is considered proper care after planting and is incidental to the planting.

Remove and dispose of bags after October 15, of the second year of care and prior to freezing.

C Construction

Install watering bag per manufacturer's recommendations

D Measurement

The department will measure Watering Bag as each individual unit, acceptably completed.

E Payment

The department will pay for measured quantities at the contract unit price under the following bid item:

ITEM NUMBER	DESCRIPTION	UNIT
SPV.0060.6011	Watering Bag	EACH

Payment is full compensation for the installation and removal of Watering Bag, as required per manufacturer's instructions.

22. Pavement Cleanup Project 1060-35-81, Item SPV.0075.0001.

A Description

This special provision describes cleanup of dust and debris from pavements within and adjacent to the job site. Pavement Cleanup includes surveillance and reporting of all active haul routes.

B Materials

B.1 Pavement Cleanup

Furnish a vacuum-type street sweeper equipped with a power broom, water spray system, and a vacuum collection system.

Use vacuum equipment with a self-contained particulate collector capable of preventing discharge from the collection bin into the atmosphere.

Use a vacuum-type sweeper as the primary sweeper, except as specified in this special provision or approved by the engineer.

C Construction

C.1 Surveillance

Provide daily surveillance of active haul routes to identify if material is being tracked from the jobsite. Document the condition of the roads and all sweeping recommendations in a daily report. Submit reports to the engineer daily, including hourly metered tickets for that day's sweeping activities.

C.2 Pavement Cleanup

Keep all pavements, sidewalks, driveways, curb lanes and gutters within the project boundaries, free of dust and debris generated from all activity under the contract. Keep all pavements, sidewalks, driveways, curb lanes, and gutters adjacent to the project free of dust and debris that are caused by land disturbing, dust generating activities, as defined in the contractor's Dust Control Implementation Plan (DCIP). Provide routine sweeping of all pavements, sidewalks, driveways, curb lanes and gutters on local-street active haul routes as defined in the DCIP or as directed by the engineer. Include the following roadways for routine sweeping:

- W. Bluemound Road (IH 41/USH 45 to S. 92nd Street)
- And all other roadways approved by the department

In addition to routine sweeping, conduct sweepings as the engineer directs or approves, to eliminate dust problems that might arise during off-work hours or emergencies. Provide the engineer with a contact person available at all times to respond to requests for emergency sweeping. Coordinate with engineer to determine deadlines for responding to emergency sweeping requests and cleaning up spillage and material tracked to/from the project.

Skid steers with mechanical power brooms may only be used on sidewalks and driveways whose pavements will not support the weight of a street sweeper, unless otherwise approved by the engineer. Do not dry sweep. Ensure all broomed equipment used for sweeping has a functioning water bar.

D Measurement

The department will measure Pavement Cleanup Project 1060-35-81 by the hour, acceptably completed.

Tickets shall include:

- Date
- Company
- Operator name
- Equipment make/model
- Routes swept
- Total hours

(Total hours shall be to the nearest 0.25 hour that work under this item was performed.)

E Payment

The department will pay for measured quantities at the contract unit price under the following bid item:

ITEM NUMBER	DESCRIPTION	UNIT
SPV.0075.0001	Pavement Cleanup Project 1060-35-81	HR

Payment is full compensation for daily surveillance; preparing and submitting the daily surveillance report with hourly metered tickets; mobilization; sweeping; and disposing of materials.

sef-104-006 (20170323)

23. Granite Boulders, Item SPV.0165.0001.

A Description

This special provision describes furnishing and installing rounded granite boulders along portions of raised planting areas as noted on the plans.

B Materials

Furnish native Wisconsin granite (glacial) boulders with rounded naturally weathered edges. Boulders shall be variable in color, sound, hard, dense and free from seams, cracks, or other defects. Freshly broken quarry stone is not acceptable.

Boulders shall be 8" – 14" in size.

C Construction

Location of wall shall be marked in the field. Upon approval by the engineer, excavate and embed the lower 3" of each boulder in the soil.

Small boulders 8" – 12" shall be used for the top course of planting berm edge.

Large boulders 12" – 14" shall be used for the lower course of planting berm edge.

Boulders shall be set into the edge of the planting berm with topsoil backfill. Top of planting berm, behind the two courses of boulders, shall be approximately 21" – 24" above existing grade.

D Measurement

The department will measure Granite Boulders as square feet of the outside boulder wall face, including area below final finish grade, accepted and in place.

E Payment

The department will pay for measured quantities at the contract unit price under the following bid item:

ITEM NUMBER	DESCRIPTION	UNIT
SPV.0165.0001	Granite Boulders	SF

Payment is full compensation for furnishing and installation of Granite Boulders, and for cleanup and removal of excess materials.

**ADDITIONAL SPECIAL PROVISION 1 (ASP 1)
FOR TRANSPORTATION ALLIANCE FOR NEW SOLUTIONS (TrANS)
PROGRAM EMPLOYMENT PLACEMENTS AND APPRENTICESHIPS**

The Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU), Section 5204(e) – Surface Transportation Workforce Development Training and Education, provides for 100 percent Federal funding if the core program funds are used for training, education, or workforce development purposes, including “pipeline” activities. The core programs includes: Congestion Mitigation and Air Quality Improvement (CMAQ) Program, Highway Bridge Program (HBP), Interstate Maintenance (IM), National Highway System (NHS), and Surface Transportation Program (STP). These workforce development activities cover surface transportation workers, including OJT/SS programs for women and minorities as authorized in 23 U.S.C. §140(b).

TrANS is an employment program originally established in 1995 in Southeastern Wisconsin. Currently TrANS has expanded to include TrANS program locations to serve contractors in Southeast (Milwaukee and surrounding counties), Southcentral (Dane County and surrounding counties including Rock County), and most Northeastern Wisconsin counties from locations in Keshena, Rhinelander and surrounding far Northern areas. TrANS attempts to meet contractor’s needs in other geographic locations as possible. It is an industry driven plan of services to address the outreach, preparation, placement and retention of women, minorities and non-minorities as laborers and apprentices in the highway skilled trades. These candidate preparation and contractor coordination services are provided by community based organizations. For a list of the TrANS Coordinators contact the Disadvantaged Business Enterprise Office at (414) 438-4583 in Milwaukee or (608) 266-6961 in Madison. These services are provided to you at no cost.

I. BASIC CONCEPTS

Training reimbursements to employing contractors for new placements, rehires or promotions to apprentice of TrANS Program graduates will be made as follows:

- 1) **On-the-Job Training, Item ASP.1T0G, ASP 1 Graduate.** At the rate of \$5.00 per hour on federal aid projects when TrANS graduates are initially hired, or seasonally rehired, as unskilled laborers or the equivalent.

Eligibility and Duration: To the employing contractor, for up to 2000 hours from the point of initial hire as a TrANS program placement.

Contract Goal: To maintain the intent of the Equal Employment Opportunity program, it is a goal that 2 (number) TrANS Graduate(s) be utilized on this contract.

- 2) **On-the-Job Training, Item ASP.1T0A, ASP 1 Apprentice.** At the rate of \$5.00 per hour on federal aid projects at the point when an employee who came out of the TrANS Program is subsequently entered into an apprenticeship contract in an underutilized skilled trade (this will include the Skilled Laborer Apprenticeship when that standard is implemented).

Eligibility and Duration: To the employing contractor, for the length of time the TrANS graduate is in apprentice status.

Contract Goal: To maintain the intent of the Equal Employment Opportunity program, it is a goal that 1 (number) TrANS Apprentice(s) be utilized on this contract.

- 3) The maximum duration of reimbursement is two years as a TrANS graduate plus time in apprentice status.
- 4) If a TrANS program is not available in the contractor's area and another training program is utilized, payment of On-the-Job Training hours may be approved by the Wisconsin Department of Transportation (WisDOT) if the training program meets the established acceptance criteria. Only On-the-Job Training Hours accumulated after WisDOT approval will be reimbursed as specified under Items ASP.1T0G and ASP.1T0A. For more information, contact the Disadvantaged Business Enterprise Office at the phone numbers listed above.
- 5) WisDOT reserves the right to deny payments under items ASP.1T0G and ASP.1T0A if the contractor either fails to provide training or there is evidence of a lack of good faith in meeting the requirements of this training special provision.

I. RATIONALE AND SPECIAL NOTE

The \$5.00 per hour now being paid for TrANS placements is intended to cover the duration of two years to allow for reaching entry-level laborer status. An additional incentive, the \$5.00 rate, would promote movement into the underutilized skilled trades' apprenticeships and applies until the individual completes their apprenticeship. These incentives benefit TrANS candidates by giving them a better opportunity to enter a skilled trade; benefits contractors who will be assisted in meeting their EEO profiles and goals; and benefits the public who will see the program reinforce larger public-private employment reform in Wisconsin. The pool of TrANS graduates was created for the purpose of addressing underutilization in the skilled trades, an objective that is further reinforced by a parallel retention pilot program, known as the Companywide Reporting. *Whether or not reimbursement is involved, the WisDOT reassures contractors who are in the Companywide Program that TrANS placements still contribute toward fulfilling the new hire goal of 50% women and minorities.* Based on data administered by United States Department of Labor (US DOL), the highway skilled trades remain underutilized for women statewide (less than 6.9%); and for minorities in all counties (% varies by county).

NOTE: *Unless using other advancement strategies, contractors are encouraged to use some or all of this monetary incentive to offset the cut in hourly wages an individual may incur when entering an apprenticeship if the full general laborer hourly rate has been previously paid. No special accounting measures are required.*

II. IMPLEMENTATION

The implementation of ASP 1 is intended to cover only the amount of time it takes for underutilization to be resolved across the trades. This will be measured annually at the county and/or state levels using data administered by WisDWD in relation to goals set by the USDOL-

OFCCP. With appropriate state and federal approvals, we may also do some measurement at the company level.

It is the contractor's responsibility to note on their Certified Payrolls if their employee is a TrANS graduate or a TrANS apprentice. The District EEO Coordinators utilize the information on the Certified Payrolls to track the hours accumulated by TrANS Graduates and TrANS apprentices on WisDOT contracts. Payment under this ASP 1 is made based on the hours recorded off of the Certified Payrolls. Tracking may eventually include improved linkages with the WisDWD apprentice database, information from company and committee level sources.

TrANS is nondiscriminatory by regulation, and is a tool for optional use by contractors to address the underutilization of women and minorities as laborers and apprentices in our industry's skilled trades.

IV. TRANS TRAINING

As part of the contractor's equal employment opportunity affirmative action program, training shall be provided to employees enrolled in apprenticeship and on-the-job training programs as follows:

The contractor shall provide on-the-job training aimed at developing full journey workers in the type of trade or job classifications involved. In the event the contractor subcontracts a portion of the contract work, the contractor shall determine how many, if any, of the trainees are to be trained by the subcontractor provided, however, that the contractor shall retain the primary responsibility for meeting the training requirements imposed by this special provision. The contractor shall also insure that this training special provision is made applicable to such subcontract.

Training and upgrading of minorities and women toward journey workers status is a primary objective of this training special provision. Accordingly, the contractor shall make every effort to enroll minority trainees and women (e.g., by conducting systematic and direct recruitment through public and private sources likely to yield minority trainees and women trainees); to the extent such persons are available within a reasonable area of recruitment. The contractor will be given an opportunity and will be responsible for demonstrating the steps that they have taken in pursuance thereof, prior to determination as to whether the contractor is in compliance with this training special provision. This training commitment is not intended, and shall not be used, to discriminate against any applicant for training, whether a member of a minority group or not.

No employee shall be employed as a trainee in any classification in which they have successfully completed a training course leading to journey workers status or in which they have been employed as a journey worker. The contractor should satisfy this requirement by including appropriate questions in the employee application or by other suitable means. Regardless of the method used, the contractor's records should document the findings in each case.

V. APPRENTICESHIP TRAINING

The Federal Highway Administration's (FHWA) policy is to require full use of all available training and skill improvement opportunities to assure increased participation of minority groups, disadvantaged persons and women in all phases of the highway construction industry. The FHWA On-the-Job Training (OJT) Program requires the State transportation agencies (STAs) to establish apprenticeships and training programs targeted to move women, minorities, and disadvantaged individuals into journey-level positions to ensure that a competent workforce is available to meet highway construction hiring needs, and to address the historical underrepresentation of members of these groups in highway construction skilled crafts.

The OJT Supportive Services (OJT/SS) Program was established in Title 23 Code of Federal Regulations (CFR), Part 230) to supplement the OJT program and support STA training programs by providing services to highway construction contractors and assistance to highway construction apprentices and trainees. The primary objectives of OJT/SS are:

- (1) To increase the overall effectiveness of the State highway agencies' approved training programs.
- (2) To seek other ways to increase the training opportunities for women, minorities, and disadvantaged individuals.

The STAs are responsible for establishing procedures, subject to the availability of Surface Transportation and Bridge Funds under 23 U.S.C. §140(b) (Nondiscrimination), for the provision of supportive services with respect to training programs approved under 23 CFR, Part 230(a) (Equal Employment Opportunity on Federal and Federal-aid Construction Contracts – including Supportive Services).

The contractor and subcontractor shall maintain records to demonstrate compliance with these apprenticeship requirements. Reasonable exemptions and modifications to and from any or all of these requirements will be determined by the Wisconsin Department of Transportation-Civil Rights Office. A request for an exemption or modification, with justification, shall be made in writing, addressed to WisDOT Civil Rights Office, 4802 Sheboygan Avenue, P.O. Box 7965, Rm. 451, Madison, WI 53707.

ADDITIONAL SPECIAL PROVISION 3

DISADVANTAGED BUSINESS ENTERPRISE [DBE] PROGRAM IMPLEMENTATION

1. Description

- a. The federal DBE program requirements outlined in the Code of Federal Regulations at 49 CFR Part 26 apply to this Wisconsin Department of Transportation contract. WisDOT is a recipient of federal funds and this contract includes federal funds. United States Department of Transportation Federal DBE Program requires the following provisions:
 - (1) Pursuant to the federal DBE program regulation at 49 CFR Part 26, a contractor's failure to comply with any provision of the DBE regulations will be considered a material breach of contract. This is non-negotiable. If a contractor fails to carry out the DBE program and Title VI nondiscrimination requirements of its contracts, the following sanctions will be assessed depending upon the facts, reasoning, severity and remedial efforts of the contractor: termination of contract, withholding payment, assessment of monetary sanctions, assessment of liquidated damages and/or suspension/debarment proceedings that may result in the disqualification of the contractor from bidding for a designated period of time.
 - (2) The contractor shall utilize the specific DBEs listed to perform the work and supply the materials for which each is listed unless the contractor obtains the federal fund recipient's [DOT] written consent. Unless [WisDOT] consent is provided, the contractor shall not be entitled to any payment for work or material unless it is performed or supplied by the listed DBE.
- b. The Wisconsin Department of Transportation [WisDOT] is committed to the compliant administration of the DBE Program. Each WisDOT Secretary affirms this commitment with his/her signed assurance.
<http://wisconsindot.gov/Documents/doing-bus/civil-rights/dbe/policy-statement.pdf>
 - (1) The department encourages the contractor to assist and develop DBE firms to become fully knowledgeable contractors to successfully perform on its contracts. Under the contract, the contractor agrees to provide the assistance to participating DBE's in the following areas:
 - i. Produce accurate and complete quotes.
 - ii. Understand highway plans applicable to their work.
 - iii. Understand specifications and contract requirements applicable to their work.
 - iv. Understand contracting reporting requirements.
 - (2) Wisconsin DOT identifies the assigned DBE goal in its contract advertisements and posts the contract DBE goal on the cover of the bidding proposal. The contractor can meet the assigned, specified contract DBE goal by subcontracting work to a DBE or by procuring services or materials from a DBE. The department calculates the DBE participation as the dollar value of DBE participation included in the bid expressed as a percentage of the total contract bid amount.
 - (3) For more comprehensive information on the disadvantaged business program, visit the department's Civil Rights and Compliance Section website at:
<http://wisconsindot.gov/Pages/doing-bus/civil-rights/dbe/default.aspx>

2. Definitions

Interpret these terms, used throughout this additional special provision, as follows:

- a. **Bid Percentage:** The DBE percentage indicated in the bidding proposal at the time of bid.
- b. **DBE:** A small business certified as disadvantaged business enterprise (DBE) under the federal DBE program and included on the Wisconsin UCP DBE Directory deemed ready, willing and able.
- c. **DBE goal:** The amount of DBE participation expected in the contract as shown on the cover of the Highway Work Proposal.
- d. **Manufacturer:** A firm that operates or maintains a factory or establishment that produces, on the premises, the materials, supplies, articles, or equipment required under the contract.
- e. **Supplier:** A firm that owns, operates, or maintains a store, warehouse, or other establishment in which the materials, supplies, articles or equipment required under the contract are bought, kept in stock, and regularly sold or leased to the public.
- f. **Voluntary Achievement:** The amount of DBE participation achieved and reported in the contract in excess of the assigned goal.

3. DBE Percentage Required at Bid Submission

Indicate the bid percentage (i.e. 0% through 100%) of DBE participation on the completed bidding proposal. For electronic submittals, show the percentage in the miscellaneous data folder, Item 3, DBE Percent. For paper submittals, show the percentage on the sheet included after the schedule of items. By submission of the bid, the bidder contractually commits to DBE participation at or above the bid percentage, or certifies that they have utilized comprehensive good faith efforts to solicit and utilize DBE firms to meet the DBE participation requirements of this contract proposal, and that the bid percentage is reflective of these good faith efforts. The bid percentage should demonstrate the efforts of the prime contractor prior to bid. If the bidder does not indicate the bid percentage of DBE participation on the completed bidding proposal, the department will consider the bid irregular and may reject the bid.

