EXECUTIVE SUMMARY

Description of Proposed Work

only the work from CTH T/Givens Rd to CTH JJ will be concurrent with the east section

Project 1146-75-72 is part of the STH 15 Majors Reconstruction Program. This project begins at CTH JJ and ends at Lily of the Valley Drive. The work consists of grading, concrete pavement, HMA pavement, storm sewer, culverts, sign structures, permanent signing and pavement marking. This project will be completed under traffic. The project is expected to begin in spring 2022 and end in fall 2023. All structure bid items were estimated by the Wisconsin Department of Transportation Bureau of Structures. STH 15 from **USH 45 to CTH JJ** will also be under construction during this same time frame. There are concrete plants and quarries located close to the project site. Due to the other projects to the west and the distance to the concrete plants and quarries competitive pricing is expected.

Similar Projects or Proposals – List similar project/proposal IDs and how they were referenced

1146-75-71, 1146-75-76, 1146-75-77, 1146-75-73. Bid prices for these projects were referenced and compared to the bid prices chosen for this project. Bid prices that did not fall within the 25/75 area within Estimator were found using similar projects in the NER and statewide depending on the item.

None of these projects have been let to bid yet so they shouldn't be used for preparing your estimate documentation. NE Region will check for consistency between unit prices within the WIS 15 IDs where appropriate but you should be using comparable projects that have recently been let for your documentation.

Similar projects are probably the best source for Lump Sum and some EACH items (with QTY of 1) that are based on project type, scope, size, etc. and don't translate well in BidX (Field Office, Construction Staking, Traffic Control (Project), etc.).

General Comments:

-Significant Items are defined as the top 20% of items, so you should be listing about 50 significant items (20% of appx 250 items total).
-This project will need an update when pulled off shelf for current prices/trends at that time. (Estimate still needs to be updated every 6 months while on shelf.) Also, keep an eye on the upcoming WIS 23 bid letting information to further refine unit prices.

Try to include more project-specific reasons in the individual item justification if possible - things such as length, width, county, source/availability of materials, type of work, accessibility, etc. This shows (and documents) the engineering judgment beyond raw software data.

Comments: There are wetland areas within the corridor and a railroad on the east end of the project. All utility relocations will be completed in advance of construction.

Competition of Contractors

Expected Competition	Fair (3 to 4 bidders)
----------------------	-----------------------

Comments: Project 1146-75-72 is a Majors Project in the NER. The size of this project is expected to draw interest from several area contractors.

Other Considerations

|---|---|
| ☐ Multiple mobilizations | ☐ Remote location |
| ☐ Multiple, dispersed work locations | ☐ Haul distance |
| ☐ Urban or ☒ Rural | ☒ Current bid item trends |
| ☐ Constrained work environment | ☐ Material shortages |
| ☒ Adjacent projects | ☐ Other (Please explain) |

Comments: STH 15, from **USH 45 to CTH JJ** will be under construction during the same time frame that this project is under construction. Access to the project site is not expected to be difficult. Given the large quantities it is expected that the bid prices will be competitive.

only the bypass (CTH T/Givens Rd to CTH JJ will be under construction concurrent with this project

ITEM LEVEL DOCUMENTATION

Significant Items are determined by 20% of total items, not 80% of total cost. With over 250 items, you should be listing/justifying at least the top 50 items (only 19 listed here).

All Significant Items require a second source, so there will likely be additional BidX searches needed when this list is updated.

Significant Items List – Top 20% of items out of total contract costs and lump sum items

A table providing the top bid items that equal approximately 80% of the total estimate when sorted by total item cost is provided below. Documentation as to how the bid prices for these items was obtained is also below.

Comments on your unit price searches and justification are contained within the BidX sheets after your estimate.

415.0090 Concrete Pavement 9-Inch

This should not be in narrative. You need to provide independent justification for your price. This applies to all items that contain this sentence.

~~An initial bid price of \$41.00 was provided by WisDOT.~~ Estimator did not provide a bid price. A statewide search was done in Bid Ex as there was only one project returned for the Northeast Region when a quantity greater than 40,000 SY was used. With the statewide search, three projects were returned with a total of eight bids. The average bid price was \$41.76 therefore a bid price of \$42.00 was chosen.