4. WisDOT Interpretation of Federal DBE Program Provision

Prime contractors must utilize the specific DBEs listed to perform the work and/or supply the materials for which each is listed on the Commitment to Subcontract to DBE Form [DT1506] and approved by WisDOT's DBE office to execute its contract. The approved Commitment to Subcontract to DBE Form [DT1506] becomes a contract document/record.

a. Department's DBE Evaluation Process

WisDOT evaluates DBE using the Commitment to Subcontract to DBE, payments to subcontractors and contract documentation. The prime contractor shall list the specific DBE certified firms and items of work s/he intends to use toward the fulfillment of the assigned DBE contract goal. The prime contractor receives DBE credit for payments made to the DBE firms performing the work listed on the approved Form DT1506.

b. Documentation Submittal

The contractor is to identify, by name, the DBE firms whose utilization is intended to satisfy this provision, the items of work of the DBE subcontract or supply agreement and the dollar value of those items of work by completing the Commitment to Subcontract to DBE Form [DT1506]. Effective January 1, 2017, the contractor will be required to submit the documentation within 5 business days after bid opening. All necessary supporting documentation including Attachment 'A' forms and/or Good Faith Efforts Form

[DT1202] must be submitted no later than 2 business days from contractor's initial submission of the DT 1506. The contractor must provide a signed Attachment 'A' form to the DBE office within the time limit in order to receive authorization for contract execution; the DBE office reserves the right accept alternate documentation in lieu of the signed form in extenuating circumstances. Documentation must be submitted to the DBE Office by email at DBE_Alert@dot.wi.gov (DBE_Alert@dot.wi.gov) or by postal mail ATTN: DBE Office, PO Box 7965, Madison, WI 53707-7965.

(1) **Bidder Meets DBE Goal**

If the bidder indicates that the contract DBE goal is met, after award and before execution, the department will evaluate the Commitment to Subcontract to DBE Form DT1506 and attachment A(s) to verify the actual DBE percentage calculation. If the DBE commitment is verified, the contract is eligible for execution with respect to the DBE commitment.

(2) **Bidder Does Not Meet DBE Goal**

- i. If the bidder indicates a bid percentage on the Commitment to Subcontract to DBE Form [DT1506] that does not meet the contract DBE goal, the bidder must submit a Good Faith Efforts Form [DT1202] and supporting documentation. After award and before execution, the department will evaluate the bidder's DBE commitment and consider the bidder's good faith efforts submission.
- ii. The department will evaluate the bidder's good faith effort request and notify the bidder of one of the following:
 - (a) If the department grants a good faith efforts, the bid is eligible for contract execution with respect to DBE commitment.
 - (b) If the department rejects the good faith efforts request, the department may declare the bid ineligible for execution. The department will provide a written explanation of why the good faith efforts request was rejected. The bidder may appeal the department's rejection as allowed under 7 a. & b.

c. **Bidder Fails to Submit Documentation**

If the contractor fails to furnish the Commitment to Subcontract to DBE Form [DT1506] within the specified time, the department may cancel the award. Delay in fulfilling this requirement is not a cause for extension of the contract time and shall not be used as a tool to delay execution.

5. Department's Criteria for Good Faith Effort

Appendix A of 49 CFR Part 26, is the guiding regulation concerning good faith efforts. However, the federal regulations do not explicitly define "good faith" but states that bidder must actively and aggressively attempt to meet the goal. The federal regulations are general and do not include every factor or effort that can be considered. As a result, each state must establish its own processes and consider the factors established in its own practices to create a process for making a determination of adequate good faith. WisDOT evaluates good faith on a contract basis just as each contract award is evaluated individually.

The department will only approve a contractor's good faith efforts if the bidder has made the effort, given the relevant circumstances under the contract that a bidder actively and aggressively seeking to meet the goal would make. The department will evaluate the bidder's good faith effort to determine whether a good faith efforts will be granted. The bidder must demonstrate, on the DT1202 that they have aggressively solicited DBE participation in an attempt to meet the contract DBE goal and attaining the stated DBE goal is not feasible.

- a. The department, in conjunction with industry stakeholders, has developed the following guidance for contractor good faith effort. The guidance and the attached appendices provide a framework for the actions required by all parties in the processing and evaluation of bidder's total efforts to achieve the project specific DBE goal prior to the bid letting date.

b. Prime Contractors should:

- (1) Document all efforts and decisions made toward achieving the DBE goal on the contract. The bidder should use the Civil Rights & Compliance System [CRCS] and related WisDOT- approved DBE outreach tools, including the Bid Express Small Business Network, to foster DBE participation on all applicable contracts.
- (2) Prime contractors may request assistance with DBE outreach and follow-up by contacting the department's DBE Support Services Office by phone or email request at least 14 days prior to the bid letting date. Requesting assistance with outreach is not a decisive factor in the review Good faith effort evaluation. Phone numbers are 414-438-4584 and/or 414-659-0487; Fax: 414-438-5392; E-mail: DOTDBESupportServices@dot.wi.gov.
- (3) Request quotes by identifying potential items to subcontract and solicit. Prime contractors are strongly encouraged to include in their initial contacts a single page including a detailed list of items for which they are accepting quotes, by project, within a letting. *See attached sample entitled "Sample Contractor Solicitation Letter" in Appendix A.* Prime contractors should also indicate a willingness to accept quotes in areas they are planning to perform themselves, as required by federal rules. In some cases, it might be appropriate to use DBE's to do work in a prime contractor's area of specialization.
 - i. Solicit quotes from certified DBE firms who match 'possible items to subcontract' using all reasonable and available means. Additionally, forward copies of solicitations highlighting the work areas for which you are seeking quotes to DOTDBESupportServices@dot.wi.gov.
 - ii. SBN is the preferred outreach tool. <https://www.bidx.com/wi/main>. Other acceptable means include postal mail, email, fax, phone call.
 - (a) Primes must ask DBE firms for a response in their solicitations. See *Sample Contractors Solicitation Letter* in Appendix. This letter can be included as an attachment to the SBN sub-quote request.
 - (b) Solicit quotes at least 10 calendar days prior to the letting date, at least two Fridays before the letting, to allow DBE firms sufficient time to respond. Prime contractors should contact DBE firms early, asking if they need help organizing their quote, assistance confirming equipment needs, or other assistance supporting their submission of a competitive quote for their services.
 - (c) Second solicitation should take place within 5 calendar days. Email and SBN are the preferred delivery of the follow-up solicitation.
 - iii. Upon request, provide interested DBE firms with adequate information about plans, specifications and the requirements of the contract by letter, information session, email, phone call and/or referral.
 - iv. When potential exists, the contractor should advise interested DBE firms on how to obtain bonding, line of credit or insurance if requested.
 - v. Document DBE firm's interest in quoting by taking appropriate steps to follow up initial solicitation with:
 - (a) Email to all prospective DBE firms in relevant work areas.
 - (b) Phone call log to DBE firms who express interest via written response or call.
 - (c) Fax/letter confirmation
 - (d) Signed copy of Bid Express SBN Record of Subcontractor Outreach Effort.

c. Evaluate DBE quotes Documentation is critical if a prime does not utilize the DBE firm's quote for any reason.

- (1) Evaluate DBE firm's capability to perform 'possible items to subcontract' using legitimate reasons, including but not limited to, **a discussion with the DBE firm** regarding its capabilities prior to the bid letting. If lack of capacity is your reason for not utilizing the DBE quote, you are required to contact the DBE by phone and email regarding their ability to perform the work indicated in the UCP directory listed as their work area by NAICS code. Only the work area and/or NAICS code listed in the UCP directory can be counted toward DBE credit. Documentation of the conversation is required.
- (2) In striving to meet an assigned DBE contract goal, prime contractors are expected to use DBE quotes that are responsive and reasonable. This includes DBE quotes that are not the low quote.

- (3) **Special Circumstance** - Evaluation of DBE quotes with tied bid items. "Tied quotes are the condition in which a subcontractor submits quotes including multiple areas of expertise across multiple work areas noting that the items and price are tied. Typically this type of quoting represents a cost saving to the prime but is not clearly stated as a discount; tied quotes are usually presented as 'all or none' quote to the prime." When non-DBE subcontractors submit tied bid items in their quotes to the prime, the DBE firms' quote may seem not competitive. In such a case, the following steps are taken in comparing the relevant quotes. These are qualitative examples.
- i. Compare bid items common to both quotes, noting the reasonableness in the price comparison.
 - ii. Review quotes from other firms for the bid items not quoted by the DBE firm to see if combining both can provide the same competitive advantage that the tied bid items offered.
- d. Immediately after notification of contract award, the prime submits all '**Commitment to Subcontract**' forms to the DBE Office. Prime contractor has 5 days to submit the completed form for the DBE firms it intends to use on the contract for DBE credit. If the goal is not met in full, the prime contractor must provide the following information along with WisDOT form DT1202: Certificate of Good Faith Efforts.
- (1) The names, addresses, e-mail addresses, telephone numbers of DBE's contacted. The dates of both initial and follow-up contact.
 - (2) A description of information provided to the DBE's regarding the plans, specifications, and estimated quantities for portions of the work to be performed by that DBE.
 - (3) Photocopies or electronic copies of all written solicitations to DBE's. A printed copy of SBN solicitation is acceptable.
 - (4) Documentation of each quote received from a DBE and, if rejected, the reason for that rejection.
 - (5) Bidder attendance at any pre-solicitation or pre-bid meetings the department held to inform DBE's of participation opportunities available on the project.

The prime contractor must obtain written consent from the DBE Office to change or replace any DBE firm listed on the approved Commitment to Subcontract to DBE Form [DT1506]. If the prime contractor utilizes another contractor, including the use of its own workforce, to perform the work assigned to a DBE on the approved DT1506, the prime contractor will not be entitled to payment for that work. Any changes to DBE after the approval of the DT1506 must be reviewed and approved by the DBE office prior to the change.

6. Use of Joint Checks

The use of joint checks is allowable if it is a commonly recognized business practice in the material industry. A joint check is defined as a two-party check between a DBE, a prime contractor and the regular dealer of materials supplier who is neither the prime nor an affiliate of the prime. Typically, the prime contractor issues one check as payor to the DBE subcontractor and to the supplier jointly (to guarantee payment to the supplier) as payment for the material/supplies used by the DBE in cases where the prime has submitted the DBE and material for DBE credit. The DBE subcontractor gains the opportunity to establish a direct contracting relationship with the supplier to potentially facilitate a business rapport that results in a line of credit or increased partnering opportunities.

The cost of material and supplies purchased by the DBE is part of the value of work performed by the DBE to be counted toward the goal. To receive credit, the DBE must be responsible for negotiating price, determining quality and quantity, ordering the materials, and installing (where applicable) and "paying for the material itself." See 49 CFR 26.55(c)(1).

The approval to use joint checks constitutes a commitment to provide further information to WisDOT, upon request by staff. WisDOT will allow the use of joint checks when the following conditions are met:

- a. The Prime must request permission to use joint checks from the DBE Office by submitting the Application to Use Joint Checks.
 - (1) Request should be made when the DBE Commitment form or Request to Sublet is submitted; the request will not be considered if submitted after the DBE Subcontractor starts its work.
 - (2) Approval/Permission must be granted prior to the issuance of any joint checks.
 - (3) The payment schedule for the supplier must be presented to the DBE office before the first check is issued.
 - (4) The joint check for supplies must be strictly for the cost of supplies.
- b. DBE subcontractor is responsible to furnish and/or install the material/work item. The DBE subcontractor shall not be an 'extra participant' in the transaction; the DBE's role in the transaction cannot be limited solely to signing the check(s) to release payment to the material supplier. At a minimum, the DBE subcontractor's tasks should include the following.
 - (1) The DBE subcontractor (not the prime/payor) negotiates the quantities, price and delivery of materials;
 - (2) The DBE subcontractor consents to sign/release the check to the supplier by signing the Application to Use Joint Checks after establishing the conditions and documentation of payment within the subcontract terms or in a separate written document.
- c. The Prime contractor/payor acts solely as a guarantor,
 - (1) The prime agrees to furnish the check used for the payment of materials/supplies under the contract.
 - (2) The prime contractor/payor cannot require the subcontractor to use a specific supplier or the prime contractors negotiated unit price.

7. Bidder's Appeal Process

- a. A bidder can appeal the department's decision to deny the bidder's good faith effort submission. The bidder must provide written documentation refuting the specific reasons for rejection as stated in the department's rejection notice. The bidder may meet in person with the department if so requested. Failure to appeal within 7 calendar days after receiving the department's written denial notice of a good faith effort evaluation constitutes a forfeiture of the bidder's right of appeal. A contract cannot be executed without documentation that the DBE provisions have been fulfilled.
- b. The department will appoint a representative, who did not participate in the original determination, to assess the bidder's appeal. The department will issue a written decision within 5 calendar days after the bidder presents all written and oral testimony. In that written decision, the department will explain the basis for finding that the bidder did or did not meet the contract DBE goal or make an adequate good faith effort to meet the contract DBE goal. The department's decision is final. If the department finds that the bidder did not meet the contract DBE goal or did not make adequate efforts to meet the DBE goal, the department may declare the bid ineligible for execution.

8. Department's Criteria for DBE Participation

Directory of DBE firms

- a. The only resource for DBE certified firms certified in the state of Wisconsin is the Wisconsin Unified Certification Program [UCP] DBE List. Wisconsin Department of Transportation maintains a current list of certified DBE firms titled Wisconsin UCP DBE Directory on the website at:
<http://wisconsin.gov/Documents/doing-bus/civil-rights/dbe/dbe-ucp-directory.xlsx>
- b. The DBE office is also available to assist at 414-438-4583 or 608-267-3849.

9. Counting DBE Participation

Assessing DBE Work

- a. The department will only count the DBE usage towards the contract DBE goal if the DBE firm is certified as a DBE by one of the unified certification program agencies. If a firm becomes DBE certified before entering into a subcontract, the department may consider that DBE usage towards the contract goal. The department only counts the value of the work a DBE actually performs towards the DBE goal. The department assesses the DBE work as follows:
- b. The department counts work performed by the DBE's own resources. The department includes the cost of materials and supplies the DBE obtains for the work. The department also includes the cost of equipment the DBE leases for the work. The department will not include the cost of materials, supplies, or equipment the DBE purchases or leases from the prime contractor or its affiliate, except the department will count non-project specific leases the DBE has in place before the work is advertised.
- c. The department counts fees and commissions the DBE charges for providing a bona fide professional, technical, consultant, or managerial services. The department also counts fees and commissions the DBE charges for providing bonds or insurance. The department will only count costs the engineer deems reasonable based on experience or prevailing market rates.
- d. If a DBE subcontracts work, the department counts the value of the subcontracted work only if the DBE's subcontractor is also a DBE.
- e. The contractor shall maintain records and may be required to furnish periodic reports documenting its performance under this item.
- f. It is the prime contractor's responsibility to determine whether the work that is committed and/or contracted to a DBE certified firm can be counted for DBE credit by referencing the work type and NAICS code listed for the DBE firm on the Wisconsin UCP DBE Directory.
- g. It is the prime contractor's responsibility to assess the DBE firm's ability to perform the work for which s/he is committing/contracting the DBE to do. Note that the department encourages the prime contractor to assist and develop DBE firms to become fully knowledgeable contractors to successfully perform on its contracts.

10. Commercially Useful Function

- a. Commercially useful function is evaluated after the contract has been executed, while the DBE certified firm is performing its work items. A DBE performs a commercially useful function when it is responsible for execution of the work of the contract and is carrying out its responsibilities by actually performing, managing, and supervising the work involved.
- b. The department uses Form DT1011: DBE Commercially Useful Function Review and Certification to evaluate whether the DBE is performing a commercially useful function. WisDOT counts expenditures of a DBE toward the DBE goal only if the DBE is performing a commercially useful function on that contract.
- c. A DBE is performing a commercially useful function if the following conditions are met:
 - (1) For contract work, the DBE is responsible for executing a distinct portion of the contract work and it is carrying out its responsibilities by actually performing, managing, and supervising that work.
 - (2) For materials and supplies, the DBE is responsible for negotiating price, determining quality and quantity, ordering, and paying for those materials and supplies.

11. Credit Evaluation for Trucking

All bidders are expected to adhere to the department's current trucking policy posted on the HCCI website at <http://wisconsindot.gov/Documents/doing-bus/civil-rights/dbe/trucking-utilization-policy.pdf>

12. Credit Evaluation for Manufacturers, Suppliers, Brokers

The department will calculate the amount of DBE credit awarded to a prime using a DBE firm for the provisions of materials and supplies on a contract-by-contract basis. The department will count the material and supplies that a DBE provides under the contract for DBE credit based on whether the DBE is a manufacturer, supplier or broker. Generally, DBE crediting measures and evaluates the DBE owner's role, responsibility and contribution to the transaction: maximum DBE credit when the DBE manufactures materials or supplies; DBE credit decreases when the DBE solely supplies material and minimal credit is allotted when the DBE's role is administrative or transactional.