205.0100 Excavation Common

WIS 23 projects using combined common/embankment price of \$8-\$9 depending on complexity/quantity. Keep an eye on future bid results from WIS 23 for better info.

~~Initial bid price of \$5.50 was provided by WisDOT.~~ Estimator provided a bid price of \$7.78 but was within the 25% to 75% range. A search was done of the counties in the Northeast region in Bid Ex the quantity range of 384,000 to 639,000 CY. Two projects with a total of 4 bids were returned. The average bid price was \$7.65 therefore a bid price of \$7.65 was chosen.

3 of 7

Analysis needs to find comparable projects with both common and embankment items since the prices for these two items on large grading projects are interdependent, I would look at the total of these two items on other comparable projects and use that as the basis for the total of the combined items on this project. (see separate spreadsheet)

305.0120 Base Aggregate Dense 1 1/4-Inch

~~An initial bid price of \$9.00 was provided by WisDOT. Estimator provided a bid price of \$7.34 but was not within the 25% to 75% range. A statewide search was done in Bid Ex as there was only one project with two bids returned for the Northeast Region within the quantity range of 93,000 to 279,000 tons. With the statewide search, 18 projects were returned with a total of 77 bids. The average bid price was \$8.89. Which is similar to the WisDOT provided bid price of \$9.00.~~ need to rewrite this justification

312.0110 Select Crushed Material

~~An initial bid price of \$10.50 was provided by WisDOT. Estimator provided a bid price of \$10.01 but was not within the 25% to 75% range. A statewide search was done in Bid Ex as there were no projects with returned for the Northeast Region within the quantity range of 71,000 to 203,000 tons. With the statewide search, four projects were returned with a total of 14 bids. The average bid price was \$10.91 and therefore a bid price of \$11.00 was chosen.~~

SPV.0035 Roadway Embankment

See common
ex comments.

~~An initial bid price of \$3.75 was provided by WisDOT. Estimator did not provide a bid price. A statewide search was done in Bid Ex as there were no projects returned for the Northeast Region when a quantity greater range of 202,000 to 605,000 CY was used. With the statewide search, ten projects were returned with a total of 31 bids. The average bid price was \$3.93 therefore a bid price of \$4.00 was chosen.~~

see comments under the excavation common item. Also, the BidX searches you attached don't show an average price of \$3.93 so I'm not sure where you get this unit price.

Research into
Major's projects
suggests using a
higher % than
usual, WIS 23
using 5% to 8%
(8.6% actual on
Sheb grading).

000 Mobilization

~~Value of 4.3% of the project total was provided by WisDOT. Looking at the Percent Mobilization by Movement Strategies summary table provided by WisDOT, the typical range for a Roadway Mobilization project, or a reconstruction and expansion project, is from 4.00% to 7.64%. A value of 5% was chosen.~~ 5% might be a little low given the amount of staging and extra mobilizations.

460.5224 HMA Pavement 4 LT 58-28 S

~~An initial bid price of \$65.00 was provided by WisDOT. Estimator provided a bid price of \$80.88 but was not within the 25% to 75% range. A search was done of the counties within the Northeast Region in Bid Ex with a quantity range of 8,800 to 147,000 tons. With this search, four projects were returned with a total of 9 bids. The average bid price was \$63.25. Which is similar to the WisDOT provided bid price of \$65.00.~~ need to rewrite this justification

that range is extremely large

311.0110 Breaker Run

~~price of \$9.50 was provided by WisDOT. Estimator provided a bid price of \$13.73 but was not within the 25% to 75% range. A search was done of the counties within the Northeast Region in Bid Ex with a quantity range of 26,000 to 78,000 tons. With this search, five projects were returned with a total of 15 bids. The average bid price was \$10.98 therefore a bid price of \$11.00 was chosen.~~

Expanded search
outside NE Region
would suggest
higher prices in
rest of state. Is
this low price a
Region trend?
Explain?