It is the bidder's responsibility to find out if the DBE is considered a supplier or a manufacturer before listing them on Commitment to Subcontract to DBE form DT1506.

a. Manufacturers

- (1) A manufacturer is a firm that operates or maintains a factory or establishment that produces, on the premises, the materials, supplies, articles, or equipment required under the contract and of the general character described by the specifications.
- (2) If the materials or supplies are obtained from a DBE manufacturer, count **100%** percent of the cost of the materials or supplies toward DBE goals.

b. Regular Dealers of Material and/or Supplies

- (1) A regular dealer is a firm that owns, operates, or maintains a store, warehouse, or other establishment in which the materials, supplies, articles or equipment of the general character described by the specifications and required under the contract are bought, kept in stock, and regularly sold or leased to the public in the usual course of business.
- (2) If the materials or supplies are purchased from a DBE regular dealer, count **60%** percent of the cost of the materials or supplies toward DBE goals.
- (3) At a minimum, a regular dealer must meet the following criteria to be counted for DBE credit:
 - i. The DBE firm must be an established, regular business that engages, as its principal business and under its own name, in the purchase and sale or lease of the products in question.
 - ii. The DBE firm must both own and operate distribution equipment for the product--bulk items such as petroleum products, steel, cement, gravel, stone, or asphalt. If some of the distribution equipment is leased, the lease agreement must accompany the DBE Commitment form for evaluation of the dealer's control before the DBE office approves the DBE credit.

c. Brokers, Transaction Expeditors, Packagers, Manufacturers Representatives

- (1) No portion of the cost of the materials, supplies, services themselves will count for DBE credit; however, WisDOT will evaluate the fees or commissions charged when a prime purchases materials, supplies or services from a DBE certified firm which is neither a manufacturer nor a regular dealer, namely: brokers, packagers, manufacturers' representatives or other persons who arrange or expedite transactions.
- (2) Brokerage fees have historically been calculated as **10%** of the purchase amount.
- (3) WisDOT may count the amount of fees or commissions charged for assistance in the procurement of the materials and supplies, or fees or transportation charges for the delivery of materials or supplies required on a job site.
- (4) The evaluation will review the contract need for the item/service, review the sub-contract or invoice for the item/service, compare the fees customarily allowed for similar services to determine whether they are reasonable.

When DBE suppliers are contracted, additional documentation must accompany the DT1506 and Attachment 'A' forms. An invoice or bill-of-sale that includes the company names of the bidder and the DBE supplier and documentation of the calculations used as the basis for the purchase agreement, subcontract or invoice. *WisDOT recognizes that the amount on the Attachment 'A' form may be more or less than the amount on the invoice.* Please respond to the following questions and submit with your DBE Commitment Form.

1. What is the product or material?
2. Is this item in the prime's inventory or was the item purchased when contract was awarded?
3. Which contract line items were referenced to develop this quote?
4. What is the amount of material or product used on the project?

13. Credit Evaluation for DBE Primes

Wisconsin DOT calculates DBE credit based on the amount and type of work performed by DBE certified firms. If the prime contractor is a DBE certified firm, the department will only count the work that DBE prime contractor performs with its own forces for DBE credit. We will also calculate DBE credit for the work performed by any other DBE certified subcontractor, DBE certified supplier, DBE certified manufacturer on that contract in that DBE's approved work areas/NAICS code. Crediting for manufacturers and suppliers is calculated consistent with paragraph 12 of this document and 49 CFR Part 26.

14. Joint Venture

If a DBE performs as a participant in a joint venture, the department will only count that portion of the total dollar value of the contract equal to that portion of the work that the DBE performs with its own forces for DBE credit.

15. Mentor Protégé

- a. If a DBE performs as a participant in a mentor protégé agreement, the department will count for credit the portion of the work performed by the DBE protégé firm.
- b. DBE credit will be evaluated and confirmed by the DBE Office for any contracts on which the mentor protégé team identifies itself to the DBE Office as a current participant of the Mentor Protégé Program.
- c. Refer to WisDOT's Mentor Protégé guidelines for guidance on the number of contracts and amount of DBE credit that can be counted on any WisDOT project.

16. DBE Replacement or Termination

Contractual Requirement

The contractor shall utilize the specific DBEs listed to perform the work and supply the materials for which each is listed unless the contractor obtains written consent from the Department's DBE Office. If the Department does not provide consent to replace or terminate a DBE firm, the prime contractor shall not be entitled to any payment for work or material unless it is performed or supplied by the listed DBE.

Contractor Considerations

- a. A prime contractor cannot terminate and/or replace a DBE subcontractor listed on the approved Commitment to Subcontract to DBE Form [DT1506] without prior written consent from the DBE Office. This includes, but is not limited to, instances in which a prime contractor seeks to perform work originally designated for a DBE subcontractor with its own forces or those of an affiliate, a non-DBE firm, or with another DBE firm.

- b. If a prime contractor feels it is necessary to replace or terminate a DBE firm that has been approved for DBE credit toward its contract, s/he will be required to provide reasons and documentation to support why the prime cannot fulfill the contractual commitment that it made to the Department regarding the DBE utilization.
- c. Prime contractor is required to make affirmative efforts to find another DBE subcontractor to perform at least the same amount of work under the contract as the DBE that was terminated, to the extent needed to meet the assigned DBE contract goal.
- d. In circumstances when a DBE subcontractor fails to complete its work on the contract for any reason or is terminated from a contract, the prime contractor is expected to make affirmative efforts to maintain its commitment to the assigned DBE goal.
- e. The DBE firm should communicate with the prime contractor regarding its schedule and capacity in the context of the contract. If the DBE anticipates that it cannot fulfill its subcontract, s/he shall advise the prime contractor and suggest a DBE that may replace their services or provide written consent to be released from its subcontract.
 - (1) Before the prime contractor can request to terminate or substitute a DBE firm; s/he must:
 - i. Make every effort to fulfill the DBE commitment by working with the listed DBE to ensure that they are fully knowledgeable of your expectations for successful performance on the contract. Document these efforts in writing.
 - ii. If those efforts fail, provide written notice to the DBE subcontractor of your *intent* to request to terminate and/or replace the firm including the reason(s) you want to pursue this action.
 - iii. Copy the DBE Office on all correspondence related to changing a DBE firm who has been approved for DBE credit on a contract including the preparation and coordination efforts with the DBE on the contract.
 - iv. Clearly state the amount of time the DBE firm has to remedy and/or respond to your notice of intent to replace/terminate their firm from the contract. The DBE shall be allowed five days to respond, in writing. **EXCEPTION:** The prime contractor must provide a verifiable reason for a response period shorter than five days. For example a WisDOT project manager must verify that waiting 5 days for a DBE performing traffic control work to respond would affect the public safety.
 - v. The DBE subcontractor must forward a written response to the prime contractor and copy the DBE Office. The written response must outline why it objects to the proposed termination of its subcontract and list the reasons that WisDOT should not approve the request for their firm to be replaced or removed from the contract.

The Request to Replace or Terminate a DBE

The prime contractor must provide a written request to replace or terminate a DBE firm that has been approved for DBE credit on a WisDOT contract. The written request can be an email or printed document delivered by email or fax; at minimum, the request must contain the following:

1. Contract ID number.
2. Wisconsin DOT Contract Project Manager name and contact information.
3. DBE name and work type and/or NAICS code.
4. Contract's progress schedule.
5. Reason(s) for requesting that the DBE be replaced or terminated.
6. Attach/include all communication with the DBE to deploy/address/resolve work completion,

WisDOT will review your request and any supporting documentation that you submit to evaluate whether the circumstance and the reasons constitute a good cause for replacing or terminating the DBE that was approved for DBE credit on that contract.

Examples of Good Causes to Replace a DBE according to the federal DBE program guidelines {49 CFR part 26.53}

- The listed DBE subcontractor fails or refuses to execute a written contract.
- The listed DBE subcontractor fails or refuses to perform the work of its subcontract in a way consistent with normal industry standards. Provided, however, that good cause does not exist if the failure or refusal of the DBE subcontractor to perform its work on the subcontract results from the bad faith or discriminatory action of the prime contractor.
- The listed DBE subcontractor fails or refuses to meet the prime contractor's reasonable, nondiscriminatory bond requirements.
- The listed DBE subcontractor becomes bankrupt, insolvent, or exhibits credit unworthiness.
- The listed DBE subcontractor is ineligible to work on public works projects because of suspension and debarment proceedings pursuant 2 CFR Parts 180, 215 and 1,200 or applicable state law.
- You have determined that the listed DBE subcontractor is not a responsible contractor.
- The listed DBE subcontractor voluntarily withdraws from the project and provides to you written notice of its withdrawal.
- The listed DBE is ineligible to receive DBE credit for the type of work required.
- A DBE owner dies or becomes disabled with the result that the listed DBE contractor is unable to complete its work on the contract.

Evaluation and Response to the Request

If WisDOT determines that your reasons comply with the good cause standards; the DBE office will send the prime contractor and the WisDOT project manager an email stating that we concur with the reasons and approve the replacement or termination.

If WisDOT determines that your reasons do not comply with the good cause standards of the federal DBE program, the DBE Office will send the prime contractor an email that includes *the requirement* to utilize the committed DBE, *remedial actions* to support the completion of the contractual commitment, a list of available WisDOT support services *and administrative remedies that may be invoked* for failure to comply with federal DBE guidelines for DBE replacement.

The Wisconsin Department of transportation contact for all actions related to replacing a DBE is the DBE Program Chief and/or the DBE Program Engineer which can be reached at DBE_Alert@dot.wi.gov or by calling 608-267-3849.

17. DBE Utilization beyond the approved DBE Commitment Form DT1506

If the Prime/subcontractor increases the scope of work for a participating DBE or adds a DBE subcontractor that was not on the approved Form DT1506 at any time after contract award, s/he should follow these steps so that the participation can be accurately credited toward the DBE goal.

- a. Send an email to the DBE Engineer at DBE_Alert@dot.wi.gov describing the work to be performed by the new DBE including the proposed schedule or duration, DBE name and contact information. You may also call the DBE Engineer at 414-659-0487 to notify him of the change verbally.
If the scope change added work for a participating DBE; list the date and reason for the scope change.
- b. Forward a complete, signed Attachment 'A' form to the DBE Office at DBE_Alert@dot.wi.gov. A complete Attachment A includes DBE contact information, signature, subcontract value and proper description of the work areas to be performed by the DBE.
The DBE office will confirm the DBE participation and revise the DT1506 based on the email/discussion and attach the new/revised Attachment A to the Contract record/documentation.

18. Contract Modifications

When additional opportunity is available by contract modifications, the Prime Contractor shall utilize DBE Subcontractors that were committed to equal work items, in the original contract.

19. Payment

Costs for conforming to this Additional Special Provision (ASP) and any associated DBE requirements are incidental to the contract.

APPENDIX A

Sample Contractor Solicitation Letter Page 1

This sample is provided as a guide not a requirement

GFW SAMPLE MEMORANDUM

TO: DBE FIRMS
FROM: POTENTIAL PRIME CONTRACTOR OR MAJOR SUBCONTRACTOR
SUBJECT: REQUEST FOR DBE QUOTES
LET DATE & TIME
DATE: MONTH DAY YEAR
CC: DBE OFFICE ENGINEER

Our company is considering bidding on the projects indicated on the next page, as a prime and/or a subcontractor for the Wisconsin Department of Transportation [Month- date -year] Letting. Page 2 lists the projects and work items that we may subcontract for this letting. We are interested in obtaining subcontractor quotes for these projects and work categories. Also note that we are willing to accept quotes in areas we may be planning to perform ourselves as required by federal rules.

Please review page 2, respond whether you plan to quote, highlight the projects and work items you are interested in performing and return it via fax or email within 3 days. Plans, specifications and addenda are available through WisDOT at the DBE Support Services office or at the Highway Construction Contract Information (HCCI) site at <http://roadwaystandards.dot.wi.gov/hcci/>

Your quote should include all of the costs required to complete the items you propose to perform including labor, equipment, material, and related bonding or insurance. The quote should note items that you are DBE certified to perform, tied items, and any special terms. Page 2, with the indicated projects and items you plan to quote, should be used as a cover sheet for your quote.

Please make every effort to have your quotes into our office by [time deadline] the prior to the letting date. **Make sure the correct letting date, project ID and proposal number, unit price and extension are included in your quote.** We prefer quotes be sent via SBN but [prime's alternatives] are acceptable. Our office hours are [include hours and days]. Please call our office as soon as possible prior to the letting if you need information/clarification to prepare your quote at [contact number].

If you wish to discuss or evaluate your quote in more detail, contact us after the contract is awarded. Status of the contract can be checked at WisDOT's HCCI site at <http://roadwaystandards.dot.wi.gov/hcci/>

All questions should be directed to:

Project Manager, John Doe,

Phone: (000) 123-4567

Email: Joe@joetheplumber.com

Fax: (000) 123- 4657

 Email: _____

Please circle the jobs and items you will be quoting below

Proposal No.	1	2	3	4	5	6	7
County							

WORK DESCRIPTION:

Clear and Grub	X		X	X		X	X
Dump Truck Hauling	X		X	X		X	X
Curb & Gutter/Sidewalk, Etc.	X		X	X		X	X
Erosion Control Items	X		X	X		X	X
Signs and Posts/Markers	X		X	X		X	X
Traffic Control		X	X	X		X	X
Electrical Work/Traffic Signals		X	X	X		X	
Pavement Marking		X	X	X	X	X	X
Sawing Pavement		X	X	X	X	X	X
QMP, Base	X	X		X	X	X	X
Pipe Underdrain	X			X			
Beam Guard				X	X	X	X
Concrete Staining							X
Trees/Shrubs	X						X

Again please make every effort to have your quotes into our office by time deadline prior to the letting date.

We prefer quotes be sent via SBN but prime's preferred alternatives are acceptable.

If there are further questions please direct them to the prime contractor's contact person at phone number.

APPENDIX B

BEST PRACTICES FOR PRIME CONTRACTOR & DBE SUBCONTRACTOR GOOD FAITH EFFORT

This list is not a set of requirements; it is a list of potential strategies

Primes

- Prime contractor open houses inviting DBE firms to see the bid “war room” or providing technical assistance.
- Participate in speed networking and mosaic exercises as arranged by DBE office.
- Host information sessions not directly associated with a bid letting.
- Participate in a formal mentor protégé or joint venture with a DBE firm.
- Participate in WisDOT advisory committees i.e. TRANSAC, or Mega Project committee meetings.
- Facilitate a small group DBE ‘training session’ Clarifying how your firm prepares for bid letting, evaluates subcontractors, preferred qualifications and communication methods.
- Encourage subcontractors to solicit and highlight DBE participation in their quotes to you.
- Quality of communication, not quantity creates the best results. Contractors should do as thorough a job as possible in communicating with DBE firms before the bid and provide any assistance requested to assure best possible bid.

DBE

- DBE firms should contact primes as soon as possible with questions regarding their quotes or bid; seven days prior is optimal.
- Continually check for contract addendums on the HCCI website through the Thursday prior to letting to stay abreast of changes.
- Review the status of contracts on the HCCI website reviewing the ‘apparent low bidder’ list, and bid tabs at a minimum.
- Prepare a portfolio or list of related projects and prime and supplier references; be sure to note transportation-related projects of similar size and scope, firm expertise and staffing.
- Participate in DBE office assessment programs.
- Participate on advisory and mega-project committees.
- Sign up to receive the DBE Contracting Update.
- Consider membership in relevant industry or contractor organizations.
- Active participation is a must. Quote as many projects as you can reasonably work on; quoting the primes and bidding as a prime with the department are the only ways to get work.

APPENDIX C

Types of Efforts considered in determining GFE

This list represents concepts being assessed; analysis requires additional steps

1. Whether the contractor attended any pre-solicitation or pre-bid meetings that were scheduled by WisDOT to inform DBEs of contracting and subcontracting opportunities.
2. Whether the contractor provided written notice to a reasonable number of specific DBEs that their interest in the contract was being solicited, in sufficient time to allow the DBEs to participate effectively.
3. Whether the contractor followed up initial solicitations of interest by contacting DBEs to determine if the DBEs were interested; returned the phone calls of interested DBE firms.
4. Whether the contractor selected portions of the work to be performed by DBEs in order to increase the likelihood of meeting the DBE goal.
5. Whether the contractor provided interested DBEs with adequate information about the plans, specifications and requirements of the contract.
6. Whether the contractor negotiated in good faith with interested DBEs, not rejected DBEs as unqualified without sound reasons based on a thorough investigation of their capabilities.
7. Whether the contractor made efforts to assist interested DBEs in being more competitive.
8. Whether the contractor effectively used the services of available minority community organizations: minority contractors groups, local, state, and Federal minority business assistance offices, and other organizations that provide assistance to small businesses and DBE firms.
9. Whether Prime used CRCS to identify DBE who specialize in relevant work areas.
10. Whether the contractor used available resources including contacting the DBE office, using WisDOT's website
11. Whether the contractor returned calls of firms expressing interest in a timely manner.

APPENDIX D

Good Faith Effort Evaluation Guidance

Excerpt from Appendix A of 49 CFR Part 26

APPENDIX A TO PART 26 -- GUIDANCE CONCERNING GOOD FAITH EFFORTS

- I. When, as a recipient, you establish a contract goal on a DOT assisted contract, a bidder must, in order to be responsible and/or responsive, make good faith efforts to meet the goal. The bidder can meet this requirement in either of two ways. First, the bidder can meet the goal, documenting commitments for participation by DBE firms sufficient for this purpose. Second, even if it doesn't meet the goal, the bidder can document adequate good faith efforts. This means that the bidder must show that it took all necessary and reasonable steps to achieve a DBE goal or other requirement of this part which, by their scope, intensity, and appropriateness to the objective, could reasonably be expected to obtain sufficient DBE participation, even if they were not fully successful.
- II. In any situation in which you have established a contract goal, part 26 requires you to use the good faith efforts mechanism of this part. As a recipient, it is up to you to make a fair and reasonable judgment whether a bidder that did not meet the goal made adequate good faith efforts. It is important for you to consider the quality, quantity, and intensity of the different kinds of efforts that the bidder has made. The efforts employed by the bidder should be those that one could reasonably expect a bidder to take if the bidder were actively and aggressively trying to obtain DBE participation sufficient to meet the DBE contract goal. Mere pro forma efforts are not good faith efforts to meet the DBE contract requirements. We emphasize, however, that your determination concerning the sufficiency of the firm's good faith efforts is a judgment call: meeting quantitative formulas is not required.
- III. The Department also strongly cautions you against requiring that a bidder meet a contract goal (i.e., obtain a specified amount of DBE participation) in order to be awarded a contract, even though the bidder makes an adequate good faith efforts showing. This rule specifically prohibits you from ignoring bona fide good faith efforts.
- IV. The following is a list of types of actions which you should consider as part of the bidder's good faith efforts to obtain DBE participation. It is not intended to be a mandatory checklist, nor is it intended to be exclusive or exhaustive. Other factors or types of efforts may be relevant in appropriate cases.
 - A. Soliciting through all reasonable and available means (e.g. attendance at pre-bid meetings, advertising and/or written notices) the interest of all certified DBEs who have the capability to perform the work of the contract. The bidder must solicit this interest within sufficient time to allow the DBEs to respond to the solicitation. The bidder must determine with certainty if the DBEs are interested by taking appropriate steps to follow up initial solicitations.
 - B. Selecting portions of the work to be performed by DBEs in order to increase the likelihood that the DBE goals will be achieved. This includes, where appropriate, breaking out contract work items into economically feasible units to facilitate DBE participation, even when the prime contractor might otherwise prefer to perform these work items with its own forces.
 - C. Providing interested DBEs with adequate information about the plans, specifications, and requirements of the contract in a timely manner to assist them in responding to a solicitation.
 - D.
 - (1) Negotiating in good faith with interested DBEs. It is the bidder's responsibility to make a portion of the work available to DBE subcontractors and suppliers and to select those portions of the work or material needs consistent with the available DBE subcontractors and suppliers, so as to facilitate DBE participation. Evidence of such negotiation includes the names, addresses, and telephone numbers of DBEs that were considered; a description of the information provided regarding the plans and specifications for the work selected for subcontracting; and evidence as to why additional agreements could not be reached for DBEs to perform the work.
 - (2) A bidder using good business judgment would consider a number of factors in negotiating with subcontractors, including DBE subcontractors, and would take a firm's price and capabilities as well as contract goals into consideration. However, the fact that there may be some additional costs involved in finding and using DBEs is not in itself sufficient reason for a bidder's failure to meet the contract DBE goal, as long as such costs are reasonable. Also, the ability or desire of a prime contractor to perform the work of a

contract with its own organization does not relieve the bidder of the responsibility to make good faith efforts. Prime contractors are not, however, required to accept higher quotes from DBEs if the price difference is excessive or unreasonable.

- E. Not rejecting DBEs as being unqualified without sound reasons based on a thorough investigation of their capabilities. The contractor's standing within its industry, membership in specific groups, organizations, or associations and political or social affiliations (for example union vs. non-union employee status) are not legitimate causes for the rejection or non solicitation of bids in the contractor's efforts to meet the project goal.
 - F. Making efforts to assist interested DBEs in obtaining bonding, lines of credit, or insurance as required by the recipient or contractor.
 - G. Making efforts to assist interested DBEs in obtaining necessary equipment, supplies, materials, or related assistance or services.
 - H. Effectively using the services of available minority/women community organizations; minority/women contractors' groups; local, state, and Federal minority/women business assistance offices; and other organizations as allowed on a case-by-case basis to provide assistance in the recruitment and placement of DBEs.
- V. In determining whether a bidder has made good faith efforts, you may take into account the performance of other bidders in meeting the contract. For example, when the apparent successful bidder fails to meet the contract goal, but others meet it, you may reasonably raise the question of whether, with additional reasonable efforts, the apparent successful bidder could have met the goal. If the apparent successful bidder fails to meet the goal, but meets or exceeds the average DBE participation obtained by other bidders, you may view this, in conjunction with other factors, as evidence of the apparent successful bidder having made good faith efforts.

Appendix E

Small Business Network [SBN] Overview

The Small Business Network is a part of the Bid Express® service that was created to ensure that prime bidders have a centralized online location to find subs - including small and disadvantaged business enterprises (DBEs). It is available for prime bidders to use as part of their Basic Service subscription.

Within the Small Business Network, **Prime Contractors** can:

1. Easily select proposals, work types and items:
 - a. After adding applicable work types, select items that you wish to quote. Enter the sub-quote quantities and add comments, if desired. Adding or removing items and work types can be done quickly. If needed, you can save the sub-quote for completion at a later time.
2. Create sub-quotes for the subcontracting community:
 - a. Create sub-quotes with ease using the intuitive sub-quote creator. In seven short steps, you can rapidly create a custom sub-quote directed to all subcontractors that bid on the applicable work types. Steps include: provide contact information and sub-quote expiration date, select letting and proposal, add work types and items, specify terms and conditions, upload attachments, and select vendors.
 - b. Create a sub-quote to send to subcontractors or suppliers that lists the items in a proposal that you want quoted
 - c. Create an unlimited number of sub-quotes for items you want quoted, and optionally mark them as a DBE-preferred request.
 - d. Add attachments to sub-quotes.
3. View sub-quote requests & responses:
 - a. After logging into the Bid Express service, you can quickly review all of your sub-quote requests and all unsolicited sub-quote requests from subcontractors. To simplify the Small Business Network home screen, sub-quote requests can be hidden with one click if they are not applicable.
 - b. View or receive unsolicited sub-quotes that subcontractors have posted, complete with terms, conditions and pricing.
4. View Record of Subcontractor Outreach Effort:
 - a. For each sub-quote produced, a *Record of Subcontractor Outreach Effort* is generated that shows the response statistics for a particular sub-quote. If accepted by the letting agency, this report may serve as proof of a “Good Faith” effort in reaching out to the DBE community.
 - b. Easily locate pre-qualified and certified small and disadvantaged businesses.
 - c. Advertise to small and disadvantaged businesses more efficiently and cost effectively.
 - d. Document your interactions with subs/DBEs by producing an Outreach Report (may be accepted as proof of DBE outreach at the discretion of each agency).

The Small Business Network is a part of the Bid Express® service that was created to ensure that small businesses have a centralized area to access information about upcoming projects. It can help small businesses learn more about opportunities, compete more effectively, network with other contractors and subcontractors, and win more jobs.

1. View and reply to sub-quote requests from primes:
 - a. After logging into the Bid Express service, you can quickly review all incoming sub-quote requests and all unsolicited sub-quotes created by your company. Receive notifications by selected work type. To simplify on the Small Business Network home screen, sub-quote requests can be filtered by work types relevant to your interests, or hidden with one click if they are not applicable.
2. Select items when responding to sub-quote requests from primes:
 - a. You have the freedom to choose and price any number of items when responding to a sub-quote request. Quantities can be modified, and per-item comments are also available.
 - b. View requests for sub-quotes for work that primes have posted for projects they are bidding, add your pricing, terms, and conditions, and submit completed sub-quotes to the requesting primes.
 - c. Add attachments to a sub-quote.
3. Create and send unsolicited sub-quotes to specific contractors:
 - a. Create unsolicited sub-quotes with ease using the intuitive sub-quote creator. In eight short steps, you can rapidly create a custom sub-quote directed at any number of specific vendors of your choosing. Steps include: provide contact information and sub-quote expiration date, select letting and proposal, add work types and items, specify terms and conditions, upload attachments, and select vendors.
4. Easily select and price items for unsolicited sub-quotes:
 - a. After adding applicable work types, select items that you wish to quote. The extended price calculates automatically, cutting out costly calculation errors. Comments can be provided on a per-item basis as well.
 - b. Create an unsolicited sub-quote that lists the items from a proposal that you want to quote, include pricing, terms and conditions, and send it to selected prime/plan holder.
 - c. Add attachments to a sub-quote.
 - d. Add unsolicited work items to sub-quotes that you are responding to.
5. Easy Access to Valuable Information
 - a. Receive a confirmation that your sub-quote was opened by a prime.
 - b. View Bid Tab Analysis data from past bids, including the high, average and low prices of items.
 - c. View important notices and publications from DOT targeted to small and disadvantaged businesses.
6. Accessing Small Business Network for WisDOT contracting opportunities
 - a. If you are a contractor not yet subscribing to the Bid Express service, go to www.bidx.com and select “Order Bid Express.” The Small Business Network is a part of the Bid Express Basic Service.
 - b. DBE firms can request a Bid Express Small Business Network Account at no cost by calling 414-438-4588.

ADDITIONAL SPECIAL PROVISION 4

Payment to First-Tier Subcontractors

Within 10 calendar days of receiving a progress payment for work completed by a subcontractor, pay the subcontractor for that work. The prime contractor may withhold payment to a subcontractor if, within 10 calendar days of receipt of that progress payment, the prime contractor provides written notification to the subcontractor and the department documenting "just cause" for withholding payment.

The prime contractor may also withhold routine retainage from payments due subcontractors.

Payment to Lower-Tier Subcontractors

Ensure that subcontracting agreements at all tiers provide prompt payment rights to lower-tier subcontractors that parallel those granted first-tier subcontractors in this provision.

Release of Routine Retainage

After granting substantial completion the department may reduce the routine retainage withheld from the prime contractor to 75 percent of the original total amount retained.

When the Department sends the semi-final estimate the department may reduce the routine retainage withheld from the prime contractor to 10 percent of the original total amount retained.

Within 30 calendar days of receiving the semi-final estimate from the department, submit written certification that subcontractors at all tiers are paid in full for acceptably completed work and that no routine retainage is being withheld. The department will pay the prime contractor in full and reduce the routine retainage withheld from the prime contractor to zero when the department approves the final estimate.

This special provision does not limit the right of the department, prime contractor, or subcontractors at any tier to withhold payment for work not acceptably completed or work subject to an unresolved contract dispute.

ADDITIONAL SPECIAL PROVISION 6

ASP 6 - Modifications to the standard specifications

Make the following revisions to the standard specifications:

104.10.1 General

Replace paragraph one with the following effective with the December 2017 letting:

- (1) Subsection 104.10 specifies a 2-step process for contractors to follow in submitting a cost reduction incentive (CRI) for modifying the contract in order to reduce direct construction costs computed at contract bid prices. The initial submittal is referred to as a CRI concept and the second submittal is a CRI proposal. The contractor and the department will equally share all savings generated to the contract due to a CRI as specified in 104.10.4.2(1). The department encourages the contractor to submit CRI concepts.

104.10.4.2 Payment for the CRI Work

Replace paragraph one with the following effective with the December 2017 letting:

- (1) The department will pay for completed CRI work as specified for progress payments under 109.6. The department will pay for CRI's under the Cost Reduction Incentive administrative item. When all CRI costs are determined, the department will execute a contract change order that does the following:
1. Adjusts the contract time, interim completion dates, or both.
 2. Pays the contractor for the unpaid balance of the CRI work.
 3. Pays the contractor 50 percent of the net savings resulting from the CRI, calculated as follows:

$$NS = CW - CRW - CC - DC$$

Where:

NS = Net Savings

CW = The cost of the work required by the original contract that is revised by the CRI. CW is computed at contract bid prices if applicable.^[1]

CRW = The cost of the revised work, computed at contract bid prices if applicable.^[1]

CC = The contractor's cost of developing the CRI proposal.

DC = The department's cost for investigating, evaluating, and implementing the CRI proposal.

^[1] The department may adjust contract bid prices that, in the engineer's judgement, do not represent the fair value of the work deleted or proposed.

108.11 Liquidated Damages

Replace paragraphs two and three with the following effective with the December 2017 letting:

- (2) This deducted sum is not a penalty but is a fixed, agreed, liquidated damage due the department from the contractor for the added cost of engineering and supervision resulting from the contractor's failure to complete the work within the contract time.
- (3) Unless enhanced in the special provisions, the department will assess the following daily liquidated damages

LIQUIDATED DAMAGES			
ORIGINAL CONTRACT AMOUNT		DAILY CHARGE	
FROM MORE THAN	TO AND INCLUDING	CALENDAR DAY	WORKING DAY
\$0	\$250,000	\$850	\$1700
\$250,000	\$500,000	\$815	\$1630
\$500,000	\$1,000,000	\$1250	\$2500
\$1,000,000	\$2,000,000	\$1540	\$3080
\$2,000,000	—	\$2070	\$4140

203.3.2.2 Removal Operations

Replace the entire text with the following effective with the December 2017 letting:

203.3.2.2.1 General

- (1) Except as specified below for closing culverts, remove the entire top slab of box culverts and the entire superstructure of other culverts and bridges designated for removal. Completely remove existing piles, cribs, or other timber construction within the limits of new embankments, or remove these structures to an elevation at least 2 feet below finished ground line. Remove sidewalls or substructure units in water to an elevation no higher than the elevation of the natural stream or lake bed, or, if grading the channel is required under the contract or the plans, to the proposed finished grade of the stream or lake bed. Remove sidewalls or substructure units not in water down to at least 2 feet below natural or finished ground line.
- (2) If extending or incorporating existing culverts and bridges in the new work, remove only those parts of the existing structure as necessary to provide a proper connection to the new work. Saw, chip, or trim the connecting edges to the required lines and grades without weakening or damaging the remaining part of the structure. During concrete removal, do not damage reinforcing bars left in place as dowels or ties incorporated into the new work.
- (3) Remove pipe culverts designated for salvage in a way that prevents damage to the culverts.
- (4) Dismantle steel structures or parts of steel structures designated for salvage in a way that avoids damage to the members. If the contract specifies removing the structure in a way that leaves it in a condition suitable for re-erection, matchmark members with durable white paint before dismantling. Mark pins, bolts, nuts, loose plates, etc., similarly to indicate their proper location. Paint pins, bolts, pinholes, and machined surfaces with a department-approved rust preventative. Securely wire loose parts to adjacent members, or label and pack them in boxes.
- (5) Remove timber structures or parts of timber structures designated for salvage in a way that prevents damage to the members.
- (6) If the engineer approves, the contractor may temporarily use materials designated for salvage in falsework used to construct new work. Do not damage or reduce the value of those materials through temporary use.

203.3.2.2.2 Deck Removal

- (1) Protect the work as specified in 107.14 during deck removal. Minimize debris falling onto water surfaces and wetlands as the contract specifies in 107.18 or in the special provisions. Also, minimize debris falling on the ground and roadway.
- (2) Do not damage existing bar steel reinforcement, girders, or other components that will be incorporated in new work. Remove decks on prestressed concrete girders using a hydraulic shear or other engineer-approved equipment. Thoroughly clean, realign, and retie reinforcement as necessary.
- (3) After deck removal is complete, notify the engineer to request a damage survey. Point out damage to the engineer. Allow one business day for the engineer to complete the damage survey. If damage is identified, the department will determine if repairs or girder restoration will be allowed.
- (4) If the department allows girder restoration, have a professional engineer registered in the State of Wisconsin analyze the effect of the damage to the bridge, make recommendations, and prepare signed and sealed computations and structural details required to restore girders to their previous structural capacity. Submit the restoration proposal, including analysis and structural details, to the department and design engineer of record. The department will accept or reject the restoration proposal within 3 business days. Do not begin restoration work until the department allows in writing.
- (5) The engineer will not extend contract time to assess or remediate contractor caused damage.

203.5.1 General

Replace paragraph two with the following effective with the December 2017 letting:

- (2) Payment is full compensation for breaking down and removing; costs associated with contractor-caused damage; required salvaging, storing, and disposing of materials; and, unless the contract specifies granular backfill, for backfilling.

415.2.3 Expansion Joint Filler

Replace paragraph one with the following effective with the December 2017 letting:

- (1) Furnish expansion joint filler conforming to AASHTO M153, AASHTO M213, or ASTM D8139 in lengths equal to the pavement lane width and of the thickness and height the plans show. Where dowel bars are required, use filler with factory-punched holes at the dowel bar locations and with a diameter not greater than 1/8 inch larger than the nominal dowel bar diameter.
-

415.3.20 Filling Joints

Replace paragraph two with the following effective with the December 2017 letting:

- (2) Clean joints of laitance, curing compound, and other contaminants before filling. Saw construction joints at least 3/4 inches deep before filling. Sawing is not required for tooled joints in curb and gutter. Sandblast or waterblast exposed joint faces using multiple passes as required to clean joint surfaces of material that might prevent bonding. Blow clean and dry with oil-free compressed air immediately before filling.
-

415.5.1 General

Replace paragraph six with the following effective with the December 2017 letting:

- (6) Payment for Concrete Pavement Joint Filling is full compensation for filling concrete pavement joints; filling adjacent curb and gutter joints; and for sawing.
-

440.3.4.2 Contractor Testing

Replace paragraph two with the following effective with the December 2017 letting:

- (2) Coordinate with the engineer at least 24 hours before making profile runs for acceptance unless the engineer approves otherwise. The department may require testing to accommodate staged construction or if corrective action is required.
-

455.5.3 Tack Coat

Replace paragraph two with the following effective with the December 2017 letting:

- (2) The department will adjust pay for Tack Coat, under the Nonconforming Tack Coat administrative item, for nonconforming material the engineer allows to remain in place at a maximum of 75 percent of the contract unit price.
-

460.2.7 HMA Mixture Design

Replace paragraph one with the following effective with the December 2017 letting:

- (1) For each HMA mixture type used under the contract, develop and submit an asphaltic mixture design according to CMM 8-66 and conforming to the requirements of table 460-1 and table 460-2. The values listed are design limits; production values may exceed those limits. The department will review mixture designs and report the results of that review to the designer according to CMM 8-66.

TABLE 460-2 MIXTURE REQUIREMENTS

Mixture type	LT	MT	HT	SMA
ESALs x 10 ⁶ (20 yr design life)	<2.0	2 - <8	>8	—
LA Wear (AASHTO T96)				
100 revolutions(max % loss)	13	13	13	13
500 revolutions(max % loss)	50	45	45	40
Soundness (AASHTO T104) (sodium sulfate, max % loss)	12	12	12	12
Freeze/Thaw (AASHTO T103) (specified counties, max % loss)	18	18	18	18
Fractured Faces (ASTM D5821) (one face/2 face, % by count)	65/—	75 / 60	98 / 90	100/90
Flat & Elongated (ASTM D4791) (max %, by weight)	5 (5:1 ratio)	5 (5:1 ratio)	5 (5:1 ratio)	20 (3:1 ratio)
Fine Aggregate Angularity (AASHTO T304, method A, min)	40	43	45	45
Sand Equivalency (AASHTO T176, min)	40	40	45	50
Gyratory Compaction				
Gyrations for N _{ini}	6	7	8	8
Gyrations for N _{des}	40	75	100	65
Gyrations for N _{max}	60	115	160	160
Air Voids, %V _a (%G _{mm} N _{des})	4.0 (96.0)	4.0 (96.0)	4.0 (96.0)	4.0 (96.0)
% G _{mm} N _{ini}	<= 91.5 ^[1]	<= 89.0 ^[1]	<= 89.0	—
% G _{mm} N _{max}	<= 98.0	<= 98.0	<= 98.0	—
Dust to Binder Ratio ^[2] (% passing 0.075/P _{be})	0.6 - 1.2	0.6 - 1.2	0.6 - 1.2	1.2 - 2.0
Voids filled with Binder (VFB or VFA, %)	68 - 80 ^[4] [5]	65 - 75 ^[3] [5]	65 - 75 ^[3] [5]	70 - 80
Tensile Strength Ratio (TSR) (AASHTO T283) ^[6] [7]				
no antistripping additive	0.75 min	0.75 min	0.75 min	0.75 min
with antistripping additive	0.80 min	0.80 min	0.80 min	0.80 min
Draindown (AASHTO T305) (%)	—	—	—	0.30

^[1] The percent maximum density at initial compaction is only a guideline.

^[2] For a gradation that passes below the boundaries of the caution zone (ref. AASHTO M323), the dust to binder ratio limits are 0.6 - 1.6.

^[3] For No. 5 (9.5mm) and No. 4 (12.5 mm) nominal maximum size mixtures, the specified VFB range is 70 - 76 percent.

^[4] For No. 2 (25.0mm) nominal maximum size mixes, the specified VFB lower limit is 67 percent.

^[5] For No. 1 (37.5mm) nominal maximum size mixes, the specified VFB lower limit is 67 percent.

^[6] WisDOT eliminates freeze-thaw conditioning cycles from the TSR test procedure.

^[7] Run TSR at asphalt content corresponding to 3.0% air void regressed design using distilled water for testing.

460.2.8.2.1.3.1 Contracts with 5000 Tons of Mixture or Greater

Replace paragraph six with the following:

- (6) Conduct TSR tests during mixture production according to CMM 8-36.6.14. Test each full 50,000 ton production increment, or fraction of an increment, after the first 5000 tons of production. Perform required increment testing in the first week of production of that increment. If production TSR values are below the limit specified in CMM 8-36.6.14, notify the engineer. The engineer and contractor will jointly determine a corrective action.

502.2.7 Preformed Joint Filler

Replace paragraph one with the following effective with the December 2017 letting:

- (1) Use preformed joint filler conforming to AASHTO M153, AASHTO M213, or ASTM D8139.
-

502.3.7.8 Floors

Replace paragraph fourteen with the following effective with the December 2017 letting:

- (14) Unless specified otherwise, transversely tine finish the floors of structures with approach pavements designed for speeds of 40 mph or greater as specified in 415.3.8.3, except make the tining 1/8 inch in depth and do not perform tining within 12 inches of gutters. The contractor may apply a broom finish, described below, instead of the artificial turf drag finish required before tining. The contractor may perform tining manually, if it obtains a finish satisfactory to the engineer. Perform tining within 20 degrees of the centerline of bearing of the substructure units on bridge decks having skew angles of 20 degrees or greater.
-

614.2.1 General

Add the following as paragraph ten effective with the December 2017 letting:

- (10) Furnish guardrail reflectors from the department's APL.
-

614.3.2.1 Installing Posts

Add the following as paragraph five effective with the December 2017 letting:

- (5) Provide post-mounted reflectors every 100 feet with one at the beginning and end of each run and a minimum of three reflectors per run.
-

614.5 Payment

Replace paragraph four with the following effective with the December 2017 letting:

- (4) Payment for the Steel Thrie Beam, Steel Plate Beam Guard, Guardrail Stiffened, MGS Guardrail, Short Radius, and various transition bid items is full compensation for providing guardrail and transitions including post-mounted reflectors; for repairing damaged zinc coatings; and for excavating, backfilling, and disposing of surplus material.
-

641.2.9 Overhead Sign Supports

Replace paragraph three with the following effective with the December 2017 letting:

- (3) Provide steel pole shafts, mast arms or trusses, and luminaire arms zinc coated according to ASTM A123. The contractor may provide either straight or tapered pole and arm shafts unless the plans specify otherwise. Provide bolts and other hardware conforming to 641.2.2.
-

642.2.2.1 General

Replace the entire text with the following effective with the December 2017 letting:

- (1) Provide each field office with two rooms, separated by an interior door with a padlock. Ensure that each room has a separate exterior door and its own air conditioner. Locate the office where a quality internet connection can be achieved.
- (2) Provide long distance telephone service via a land line for exclusive department use that has the following:
 - Two programmable touch-tone phones, one of which is cordless. Ensure that phone operations will not interfere with other telecommunications equipment.
 - Voice mail service or an answering machine.
- (3) Provide high-speed internet service for exclusive department use via cable or DSL connection with a modem/router and capable of supporting cloud enabled file sharing, voice over internet protocol (VoIP), video conferencing, and web based applications. Ensure that system meets the following:
 - Includes a wireless network for the field office.

- Can accommodate IPsec based VPN products.
 - Has a bandwidth range as follows:
 - Field office with 1-5 staff: A minimum connection speed of 5 Mbps download and 1 Mbps upload. If a cable or DSL option is not available the contractor may provide a personal hotspot using cell phone tethering or other device able to achieve the specified minimum speeds inside the field office.
 - Field office with 6 or more staff: A minimum connection speed of 10 Mbps + 1/2 Mbps per user download and 5 Mbps upload.
 - Projects over 500 million dollars: A minimum connection speed of 20 Mbps + 1/2 Mbps per user download and 10 Mbps upload. Coordinate network setup at the leased office with the WisDOT network team.
- (4) Provide and maintain a Windows 7 and Windows 10 compliant multi-function device with copy, print, and scan capabilities that can accommodate both 8 1/2" x 11" and 11" x 17" paper. Replenish paper, toner cartridges, and other supplies before fully expended. Ensure that department staff can connect to the device either directly or through the field office wireless network.
- (5) Equip with a drafting table with a drafter's stool. Except as specified in 642.2.2.4, provide 2 ergonomically correct office chairs in working condition with, at a minimum, the following:
1. Five-legged base with casters.
 2. Seat adjustable from 15 to 22 inches from the floor with a seamless waterfall, rounded, front edge.
 3. High backrest with no arms or adjustable arms.

643.3.1 General

Replace paragraph one with the following effective with the December 2017 letting:

- (1) Provide and maintain traffic control devices located where the plans show or engineer directs to maintain a safe work zone throughout the contract duration. Relocate as required to accommodate changing work operations. When not in use, place devices away from traffic outside of paved and gravel shoulder surfaces. Where there is barrier on the shoulder, the contractor may place devices not in use on the shoulder as close as possible to the barrier and delineated with drums. Lay signs and supports flat on the grade with uprights oriented parallel to and downstream from traffic. Do not stack devices or equipment. Promptly remove temporary devices from within the project limits as follows:
- That will not be used within 14 consecutive calendar days.
 - Within 5 business days of substantial completion unless the engineer allows otherwise.

645.2.2.2 Geotextile, Type SAS (Subgrade Aggregate Separation)

Replace paragraph one with the following effective with the December 2017 letting:

- (1) Furnish fabric conforming to the following physical properties:

TEST	METHOD	VALUE ^[1]
Minimum grab tensile strength	ASTM D4632	170 lb
Minimum puncture strength	ASTM D6241	350 lb
Maximum apparent opening size	ASTM D4751	No. 70
Minimum permittivity	ASTM D4491	0.35 s ⁻¹

^[1] All numerical values represent minimum/maximum average roll values. Average test results from all rolls in a lot must conform to the tabulated values.

645.2.2.4 Geotextile, Type DF (Drainage Filtration)

Replace paragraph one with the following effective with the December 2017 letting:

- (1) Furnish fabric conforming with the physical requirements of either schedule A, schedule B, or schedule C as the contract specifies.

SCHEDULE A TEST	METHOD	VALUE ^[1]
Minimum grab tensile strength	ASTM D4632	110 lb
Minimum puncture strength	ASTM D6241	200 lb
Minimum apparent breaking elongation	ASTM D4632	30%

Maximum apparent opening size	ASTM D4751	300 μm
Minimum permittivity	ASTM D4491	0.70 s^{-1}
SCHEDULE B TEST	METHOD	VALUE ^[1]
Minimum grab tensile strength	ASTM D4632	180 lb
Minimum puncture strength	ASTM D6241	350 lb
Minimum apparent breaking elongation	ASTM D4632	30%
Maximum apparent opening size	ASTM D4751	300 μm
Minimum permittivity	ASTM D4491	1.35 s^{-1}
SCHEDULE C TEST	METHOD	VALUE ^[1]
Minimum grab tensile strength	ASTM D4632	180 lb
Minimum puncture strength	ASTM D6241	350 lb
Minimum apparent breaking elongation	ASTM D4632	15%
Maximum apparent opening size	ASTM D4751	600 μm
Minimum permittivity	ASTM D4491	1.00 s^{-1}

^[1] All numerical values represent minimum/maximum average roll values. Average test results from all rolls in a lot must conform to the tabulated values.

645.2.2.6 Geotextile, Type R (Riprap)

Replace paragraph one with the following effective with the December 2017 letting:

- (1) Use fabric conforming to the following physical properties:

TEST	METHOD	VALUE ^[1]
Minimum grab tensile strength	ASTM D4632	205 lb
Minimum puncture strength	ASTM D6241	400 lb
Minimum apparent breaking elongation	ASTM D4632	15%
Maximum apparent opening size	ASTM D4751	No. 30
Minimum permittivity	ASTM D4491	0.12 s^{-1}

^[1] All numerical values represent minimum/maximum average roll values. Average test results from all rolls in a lot must conform to the tabulated values.

645.2.2.7 Geotextile, Type HR (Heavy Riprap)

Replace paragraph one with the following effective with the December 2017 letting:

- (1) Use fabric conforming to the following physical properties:

TEST	METHOD	VALUE ^[1]
Minimum grab tensile strength, lb	ASTM D4632	305 lb
Minimum puncture strength, lb	ASTM D6241	500 lb
Minimum apparent breaking elongation, %	ASTM D4632	15%
Maximum apparent opening size	ASTM D4751	No. 30
Minimum permittivity	ASTM D4491	0.40, s^{-1}

^[1] All numerical values represent minimum/maximum average roll values. Average test results from all rolls in a lot must conform to the tabulated values.

645.2.2.8 Geotextile, Type C (Modified SAS)

Replace paragraph one with the following effective with the December 2017 letting:

- (1) Use fabric conforming to the following physical properties:

TEST	METHOD	VALUE ^[1]
Grab tensile strength, lb	ASTM D4632	205 lb
Puncture strength, lb	ASTM D6241	350 lb
Maximum apparent opening size	ASTM D4751	No. 50
Minimum permittivity	ASTM D4491	0.12 s^{-1}

^[1] All numerical values represent minimum/maximum average roll values. Average test results from all rolls in a lot must conform to the tabulated values.

646.3.1.1 General Marking

Replace paragraph one with the following effective with the December 2017 letting:

- (1) Prepare the surface and apply marking as the manufacturer specifies. Provide manufacturer specifications as the engineer requests. Do not mark over a marking product with less adherence or over chipped or peeled marking. Do not remove polymer overlay materials in areas receiving pavement marking. Use only epoxy pavement marking where the contract requires marking placed on polymer overlays.

Replace paragraph five with the following effective with the December 2017 letting:

- (5) After the marking can sustain exposure to traffic, re-apply clear protective surface treatment conforming to 502.2.11 where removed from structures during marking surface preparation. Seal exposed concrete including grooves for tape. Cover marking during resealing with a system that will not degrade the marking's retroreflectivity when removed. Uncover marking before opening to traffic.

701.3 Contractor Testing

Replace paragraph one with the following effective with the December 2017 letting:

- (1) Perform contract required QC tests for samples randomly located according to CMM 8-30. Also perform other tests as necessary to control production and construction processes, and additional testing enumerated in the contractor's quality control plan or that the engineer directs. Use test methods as follows:

TABLE 701-2 TESTING STANDARDS

TEST	TEST STANDARD
Washed P 200 analysis	AASHTO T11 ^[1]
Sieve analysis of fine and coarse aggregate	AASHTO T27 ^[1]
Aggregate moisture	AASHTO T255 ^[1]
Sampling freshly mixed concrete	AASHTO R60
Air content of fresh concrete	AASHTO T152 ^[2]
Air void system of fresh concrete	AASHTO Provisional Standard TP118
Concrete slump	AASHTO T119 ^[2]
Concrete temperature	ASTM C1064
Concrete compressive strength	AASHTO T22
Making and curing concrete cylinders	AASHTO T23
Standard moist curing for concrete cylinders	AASHTO M201

^[1] As modified in CMM 8-60.

^[2] As modified in CMM 8-70.

715.2.3.1 Pavements

Add the following as paragraph six effective with the December 2017 letting:

- (6) For new lab-qualified mixes, test the air void system of the proposed concrete mix conforming to AASHTO provisional standard TP 118. Include the SAM number as a part of the mix design submittal.

715.3.1.1 General

Replace paragraph one with the following effective with the December 2017 letting:

- (1) Provide slump, air content, concrete temperature and compressive strength test results as specified in 710.5. Provide a battery of QC tests, consisting of results for each specified property, using a single sample randomly located within each subplot. Cast three cylinders for strength evaluation. For pavement concrete, also test the air void system conforming to AASHTO provisional standard TP118 at least once per lot and enter the SAM number in the MRS for information only.

715.3.1.3 Department Verification Testing

Replace paragraph one with the following effective with the December 2017 letting:

- (1) The department will perform verification testing as specified in 701.4.2 with additional testing as required to obtain at least 1 verification test per lot for air content, slump, temperature, and compressive strength.

Errata

Make the following corrections to the standard specifications:

106.3.3.1 General

Correct errata by changing "acceptance" to "approval".

- (1) For manufactured products or assemblies, the department may base approval on a product certification or require both a product certification and production plant certification.

205.3.1 General

Correct errata by replacing paragraphs three and four with the following to reflect current practice to incorporate suitable materials.

- (3) Replace unsuitable material with satisfactory material. Trim and finish the roadway. Maintain the work done under 205 in a finished condition until acceptance.

521.2 Materials

Correct errata by deleting bullet three and including aluminum coated pipe in bullet one.

- (1) Furnish corrugated steel pipe and steel apron end walls as follows:
- Corrugated steel culvert pipe, steel apron endwalls, aluminum coated corrugated steel culvert pipe, and other components conforming to AASHTO M36.
 - Polymer coated corrugated steel culvert pipe and pipe arch fabricated from zinc coated sheet steel conforming to AASHTO M218. Before fabrication, coat the sheets on both sides with polymer protective coating grade 250/250 according to AASHTO M246. Fabricate the pipe according to AASHTO M245.

614.3.2.2 Installing Rail

Correct errata for splice location and allow punching or drilling holes and slots.

- (1) Install rail with lap splices in the direction of traffic. Ensure that the number and dimensions of holes and bolts conforms to the plan details for new splices. Place the round head of bolts on the traffic side.
- (2) Cut rails to length by shearing or sawing; do not use cutting torches. Drill or punch bolt holes and slots; ensure that they are burr free. After installation, cut anchor bolts that project more than one inch from the nut to 1/2 inch from the nut; deburr the threaded end of cut bolts.

618.1 Description

Correct errata by deleting designated detours from the scope of Maintenance and Repair of Haul Roads.

- (1) This section describes maintaining, repairing, and restoring all public roads, streets, drainage facilities, and other components used for hauling by contractor, subcontractor, or supplier to support work for a department contract to its pre-haul condition. Public roads and streets shall be limited to those not a part of the State Trunk Highway System and from now on called haul roads.

646.3.1.2 Liquid Marking

Correct errata by changing "epoxy overlays" to "polymer overlays".

- (5) Apply liquid marking and glass beads across the line at or exceeding the following:

LIQUID MARKING	PAVEMENT TYPE	THICKNESS (mils)	BEAD APPLICATION (pounds per gallon)
Paint	all	16	8-10
Epoxy	SMA, seal coats, and polymer overlays	25	25
Epoxy	all other	20	22.5

ADDITIONAL SPECIAL PROVISION 7

- A. Reporting 1st Tier and DBE Payments During Construction
1. Comply with reporting requirements specified in the department's Civil Rights Compliance, Contractor's User Manual, Sublets and Payments.
 2. Report payments to all DBE firms within 10 calendar days of receipt of a progress payment by the department or a contractor for work performed, materials furnished, or materials stockpiled by a DBE firm. Report the payment as specified in A(1) for all work satisfactorily performed and for all materials furnished or stockpiled.
 3. Report payments to all first tier subcontractor relationships within 10 calendar days of receipt of a progress payment by the department for work performed. Report the payment as specified in A(1) for all work satisfactorily performed.
 4. All tiers shall report payments as necessary to comply with the DBE payment requirement as specified in A(2).
 5. Require all first tier relationships, DBE firms and all other tier relationships necessary to comply with the DBE payment requirement in receipt of a progress payment by contractor to acknowledge receipt of payment as specified in A(1), (2), (3) and (4).
 6. All agreements made by a contractor shall include the provisions in A(1), (2), (3), (4) and (5), and shall be binding on all first tier subcontractor relationships and all contractors and subcontractors utilizing DBE firms on the project.
- B. Costs for conforming to this special provision are incidental to the contract.

NOTE: CRCS Prime Contractor payment is currently not automated and will need to be manually loaded into the Civil Rights Compliance System. Copies of prime contractor payments received (check or ACH) will have to be forwarded to paul.ndon@dot.wi.gov within 5 days of payment receipt to be logged manually.

***Additionally, for information on Subcontractor Sublet assignments, Subcontractor Payments and Payment Tracking, please refer to the CRCS Payment and Sublets manual at:

<http://wisconsindot.gov/Documents/doing-bus/civil-rights/labornwage/crcs-payments-sublets-manual.pdf>

ADDITIONAL SPECIAL PROVISION 9 Electronic Certified Payroll Submittal

(1) Use the department's Civil Rights Compliance System (CRCS) to submit certified payrolls electronically. Details are available online through the department's highway construction contractor information (HCCI) site on the Labor, Wages, and EEO Information page at:

<http://wisconsindot.gov/Pages/doing-bus/civil-rights/labornwage/default.aspx>

(2) Ensure that all tiers of subcontractors, including all trucking firms, submit their weekly certified payrolls electronically through CRCS. These payrolls are due within seven calendar days following the close of the payroll period. Every firm providing physical labor towards completing the project is a subcontractor under this special provision.

(3) Upon receipt of contract execution, promptly make all affected firms aware of the requirements under this special provision and arrange for them to receive CRCS training as they are about to begin payrolls. The department will provide training either in a classroom setting at one of our regional offices or by telephone. Contact Paul Ndon at (414) 438-4584 to schedule the training.

(4) The department will reject all paper submittals of forms DT-1816 and DT-1929 for information required under this special provision. All costs for conforming to this special provision are incidental to the contract.

(5) Firms wishing to export payroll data from their computer system into CRCS should have their payroll coordinator contact Paul Ndon at paul.ndon@dot.wi.gov. Not every contractor's payroll system is capable of producing export files. For details, see Section 4.8 CPR Auto Submit (Data Mapping) on pages 49-50; 66-71 of the CRCS Payroll Manual at:

<http://wisconsindot.gov/Documents/doing-bus/civil-rights/labornwage/crcs-payroll-manual.pdf>

REQUIRED CONTRACT PROVISIONS FEDERAL-AID CONSTRUCTION CONTRACTS

- I. General
- II. Nondiscrimination
- III. Nonsegregated Facilities
- IV. Davis-Bacon and Related Act Provisions
- V. Contract Work Hours and Safety Standards Act Provisions
- VI. Subletting or Assigning the Contract
- VII. Safety: Accident Prevention
- VIII. False Statements Concerning Highway Projects
- IX. Implementation of Clean Air Act and Federal Water Pollution Control Act
- X. Compliance with Governmentwide Suspension and Debarment Requirements
- XI. Certification Regarding Use of Contract Funds for Lobbying

ATTACHMENTS

A. Employment and Materials Preference for Appalachian Development Highway System or Appalachian Local Access Road Contracts (included in Appalachian contracts only)

I. GENERAL

1. Form FHWA-1273 must be physically incorporated in each construction contract funded under Title 23 (excluding emergency contracts solely intended for debris removal). The contractor (or subcontractor) must insert this form in each subcontract and further require its inclusion in all lower tier subcontracts (excluding purchase orders, rental agreements and other agreements for supplies or services).

The applicable requirements of Form FHWA-1273 are incorporated by reference for work done under any purchase order, rental agreement or agreement for other services. The prime contractor shall be responsible for compliance by any subcontractor, lower-tier subcontractor or service provider.

Form FHWA-1273 must be included in all Federal-aid design-build contracts, in all subcontracts and in lower tier subcontracts (excluding subcontracts for design services, purchase orders, rental agreements and other agreements for supplies or services). The design-builder shall be responsible for compliance by any subcontractor, lower-tier subcontractor or service provider.

Contracting agencies may reference Form FHWA-1273 in bid proposal or request for proposal documents, however, the Form FHWA-1273 must be physically incorporated (not referenced) in all contracts, subcontracts and lower-tier subcontracts (excluding purchase orders, rental agreements and other agreements for supplies or services related to a construction contract).

2. Subject to the applicability criteria noted in the following sections, these contract provisions shall apply to all work performed on the contract by the contractor's own organization and with the assistance of workers under the contractor's immediate superintendence and to all work performed on the contract by piecework, station work, or by subcontract.

3. A breach of any of the stipulations contained in these Required Contract Provisions may be sufficient grounds for withholding of progress payments, withholding of final payment, termination of the contract, suspension / debarment or any other action determined to be appropriate by the contracting agency and FHWA.

4. Selection of Labor: During the performance of this contract, the contractor shall not use convict labor for any purpose within the limits of a construction project on a Federal-aid highway unless it is labor performed by convicts who are on parole, supervised release, or probation. The term Federal-aid highway does not include roadways functionally classified as local roads or rural minor collectors.

II. NONDISCRIMINATION

The provisions of this section related to 23 CFR Part 230 are applicable to all Federal-aid construction contracts and to all related construction subcontracts of \$10,000 or more. The provisions of 23 CFR Part 230 are not applicable to material supply, engineering, or architectural service contracts.

In addition, the contractor and all subcontractors must comply with the following policies: Executive Order 11246, 41 CFR 60, 29 CFR 1625-1627, Title 23 USC Section 140, the Rehabilitation Act of 1973, as amended (29 USC 794), Title VI of the Civil Rights Act of 1964, as amended, and related regulations including 49 CFR Parts 21, 26 and 27; and 23 CFR Parts 200, 230, and 633.

The contractor and all subcontractors must comply with: the requirements of the Equal Opportunity Clause in 41 CFR 60-1.4(b) and, for all construction contracts exceeding \$10,000, the Standard Federal Equal Employment Opportunity Construction Contract Specifications in 41 CFR 60-4.3.

Note: The U.S. Department of Labor has exclusive authority to determine compliance with Executive Order 11246 and the policies of the Secretary of Labor including 41 CFR 60, and 29 CFR 1625-1627. The contracting agency and the FHWA have the authority and the responsibility to ensure compliance with Title 23 USC Section 140, the Rehabilitation Act of 1973, as amended (29 USC 794), and Title VI of the Civil Rights Act of 1964, as amended, and related regulations including 49 CFR Parts 21, 26 and 27; and 23 CFR Parts 200, 230, and 633.

The following provision is adopted from 23 CFR 230, Appendix A, with appropriate revisions to conform to the U.S. Department of Labor (US DOL) and FHWA requirements.

1. Equal Employment Opportunity: Equal employment opportunity (EEO) requirements not to discriminate and to take affirmative action to assure equal opportunity as set forth under laws, executive orders, rules, regulations (28 CFR 35, 29 CFR 1630, 29 CFR 1625-1627, 41 CFR 60 and 49 CFR 27) and orders of the Secretary of Labor as modified by the provisions prescribed herein, and imposed pursuant to 23 U.S.C. 140 shall constitute the EEO and specific affirmative action standards for the contractor's project activities under

this contract. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) set forth under 28 CFR 35 and 29 CFR 1630 are incorporated by reference in this contract. In the execution of this contract, the contractor agrees to comply with the following minimum specific requirement activities of EEO:

a. The contractor will work with the contracting agency and the Federal Government to ensure that it has made every good faith effort to provide equal opportunity with respect to all of its terms and conditions of employment and in their review of activities under the contract.

b. The contractor will accept as its operating policy the following statement:

"It is the policy of this Company to assure that applicants are employed, and that employees are treated during employment, without regard to their race, religion, sex, color, national origin, age or disability. Such action shall include: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship, pre-apprenticeship, and/or on-the-job training."

2. EEO Officer: The contractor will designate and make known to the contracting officers an EEO Officer who will have the responsibility for and must be capable of effectively administering and promoting an active EEO program and who must be assigned adequate authority and responsibility to do so.

3. Dissemination of Policy: All members of the contractor's staff who are authorized to hire, supervise, promote, and discharge employees, or who recommend such action, or who are substantially involved in such action, will be made fully cognizant of, and will implement, the contractor's EEO policy and contractual responsibilities to provide EEO in each grade and classification of employment. To ensure that the above agreement will be met, the following actions will be taken as a minimum:

a. Periodic meetings of supervisory and personnel office employees will be conducted before the start of work and then not less often than once every six months, at which time the contractor's EEO policy and its implementation will be reviewed and explained. The meetings will be conducted by the EEO Officer.

b. All new supervisory or personnel office employees will be given a thorough indoctrination by the EEO Officer, covering all major aspects of the contractor's EEO obligations within thirty days following their reporting for duty with the contractor.

c. All personnel who are engaged in direct recruitment for the project will be instructed by the EEO Officer in the contractor's procedures for locating and hiring minorities and women.

d. Notices and posters setting forth the contractor's EEO policy will be placed in areas readily accessible to employees, applicants for employment and potential employees.

e. The contractor's EEO policy and the procedures to implement such policy will be brought to the attention of employees by means of meetings, employee handbooks, or other appropriate means.

4. Recruitment: When advertising for employees, the contractor will include in all advertisements for employees the notation: "An Equal Opportunity Employer." All such advertisements will be placed in publications having a large circulation among minorities and women in the area from which the project work force would normally be derived.

a. The contractor will, unless precluded by a valid bargaining agreement, conduct systematic and direct recruitment through public and private employee referral sources likely to yield qualified minorities and women. To meet this requirement, the contractor will identify sources of potential minority group employees, and establish with such identified sources procedures whereby minority and women applicants may be referred to the contractor for employment consideration.

b. In the event the contractor has a valid bargaining agreement providing for exclusive hiring hall referrals, the contractor is expected to observe the provisions of that agreement to the extent that the system meets the contractor's compliance with EEO contract provisions. Where implementation of such an agreement has the effect of discriminating against minorities or women, or obligates the contractor to do the same, such implementation violates Federal nondiscrimination provisions.

c. The contractor will encourage its present employees to refer minorities and women as applicants for employment. Information and procedures with regard to referring such applicants will be discussed with employees.

5. Personnel Actions: Wages, working conditions, and employee benefits shall be established and administered, and personnel actions of every type, including hiring, upgrading, promotion, transfer, demotion, layoff, and termination, shall be taken without regard to race, color, religion, sex, national origin, age or disability. The following procedures shall be followed:

a. The contractor will conduct periodic inspections of project sites to insure that working conditions and employee facilities do not indicate discriminatory treatment of project site personnel.

b. The contractor will periodically evaluate the spread of wages paid within each classification to determine any evidence of discriminatory wage practices.

c. The contractor will periodically review selected personnel actions in depth to determine whether there is evidence of discrimination. Where evidence is found, the contractor will promptly take corrective action. If the review indicates that the discrimination may extend beyond the actions reviewed, such corrective action shall include all affected persons.

d. The contractor will promptly investigate all complaints of alleged discrimination made to the contractor in connection with its obligations under this contract, will attempt to resolve such complaints, and will take appropriate corrective action within a reasonable time. If the investigation indicates that the discrimination may affect persons other than the complainant, such corrective action shall include such other persons. Upon completion of each investigation, the contractor will inform every complainant of all of their avenues of appeal.

6. Training and Promotion:

a. The contractor will assist in locating, qualifying, and increasing the skills of minorities and women who are

applicants for employment or current employees. Such efforts should be aimed at developing full journey level status employees in the type of trade or job classification involved.

b. Consistent with the contractor's work force requirements and as permissible under Federal and State regulations, the contractor shall make full use of training programs, i.e., apprenticeship, and on-the-job training programs for the geographical area of contract performance. In the event a special provision for training is provided under this contract, this subparagraph will be superseded as indicated in the special provision. The contracting agency may reserve training positions for persons who receive welfare assistance in accordance with 23 U.S.C. 140(a).

c. The contractor will advise employees and applicants for employment of available training programs and entrance requirements for each.

d. The contractor will periodically review the training and promotion potential of employees who are minorities and women and will encourage eligible employees to apply for such training and promotion.

7. Unions: If the contractor relies in whole or in part upon unions as a source of employees, the contractor will use good faith efforts to obtain the cooperation of such unions to increase opportunities for minorities and women. Actions by the contractor, either directly or through a contractor's association acting as agent, will include the procedures set forth below:

a. The contractor will use good faith efforts to develop, in cooperation with the unions, joint training programs aimed toward qualifying more minorities and women for membership in the unions and increasing the skills of minorities and women so that they may qualify for higher paying employment.

b. The contractor will use good faith efforts to incorporate an EEO clause into each union agreement to the end that such union will be contractually bound to refer applicants without regard to their race, color, religion, sex, national origin, age or disability.

c. The contractor is to obtain information as to the referral practices and policies of the labor union except that to the extent such information is within the exclusive possession of the labor union and such labor union refuses to furnish such information to the contractor, the contractor shall so certify to the contracting agency and shall set forth what efforts have been made to obtain such information.

d. In the event the union is unable to provide the contractor with a reasonable flow of referrals within the time limit set forth in the collective bargaining agreement, the contractor will, through independent recruitment efforts, fill the employment vacancies without regard to race, color, religion, sex, national origin, age or disability; making full efforts to obtain qualified and/or qualifiable minorities and women. The failure of a union to provide sufficient referrals (even though it is obligated to provide exclusive referrals under the terms of a collective bargaining agreement) does not relieve the contractor from the requirements of this paragraph. In the event the union referral practice prevents the contractor from meeting the obligations pursuant to Executive Order 11246, as amended, and these special provisions, such contractor shall immediately notify the contracting agency.

8. Reasonable Accommodation for Applicants / Employees with Disabilities: The contractor must be familiar

with the requirements for and comply with the Americans with Disabilities Act and all rules and regulations established there under. Employers must provide reasonable accommodation in all employment activities unless to do so would cause an undue hardship.

9. Selection of Subcontractors, Procurement of Materials and Leasing of Equipment: The contractor shall not discriminate on the grounds of race, color, religion, sex, national origin, age or disability in the selection and retention of subcontractors, including procurement of materials and leases of equipment. The contractor shall take all necessary and reasonable steps to ensure nondiscrimination in the administration of this contract.

a. The contractor shall notify all potential subcontractors and suppliers and lessors of their EEO obligations under this contract.

b. The contractor will use good faith efforts to ensure subcontractor compliance with their EEO obligations.

10. Assurance Required by 49 CFR 26.13(b):

a. The requirements of 49 CFR Part 26 and the State DOT's U.S. DOT-approved DBE program are incorporated by reference.

b. The contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the contracting agency deems appropriate.

11. Records and Reports: The contractor shall keep such records as necessary to document compliance with the EEO requirements. Such records shall be retained for a period of three years following the date of the final payment to the contractor for all contract work and shall be available at reasonable times and places for inspection by authorized representatives of the contracting agency and the FHWA.

a. The records kept by the contractor shall document the following:

(1) The number and work hours of minority and non-minority group members and women employed in each work classification on the project;

(2) The progress and efforts being made in cooperation with unions, when applicable, to increase employment opportunities for minorities and women; and

(3) The progress and efforts being made in locating, hiring, training, qualifying, and upgrading minorities and women;

b. The contractors and subcontractors will submit an annual report to the contracting agency each July for the duration of the project, indicating the number of minority, women, and non-minority group employees currently engaged in each work classification required by the contract work. This information is to be reported on [Form FHWA-1391](#). The staffing data should represent the project work force on board in all or any part of the last payroll period preceding the end of July. If on-the-job training is being required by special provision, the contractor

will be required to collect and report training data. The employment data should reflect the work force on board during all or any part of the last payroll period preceding the end of July.

III. NONSEGREGATED FACILITIES

This provision is applicable to all Federal-aid construction contracts and to all related construction subcontracts of \$10,000 or more.

The contractor must ensure that facilities provided for employees are provided in such a manner that segregation on the basis of race, color, religion, sex, or national origin cannot result. The contractor may neither require such segregated use by written or oral policies nor tolerate such use by employee custom. The contractor's obligation extends further to ensure that its employees are not assigned to perform their services at any location, under the contractor's control, where the facilities are segregated. The term "facilities" includes waiting rooms, work areas, restaurants and other eating areas, time clocks, restrooms, washrooms, locker rooms, and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing provided for employees. The contractor shall provide separate or single-user restrooms and necessary dressing or sleeping areas to assure privacy between sexes.

IV. DAVIS-BACON AND RELATED ACT PROVISIONS

This section is applicable to all Federal-aid construction projects exceeding \$2,000 and to all related subcontracts and lower-tier subcontracts (regardless of subcontract size). The requirements apply to all projects located within the right-of-way of a roadway that is functionally classified as Federal-aid highway. This excludes roadways functionally classified as local roads or rural minor collectors, which are exempt. Contracting agencies may elect to apply these requirements to other projects.

The following provisions are from the U.S. Department of Labor regulations in 29 CFR 5.5 "Contract provisions and related matters" with minor revisions to conform to the FHWA-1273 format and FHWA program requirements.

1. Minimum wages

a. All laborers and mechanics employed or working upon the site of the work, will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3)), the full amount of wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics.

Contributions made or costs reasonably anticipated for bona fide fringe benefits under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions

of paragraph 1.d. of this section; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in 29 CFR 5.5(a)(4). Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: Provided, That the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classification and wage rates conformed under paragraph 1.b. of this section) and the Davis-Bacon poster (WH-1321) shall be posted at all times by the contractor and its subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

b.(1) The contracting officer shall require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage determination. The contracting officer shall approve an additional classification and wage rate and fringe benefits therefore only when the following criteria have been met:

(i) The work to be performed by the classification requested is not performed by a classification in the wage determination; and

(ii) The classification is utilized in the area by the construction industry; and

(iii) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

(2) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by the contracting officer to the Administrator of the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, DC 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(3) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer shall refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Wage and Hour Administrator for determination. The Wage and Hour Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting officer or

will notify the contracting officer within the 30-day period that additional time is necessary.

(4) The wage rate (including fringe benefits where appropriate) determined pursuant to paragraphs 1.b.(2) or 1.b.(3) of this section, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

c. Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.

d. If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program. Provided, That the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

2. Withholding

The contracting agency shall upon its own action or upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the contractor under this contract, or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees, and helpers, employed by the contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee, or helper, employed or working on the site of the work, all or part of the wages required by the contract, the contracting agency may, after written notice to the contractor, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

3. Payrolls and basic records

a. Payrolls and basic records relating thereto shall be maintained by the contractor during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work. Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in section 1(b)(2)(B) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-

Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs.

b. (1) The contractor shall submit weekly for each week in which any contract work is performed a copy of all payrolls to the contracting agency. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under 29 CFR 5.5(a)(3)(i), except that full social security numbers and home addresses shall not be included on weekly transmittals. Instead the payrolls shall only need to include an individually identifying number for each employee (e.g., the last four digits of the employee's social security number). The required weekly payroll information may be submitted in any form desired. Optional Form WH-347 is available for this purpose from the Wage and Hour Division Web site at <http://www.dol.gov/esa/whd/forms/wh347instr.htm> or its successor site. The prime contractor is responsible for the submission of copies of payrolls by all subcontractors. Contractors and subcontractors shall maintain the full social security number and current address of each covered worker, and shall provide them upon request to the contracting agency for transmission to the State DOT, the FHWA or the Wage and Hour Division of the Department of Labor for purposes of an investigation or audit of compliance with prevailing wage requirements. It is not a violation of this section for a prime contractor to require a subcontractor to provide addresses and social security numbers to the prime contractor for its own records, without weekly submission to the contracting agency..

(2) Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:

(i) That the payroll for the payroll period contains the information required to be provided under §5.5 (a)(3)(ii) of Regulations, 29 CFR part 5, the appropriate information is being maintained under §5.5 (a)(3)(i) of Regulations, 29 CFR part 5, and that such information is correct and complete;

(ii) That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in Regulations, 29 CFR part 3;

(iii) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.

(3) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH-347 shall satisfy the requirement for submission of the "Statement of Compliance" required by paragraph 3.b.(2) of this section.

(4) The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under section 1001 of title 18 and section 231 of title 31 of the United States Code.

c. The contractor or subcontractor shall make the records required under paragraph 3.a. of this section available for inspection, copying, or transcription by authorized representatives of the contracting agency, the State DOT, the FHWA, or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the contractor or subcontractor fails to submit the required records or to make them available, the FHWA may, after written notice to the contractor, the contracting agency or the State DOT, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR 5.12.

4. Apprentices and trainees

a. Apprentices (programs of the USDOL).

Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship Training, Employer and Labor Services, or with a State Apprenticeship Agency recognized by the Office, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Office of Apprenticeship Training, Employer and Labor Services or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice.

The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the contractor's or subcontractor's registered program shall be observed.

Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly

rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination.

In the event the Office of Apprenticeship Training, Employer and Labor Services, or a State Apprenticeship Agency recognized by the Office, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

b. Trainees (programs of the USDOL).

Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration.

The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration.

Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed.

In the event the Employment and Training Administration withdraws approval of a training program, the contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

c. Equal employment opportunity. The utilization of apprentices, trainees and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.

d. Apprentices and Trainees (programs of the U.S. DOT).

Apprentices and trainees working under apprenticeship and skill training programs which have been certified by the Secretary of Transportation as promoting EEO in connection with Federal-aid highway construction programs are not subject to the requirements of paragraph 4 of this Section IV. The straight time hourly wage rates for apprentices and trainees under such programs will be established by the particular programs. The ratio of apprentices and trainees to journeymen shall not be greater than permitted by the terms of the particular program.

5. Compliance with Copeland Act requirements. The contractor shall comply with the requirements of 29 CFR part 3, which are incorporated by reference in this contract.

6. Subcontracts. The contractor or subcontractor shall insert Form FHWA-1273 in any subcontracts and also require the subcontractors to include Form FHWA-1273 in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in 29 CFR 5.5.

7. Contract termination: debarment. A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided in 29 CFR 5.12.

8. Compliance with Davis-Bacon and Related Act requirements. All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3, and 5 are herein incorporated by reference in this contract.

9. Disputes concerning labor standards. Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.

10. Certification of eligibility.

a. By entering into this contract, the contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).

b. No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).

c. The penalty for making false statements is prescribed in the U.S. Criminal Code, 18 U.S.C. 1001.

V. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT

The following clauses apply to any Federal-aid construction contract in an amount in excess of \$100,000 and subject to the overtime provisions of the Contract Work Hours and Safety Standards Act. These clauses shall be inserted in addition to the clauses required by 29 CFR 5.5(a) or 29 CFR 4.6. As used in this paragraph, the terms laborers and mechanics include watchmen and guards.

1. Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

2. Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1.) of this section, the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1.) of this section, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1.) of this section.

3. Withholding for unpaid wages and liquidated damages. The FHWA or the contracting agency shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2.) of this section.

4. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1.) through (4.) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1.) through (4.) of this section.

VI. SUBLETTING OR ASSIGNING THE CONTRACT

This provision is applicable to all Federal-aid construction contracts on the National Highway System.

1. The contractor shall perform with its own organization contract work amounting to not less than 30 percent (or a greater percentage if specified elsewhere in the contract) of the total original contract price, excluding any specialty items designated by the contracting agency. Specialty items may be performed by subcontract and the amount of any such specialty items performed may be deducted from the total original contract price before computing the amount of work required to be performed by the contractor's own organization (23 CFR 635.116).

a. The term "perform work with its own organization" refers to workers employed or leased by the prime contractor, and equipment owned or rented by the prime contractor, with or without operators. Such term does not include employees or equipment of a subcontractor or lower tier subcontractor, agents of the prime contractor, or any other assignees. The term may include payments for the costs of hiring leased employees from an employee leasing firm meeting all relevant Federal and State regulatory requirements. Leased employees may only be included in this term if the prime contractor meets all of the following conditions:

(1) the prime contractor maintains control over the supervision of the day-to-day activities of the leased employees;

(2) the prime contractor remains responsible for the quality of the work of the leased employees;

(3) the prime contractor retains all power to accept or exclude individual employees from work on the project; and

(4) the prime contractor remains ultimately responsible for the payment of predetermined minimum wages, the submission of payrolls, statements of compliance and all other Federal regulatory requirements.

b. "Specialty Items" shall be construed to be limited to work that requires highly specialized knowledge, abilities, or equipment not ordinarily available in the type of contracting organizations qualified and expected to bid or propose on the contract as a whole and in general are to be limited to minor components of the overall contract.

2. The contract amount upon which the requirements set forth in paragraph (1) of Section VI is computed includes the cost of material and manufactured products which are to be purchased or produced by the contractor under the contract provisions.

3. The contractor shall furnish (a) a competent superintendent or supervisor who is employed by the firm, has full authority to direct performance of the work in accordance with the contract requirements, and is in charge of all construction operations (regardless of who performs the work) and (b) such other of its own organizational resources (supervision, management, and engineering services) as the contracting officer determines is necessary to assure the performance of the contract.

4. No portion of the contract shall be sublet, assigned or otherwise disposed of except with the written consent of the contracting officer, or authorized representative, and such consent when given shall not be construed to relieve the contractor of any responsibility for the fulfillment of the contract. Written consent will be given only after the contracting agency has assured that each subcontract is

evidenced in writing and that it contains all pertinent provisions and requirements of the prime contract.

5. The 30% self-performance requirement of paragraph (1) is not applicable to design-build contracts; however, contracting agencies may establish their own self-performance requirements.

VII. SAFETY: ACCIDENT PREVENTION

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

1. In the performance of this contract the contractor shall comply with all applicable Federal, State, and local laws governing safety, health, and sanitation (23 CFR 635). The contractor shall provide all safeguards, safety devices and protective equipment and take any other needed actions as it determines, or as the contracting officer may determine, to be reasonably necessary to protect the life and health of employees on the job and the safety of the public and to protect property in connection with the performance of the work covered by the contract.

2. It is a condition of this contract, and shall be made a condition of each subcontract, which the contractor enters into pursuant to this contract, that the contractor and any subcontractor shall not permit any employee, in performance of the contract, to work in surroundings or under conditions which are unsanitary, hazardous or dangerous to his/her health or safety, as determined under construction safety and health standards (29 CFR 1926) promulgated by the Secretary of Labor, in accordance with Section 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 3704).

3. Pursuant to 29 CFR 1926.3, it is a condition of this contract that the Secretary of Labor or authorized representative thereof, shall have right of entry to any site of contract performance to inspect or investigate the matter of compliance with the construction safety and health standards and to carry out the duties of the Secretary under Section 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C.3704).

VIII. FALSE STATEMENTS CONCERNING HIGHWAY PROJECTS

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

In order to assure high quality and durable construction in conformity with approved plans and specifications and a high degree of reliability on statements and representations made by engineers, contractors, suppliers, and workers on Federal-aid highway projects, it is essential that all persons concerned with the project perform their functions as carefully, thoroughly, and honestly as possible. Willful falsification, distortion, or misrepresentation with respect to any facts related to the project is a violation of Federal law. To prevent any misunderstanding regarding the seriousness of these and similar acts, Form FHWA-1022 shall be posted on each Federal-aid highway project (23 CFR 635) in one or more places where it is readily available to all persons concerned with the project:

18 U.S.C. 1020 reads as follows:

"Whoever, being an officer, agent, or employee of the United States, or of any State or Territory, or whoever, whether a person, association, firm, or corporation, knowingly makes any false statement, false representation, or false report as to the character, quality, quantity, or cost of the material used or to be used, or the quantity or quality of the work performed or to be performed, or the cost thereof in connection with the submission of plans, maps, specifications, contracts, or costs of construction on any highway or related project submitted for approval to the Secretary of Transportation; or

Whoever knowingly makes any false statement, false representation, false report or false claim with respect to the character, quality, quantity, or cost of any work performed or to be performed, or materials furnished or to be furnished, in connection with the construction of any highway or related project approved by the Secretary of Transportation; or

Whoever knowingly makes any false statement or false representation as to material fact in any statement, certificate, or report submitted pursuant to provisions of the Federal-aid Roads Act approved July 1, 1916, (39 Stat. 355), as amended and supplemented;

Shall be fined under this title or imprisoned not more than 5 years or both."

IX. IMPLEMENTATION OF CLEAN AIR ACT AND FEDERAL WATER POLLUTION CONTROL ACT

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

By submission of this bid/proposal or the execution of this contract, or subcontract, as appropriate, the bidder, proposer, Federal-aid construction contractor, or subcontractor, as appropriate, will be deemed to have stipulated as follows:

1. That any person who is or will be utilized in the performance of this contract is not prohibited from receiving an award due to a violation of Section 508 of the Clean Water Act or Section 306 of the Clean Air Act.

2. That the contractor agrees to include or cause to be included the requirements of paragraph (1) of this Section X in every subcontract, and further agrees to take such action as the contracting agency may direct as a means of enforcing such requirements.

X. CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION

This provision is applicable to all Federal-aid construction contracts, design-build contracts, subcontracts, lower-tier subcontracts, purchase orders, lease agreements, consultant contracts or any other covered transaction requiring FHWA approval or that is estimated to cost \$25,000 or more – as defined in 2 CFR Parts 180 and 1200.

1. Instructions for Certification – First Tier Participants:

a. By signing and submitting this proposal, the prospective first tier participant is providing the certification set out below.

b. The inability of a person to provide the certification set out below will not necessarily result in denial of participation in this

covered transaction. The prospective first tier participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective first tier participant to furnish a certification or an explanation shall disqualify such a person from participation in this transaction.

c. The certification in this clause is a material representation of fact upon which reliance was placed when the contracting agency determined to enter into this transaction. If it is later determined that the prospective participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the contracting agency may terminate this transaction for cause of default.

d. The prospective first tier participant shall provide immediate written notice to the contracting agency to whom this proposal is submitted if any time the prospective first tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

e. The terms "covered transaction," "debarred," "suspended," "ineligible," "participant," "person," "principal," and "voluntarily excluded," as used in this clause, are defined in 2 CFR Parts 180 and 1200. "First Tier Covered Transactions" refers to any covered transaction between a grantee or subgrantee of Federal funds and a participant (such as the prime or general contract). "Lower Tier Covered Transactions" refers to any covered transaction under a First Tier Covered Transaction (such as subcontracts). "First Tier Participant" refers to the participant who has entered into a covered transaction with a grantee or subgrantee of Federal funds (such as the prime or general contractor). "Lower Tier Participant" refers any participant who has entered into a covered transaction with a First Tier Participant or other Lower Tier Participants (such as subcontractors and suppliers).

f. The prospective first tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.

g. The prospective first tier participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transactions," provided by the department or contracting agency, entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions exceeding the \$25,000 threshold.

h. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any lower tier prospective participants, each participant may, but is not required to, check the Excluded Parties List System website (<https://www.epls.gov/>), which is compiled by the General Services Administration.

i. Nothing contained in the foregoing shall be construed to require the establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of the prospective participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

j. Except for transactions authorized under paragraph (f) of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

* * * * *

2. Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – First Tier Participants:

a. The prospective first tier participant certifies to the best of its knowledge and belief, that it and its principals:

(1) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency;

(2) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(3) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (a)(2) of this certification; and

(4) Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

b. Where the prospective participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

2. Instructions for Certification - Lower Tier Participants:

(Applicable to all subcontracts, purchase orders and other lower tier transactions requiring prior FHWA approval or estimated to cost \$25,000 or more - 2 CFR Parts 180 and 1200)

a. By signing and submitting this proposal, the prospective lower tier is providing the certification set out below.

b. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department, or agency with which

this transaction originated may pursue available remedies, including suspension and/or debarment.

c. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous by reason of changed circumstances.

d. The terms "covered transaction," "debarred," "suspended," "ineligible," "participant," "person," "principal," and "voluntarily excluded," as used in this clause, are defined in 2 CFR Parts 180 and 1200. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations. "First Tier Covered Transactions" refers to any covered transaction between a grantee or subgrantee of Federal funds and a participant (such as the prime or general contract). "Lower Tier Covered Transactions" refers to any covered transaction under a First Tier Covered Transaction (such as subcontracts). "First Tier Participant" refers to the participant who has entered into a covered transaction with a grantee or subgrantee of Federal funds (such as the prime or general contractor). "Lower Tier Participant" refers any participant who has entered into a covered transaction with a First Tier Participant or other Lower Tier Participants (such as subcontractors and suppliers).

e. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

f. The prospective lower tier participant further agrees by submitting this proposal that it will include this clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions exceeding the \$25,000 threshold.

g. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any lower tier prospective participants, each participant may, but is not required to, check the Excluded Parties List System website (<https://www.epls.gov/>), which is compiled by the General Services Administration.

h. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

i. Except for transactions authorized under paragraph e of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the

department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

* * * * *

Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion--Lower Tier Participants:

1. The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency.

2. Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

* * * * *

XI. CERTIFICATION REGARDING USE OF CONTRACT FUNDS FOR LOBBYING

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts which exceed \$100,000 (49 CFR 20).

1. The prospective participant certifies, by signing and submitting this bid or proposal, to the best of his or her knowledge and belief, that:

a. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

b. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

2. This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. 1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

3. The prospective participant also agrees by submitting its bid or proposal that the participant shall require that the language of this certification be included in all lower tier subcontracts, which exceed \$100,000 and that all such recipients shall certify and disclose accordingly.

**ATTACHMENT A - EMPLOYMENT AND MATERIALS
PREFERENCE FOR APPALACHIAN DEVELOPMENT
HIGHWAY SYSTEM OR APPALACHIAN LOCAL ACCESS
ROAD CONTRACTS**

This provision is applicable to all Federal-aid projects funded under the Appalachian Regional Development Act of 1965.

1. During the performance of this contract, the contractor undertaking to do work which is, or reasonably may be, done as on-site work, shall give preference to qualified persons who regularly reside in the labor area as designated by the DOL wherein the contract work is situated, or the subregion, or the Appalachian counties of the State wherein the contract work is situated, except:

a. To the extent that qualified persons regularly residing in the area are not available.

b. For the reasonable needs of the contractor to employ supervisory or specially experienced personnel necessary to assure an efficient execution of the contract work.

c. For the obligation of the contractor to offer employment to present or former employees as the result of a lawful collective bargaining contract, provided that the number of nonresident persons employed under this subparagraph (1c) shall not exceed 20 percent of the total number of employees employed by the contractor on the contract work, except as provided in subparagraph (4) below.

2. The contractor shall place a job order with the State Employment Service indicating (a) the classifications of the laborers, mechanics and other employees required to perform the contract work, (b) the number of employees required in each classification, (c) the date on which the participant estimates such employees will be required, and (d) any other pertinent information required by the State Employment Service to complete the job order form. The job order may be placed with the State Employment Service in writing or by telephone. If during the course of the contract work, the information submitted by the contractor in the original job order is substantially modified, the participant shall promptly notify the State Employment Service.

3. The contractor shall give full consideration to all qualified job applicants referred to him by the State Employment Service. The contractor is not required to grant employment to any job applicants who, in his opinion, are not qualified to perform the classification of work required.

4. If, within one week following the placing of a job order by the contractor with the State Employment Service, the State Employment Service is unable to refer any qualified job applicants to the contractor, or less than the number requested, the State Employment Service will forward a certificate to the contractor indicating the unavailability of applicants. Such certificate shall be made a part of the contractor's permanent project records. Upon receipt of this certificate, the contractor may employ persons who do not normally reside in the labor area to fill positions covered by the certificate, notwithstanding the provisions of subparagraph (1c) above.

5. The provisions of 23 CFR 633.207(e) allow the contracting agency to provide a contractual preference for the use of mineral resource materials native to the Appalachian region.

6. The contractor shall include the provisions of Sections 1 through 4 of this Attachment A in every subcontract for work which is, or reasonably may be, done as on-site work.

Non-discrimination Provisions

During the performance of this contract, the contractor, for itself, its assignees, and successors in interest (hereinafter referred to as the "contractor") agrees as follows:

1. Compliance with Regulations: The contractor (hereinafter includes consultants) will comply with the Acts and the Regulations relative to Non-discrimination in Federally-assisted programs of the U.S. Department of Transportation, Federal Highway Administration, as they may be amended from time to time, which are herein incorporated by reference and made a part of this contract.

2. Non-discrimination: The contractor, with regard to the work performed by it during the contract, will not discriminate on the grounds of race, color, or national origin in the selection and retention of subcontractors, including procurements of materials and leases of equipment. The contractor will not participate directly or indirectly in the discrimination prohibited by the Acts and the Regulations, including employment practices when the contract covers any activity, project, or program set forth in Appendix B of 49 CFR Part 21.

3. Solicitations for Subcontracts, Including Procurements of Materials and Equipment: In all solicitations, either by competitive bidding, or negotiation made by the contractor for work to be performed under a subcontract, including procurements of materials, or leases of equipment, each potential subcontractor or supplier will be notified by the contractor of the contractor's obligations under this contract and the Acts and the Regulations relative to Non-discrimination on the grounds of race, color, or national origin.

4. Information and Reports: The contractor will provide all information and reports required by the Acts, the Regulations, and directives issued pursuant thereto and will permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the Recipient or the Federal Highway Administration to be pertinent to ascertain compliance with such Acts, Regulations, and instructions. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish the information, the contractor will so certify to the Recipient or the Federal Highway Administration, as appropriate, and will set forth what efforts it has made to obtain the information.

5. Sanctions for Noncompliance: In the event of a contractor's noncompliance with the Non-discrimination provisions of this contract, the Recipient will impose such contract sanctions as it or the Federal Highway Administration may determine to be appropriate, including, but not limited to:

- a. Withholding payments to the contractor under the contract until the contractor complies; and/or
- b. Cancelling, terminating, or suspending a contract, in whole or in part.

6. Incorporation of Provisions: The contractor will include the provisions of paragraphs one through six in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Acts, the Regulations and directives issued pursuant thereto. The contractor will take action with respect to any subcontract or procurement as the Recipient or the Federal Highway Administration may direct as a means of enforcing such provisions including sanctions for noncompliance. Provided, that if the contractor becomes involved in, or is threatened with litigation by a subcontractor, or supplier because of such direction, the contractor may request the Recipient to enter into any litigation to protect the interests of the Recipient. In addition, the contractor may request the United States to enter into the litigation to protect the interests of the United States.

During the performance of this contract, the contractor, for itself, its assignees, and successors in interest (hereinafter referred to as the "contractor") agrees to comply with the following non-discrimination statutes and authorities; including but not limited to:

Pertinent Non-Discrimination Authorities:

- Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin); and 49 CFR Part 21.
- The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);
- Federal-Aid Highway Act of 1973, (23 U.S.C. § 324 et seq.), (prohibits discrimination on the basis of sex);
- Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 et seq.), as amended, (prohibits discrimination on the basis of disability); and 49 CFR Part 27;
- The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 et seq.), (prohibits discrimination on the basis of age);
- Airport and Airway Improvement Act of 1982, (49 USC § 471, Section 47123), as amended, (prohibits discrimination based on race, creed, color, national origin, or sex);
- The Civil Rights Restoration Act of 1987, (PL 100-209), (Broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such programs or activities are Federally funded or not);
- Titles II and III of the Americans with Disabilities Act, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 U.S.C. §§ 12131-12189) as implemented by Department of Transportation regulations at 49 C.F.R. parts 37 and 38;
- The Federal Aviation Administration's Non-discrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex);

- Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures Non-discrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations;
- Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of Limited English proficiency (LEP). To ensure compliance with Title VI, you must take reasonable steps to ensure that LEP persons have meaningful access to your programs (70 Fed. Reg. at 74087 to 74100);
- Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 U.S.C. 1681 et seq).

SEPTEMBER 2002

**NOTICE OF REQUIREMENT FOR AFFIRMATIVE ACTION TO ENSURE
EQUAL EMPLOYMENT OPPORTUNITY (EXECUTIVE ORDER 11246)**

1. The Offeror's or Bidder's attention is called to the "Employment Practices" and "Equal Opportunity Clause" set forth in the Required Contract Provisions, FHWA 1273.
2. The goals and timetables for minority and female participation expressed in percentage terms for the contractor's aggregate work force in each trade, on all construction work in the covered area, are as follows:

Goals for Minority Participation for Each Trade:

<u>County</u>	<u>%</u>	<u>County</u>	<u>%</u>	<u>County</u>	<u>%</u>
Adams	1.7	Iowa	1.7	Polk	2.2
Ashland	1.2	Iron	1.2	Portage	0.6
Barron	0.6	Jackson	0.6	Price	0.6
Bayfield	1.2	Jefferson	7.0	Racine	8.4
Brown	1.3	Juneau	0.6	Richland	1.7
Buffalo	0.6	Kenosha	3.0	Rock	3.1
Burnett	2.2	Kewaunee	1.0	Rusk	0.6
Calumet	0.9	La Crosse	0.9	St. Croix	2.9
Chippewa	0.5	Lafayette	0.5	Sauk	1.7
Clark	0.6	Langlade	0.6	Sawyer	0.6
Columbia	1.7	Lincoln	0.6	Shawano	1.0
Crawford	0.5	Manitowoc	1.0	Sheboygan	7.0
Dane	2.2	Marathon	0.6	Taylor	0.6
Dodge	7.0	Marinette	1.0	Trempealeau	0.6
Door	1.0	Marquette	1.7	Vernon	0.6
Douglas	1.0	Menominee	1.0	Vilas	0.6
Dunn	0.6	Milwaukee	8.0	Walworth	7.0
Eau Claire	0.5	Monroe	0.6	Washburn	0.6
Florence	1.0	Oconto	1.0	Washington	8.0
Fond du Lac	1.0	Oneida	0.6	Waukesha	8.0
Forest	1.0	Outagamie	0.9	Waupaca	1.0
Grant	0.5	Ozaukee	8.0	Waushara	1.0
Green	1.7	Pepin	0.6	Winnebago	0.9
Green Lake	1.0	Pierce	2.2	Wood	0.6

Goals for female participation for each trade: 6.9%

These goals are applicable to all the contractor's construction work, (whether or not it is federal or federally assisted), performed in the covered area. If the contractor performs construction work in the geographical area located outside of the covered area, it shall apply the goals established for such geographical area where the work is actually performed. With regard to this second area, the contractor also is subject to the goals for both its federally involved and nonfederally involved construction.

The contractor's compliance with the Executive Order and the Regulations in 41 CFR Part 60-4 shall be based on its implementation of the Equal Opportunity Clause, specific affirmative action obligations required by the specifications set forth in 41 CFR 60-4.3(a), and its efforts to meet the goals. The hours of minority and female employment and training must be substantially uniform throughout the length of the contract, and in each trade, and the contractor shall make a good faith effort to employ minorities and women evenly on each of its projects. The transfer of minority or female employees or trainees from contractor to contractor or from project to project for the sole purpose of meeting the contractor's goals shall be a violation of the contract, the Executive Order and the Regulations in 41 CFR Part 60-4. Compliance with the goals will be measured against the total work hours performed.

3. The contractor shall provide written notification to the Director of the Office of Federal Contract Compliance Programs within ten (10) working days of award of any construction subcontract in excess of \$10,000.00 at any tier for construction work under the contract resulting from this solicitation. The notification shall list the name, address and telephone number of the subcontractor, employer identification number of the subcontractor; estimated dollar amount of the subcontract; estimated starting and completion dates of the subcontract; and the geographical area in which the subcontract is to be performed.

As referred to in this section, the Director means:

Director
Office of Federal Contract Compliance Programs
Ruess Federal Plaza
310 W. Wisconsin Ave., Suite 1115
Milwaukee, WI 53202

The "Employer Identification Number" means the Federal Social Security number used on the Employer's Quarterly Federal Tax Return, U.S. Treasury Department Form 941.

4. As used in this notice, and in the contract resulting from solicitation, the "covered area" is the county(ies) in Wisconsin to which this proposal applies.

APRIL 2013

ADDITIONAL FEDERAL-AID PROVISIONS

NOTICE TO ALL BIDDERS

To report bid rigging activities call:

1-800-424-9071

The U.S. Department of Transportation (DOT) operates the above toll-free "hotline" Monday through Friday, 8:00 a.m. to 5:00 p.m., Eastern Time. Anyone with knowledge of possible bid rigging, bidding collusion, or other fraudulent activities should use the "hotline" to report such activities.

The "hotline" is part of the DOT's continuing effort to identify and investigate highway construction contract fraud and abuse and is operated under the direction of the DOT Inspector General. All information will be treated confidentially and caller anonymity will be respected.

Effective August 2015 letting

BUY AMERICA PROVISION

All steel and iron materials permanently incorporated in this project shall be domestic products and all manufacturing and coating processes for these materials from smelting forward in the manufacturing process must have occurred within the United States. Coating includes epoxy coating, galvanizing, painting and any other coating that protects or enhances the value of a material subject to the requirements of Buy America. The exemption of this requirement is the minimal use of foreign materials if the total cost of such material permanently incorporated in the product does not exceed one-tenth of one percent (1/10 of 1%) of the total contract cost or \$2,500.00, whichever is greater. For purposes of this paragraph, the cost is that shown to be the value of the subject products as they are delivered to the project. The contractor shall take actions and provide documentation conforming to CMM 2-28.5 to ensure compliance with this "Buy America" provision.

<http://wisconsindot.gov/rdwy/cmm/cm-02-28.pdf>

Upon completion of the project certify to the engineer, in writing using department form WS4567, that all steel, iron, and coating processes for steel or iron incorporated into the contract work conform to these "Buy America" provisions. Attach a list of exemptions and their associated costs to the certification form. Department form WS4567 is available at:

<http://wisconsindot.gov/hcciDocs/contracting-info/ws4567.doc>

Cargo Preference Act Requirement

All Federal-aid projects shall comply with 46 CFR 381.7 (a) – (b) as follows:

(a) *Agreement Clauses*. “Use of United States-flag vessels:”

(1) Pursuant to Pub. L. 664 (43 U.S.C. 1241(b)) at least 50 percent of any equipment, materials or commodities procured, contracted for or otherwise obtained with funds granted, guaranteed, loaned, or advanced by the U.S. Government under this agreement, and which may be transported by ocean vessel, shall be transported on privately owned United States-flag commercial vessels, if available.

(2) Within 20 days following the date of loading for shipments originating within the United States or within 30 working days following the date of loading for shipments originating outside the United States, a legible copy of a rated, ‘on-board’ commercial ocean bill-of-lading in English for each shipment of cargo described in paragraph (a)(1) of this section shall be furnished to both the Contracting Officer (through the prime contractor in the case of subcontractor bills-of-lading) and to the Division of National Cargo, Office of Market Development, Maritime Administration, Washington, DC 20590.”

(b) *Contractor and Subcontractor Clauses*. “Use of United States-flag vessels: The contractor agrees—”

(1) To utilize privately owned United States-flag commercial vessels to ship at least 50 percent of the gross tonnage (computed separately for dry bulk carriers, dry cargo liners, and tankers) involved, whenever shipping any equipment, material, or commodities pursuant to this contract, to the extent such vessels are available at fair and reasonable rates for United States-flag commercial vessels.

(2) To furnish within 20 days following the date of loading for shipments originating within the United States or within 30 working days following the date of loading for shipments originating outside the United States, a legible copy of a rated, ‘on-board’ commercial ocean bill-of-lading in English for each shipment of cargo described in paragraph (b) (1) of this section to both the Contracting Officer (through the prime contractor in the case of subcontractor bills-of-lading) and to the Division of National Cargo, Office of Market Development, Maritime Administration, Washington, DC 20590.

(3) To insert the substance of the provisions of this clause in all subcontracts issued pursuant to this contract.

**WISCONSIN DEPARTMENT OF TRANSPORTATION
DIVISION OF TRANSPORTATION AND SYSTEM DEVELOPMENT**

**SUPPLEMENTAL REQUIRED CONTRACT PROVISIONS
FOR PROJECTS WITH FEDERAL AID**

I. PREVAILING WAGE RATES

The attached U.S. Department of Labor (Davis-Bacon Minimum Wage Rates) furnishes the minimum prevailing wage rates pursuant to the Davis-Bacon and Related Acts. The wage rates shown are the minimum rates required by the contract to be paid during its life, however this is not a representation that labor can be obtained at these rates. It is the responsibility of bidders to inform themselves as to the local labor conditions and prospective changes or adjustments of wage rates. No increase in the contract price will be allowed or authorized on account of the payment of wage rates in excess of those listed herein.

II. COVERAGE OF TRUCK DRIVERS

Truck drivers are covered by Davis-Bacon Minimum Wage Rates in the following circumstances:

- Drivers of a contractor or subcontractor for time spent working on the site of the work.
- Drivers of a contractor or subcontractor for time spent loading and/or unloading materials and supplies on the site of the work, if such time is not de minimis. https://www.dol.gov/whd/FOH/FOH_Ch15.pdf
- Truck drivers transporting materials or supplies between a facility that is deemed part of the site of the work and the actual construction site.
- Truck drivers transporting portions of the building or work between a site established specifically for the performance of the contract where a significant portion of such building or work is constructed and the physical place where the building or work called for in the contract will remain.

Truck drivers are not covered by Davis-Bacon Minimum Wage Rates in the following circumstances:

- Material delivery truck drivers while off the site of the work.
- Drivers of a contractor or subcontractor traveling between a Davis-Bacon job and a commercial supply facility while they are off the site of the work."
- Truck drivers whose time spent on the site of the work is de minimis, such as only a few minutes at a time merely to pick up or drop off materials or supplies.

Details are available online at:

<https://www.dol.gov/whd/recovery/pwrb/Tab9.pdf>

<http://wisconsindot.gov/Pages/doing-bus/civil-rights/labornwage/trckng.aspx>

III. POSTINGS AT THE SITE OF THE WORK

In addition to the required postings furnished by the department, the contractor shall post the following in at least one conspicuous and accessible place at the site of work:

- a. A copy of the contractor's Equal Employment Opportunity Policy.

All required documents shall be posted by the first day of work and be accurate and complete. Postings must be readable, in an area where they will be noticed, and maintained until the last day of work.

IV. RESOURCES

Required information regarding compliance with federal provisions is found in the following resources:

- FHWA-1273 included in this contract
- U.S. Department of Labor Prevailing Wage Resource Book
- U.S. Department of Labor Field Operations Handbook
- U.S. Code of Federal Regulations
- Any applicable law, Act, or Executive Order enacted by the federal government at the time of the letting of this contract

General Decision Number: WI170010 10/06/2017 WI10

Superseded General Decision Number: WI20160010

State: Wisconsin

Construction Type: Highway

Counties: Wisconsin Statewide.

HIGHWAY, AIRPORT RUNWAY & TAXIWAY CONSTRUCTION PROJECTS (does not include bridges over navigable waters; tunnels; buildings in highway rest areas; and railroad construction)

Note: Under Executive Order (EO) 13658, an hourly minimum wage of \$10.20 for calendar year 2017 applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least \$10.20 (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in calendar year 2017. The EO minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

=====

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular

rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial

contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====

END OF GENERAL DECISION

March 2017

**NOTICE TO BIDDERS
WAGE RATE DECISION**

The wage rate decision of the Department of Labor which has been incorporated in these advertised specifications is incomplete in that the classifications may be omitted from the Department of Labor's decision.

Since the bidder is responsible, independently, for ascertaining area practice with respect to the necessity, or lack of necessity, for the use of these classifications in the prosecution of the work contemplated by this project, no inference may be drawn from the omission of these classifications concerning prevailing area practices relative to their use. Further, this omission will not, per se, be construed as establishing any governmental liability for increased labor cost if it is subsequently determined that such classifications are required.

There may be omissions and/or errors in the federal wage rates. The bidder is responsible for evaluating and determining the correct applicable rate.

If a project includes multiple types of construction (highway, bridge over navigable water, sanitary sewer and water main, building) and there is not a separate wage determination for this type of work included in the proposal, use the wage determination that is in the proposal.