460.5223 HMA Pavement 3 LT 58-28 S

~~An initial bid price of \$60.00 was provided by WisDOT. Estimator provided a bid price of \$59.86 but was not within the 25% to 75% range. A search was done of the counties within the Northeast Region in Bid Ex with a quantity range of 4,600 to 14,000 tons. With this search, five projects were returned with a total of 15 bids. The average bid price was \$58.76. Which is similar to the WisDOT provided bid price of \$60.00.~~ need to rewrite this justification

465.0125 Asphaltic Surface Temporary

~~An initial bid price of \$70.00 was provided by WisDOT. Estimator provided a bid price of \$97.89 but was not within the 25% to 75% range. A statewide search was done in Bid Ex as there were no projects~~

Seems like the BidX data being used is old. I would expect a price closer to \$100/TON based on 2019 data.

returned for the Northeast Region within the quantity range of 6,000 to 9,900 tons. With the statewide search, four projects were returned with a total of 16 bids. The average bid price was \$67.06. ~~Which is similar to the WisDOT provided bid price of \$70.00.~~

625.0500 Salvaged Topsoil

The initial Estimator price of \$0.64 was rounded to \$0.65. The bid express search results within the northeast region resulted in one project (1140-13-76/77 – STH 23 Sheboygan County a similar type project). The STH 23 project had two bidders one at a \$0.01 and the other at \$0.66. A statewide search was also done resulting in an average of \$0.74 with almost half of the bidders at \$0.01 and about a third of the bidders between \$0.50 and \$0.75. Based on the data a price of \$0.65 seems reasonable if you removed the outliers of \$0.01 and over \$1.00.

305.0110 Base Aggregate Dense ¾-Inch

~~An initial bid price of \$17.00 was provided by WisDOT. Estimator provided a bid price of \$18.41 but was not within the 25% to 75% range. A search was done of the counties within the Northeast Region in Bid Ex with a quantity range of 10,000 to 31,000 tons. With this search, three projects were returned with a total of 8 bids. The average bid price was \$16.99. Which is similar to the WisDOT provided bid price of \$17.00.~~

\$17 still seems a few dollars high, but not unreasonable.

465.0105 Asphaltic Surface

Estimator provided a bid price of \$98.82 but was not within the 25% to 75% range. A statewide search was done in Bid Ex as there were no projects returned for the Northeast Region within the quantity range of 1,900 to 5,700 tons. With the statewide search, 13 projects were returned with a total of 31 bids. The average bid price was \$84.93. Rounding up, a bid price of \$85.00 was chosen.

646.1545 Marking Line Grooved Wet Ref Contrast Epoxy 4-Inch

Estimator provided a bid price of \$1.50 but was not within the 25% to 75% range. A statewide search was done in Bid Ex as there were no projects returned for the Northeast Region for this item. With the statewide search, and a quantity greater than 10,000 LF, 5 projects were returned with a total of 11 bids. The average bid price was \$2.78. Rounding up, a bid price of \$2.80 was chosen.

465.0120 Asphaltic Surface Driveways and Field Entrances

~~A bid price of \$115.00 was provided by WisDOT. Estimator did not provide a bid price. A statewide search was done with a quantity range of 900 to 2,700 tons. With this search, four projects were returned with a total of 18 bids. The average bid price was \$98.13 therefore a bid price of \$100.00 was chosen.~~

Price seems fine, but verify quantity calcs - is higher than every project in the state in recent years.

608.0418 Storm Sewer Pipe Reinforced Concrete Class IV 18-Inch

Based on the results of a Bid Express search a price of \$60.00 was chosen. No similar type project had a quantity this large, however, the price matches the search results for other projects with similar quantity.

608.0424 Storm Sewer Pipe Reinforced Concrete Class IV 24-Inch

Based on the results of a Bid Express search a price of \$75.00 was chosen. No similar type project had a quantity this large, however, the price matches the search results for other projects with similar quantity.

205.0400 Excavation Marsh

~~An initial bid price of \$6.00 was provided by WisDOT. Estimator provided a bid price of \$4.72 but was not within the 25% to 75% A search was done of the counties within the Northeast Region in Bid Ex. With this search, five projects were returned with a total of 10 bids. The average bid price was \$5.97. Which is similar to the WisDOT provided bid price of \$6.00.~~

Keep in mind this price likely influenced by embankment price, similar to common ex.

504.0100 Concrete Masonry Culverts

The bid price for this item was provided by WisDOT Bureau of Structures.

Even if the price is provided by WisDOT BOS, it still needs to be checked. That isn't a basis for the justification.

Non-Significant Item Summary – Summary of estimating methodology

All items were input into Estimator. For any items that came back within the 25% to 75% range, the bid price provided by Estimator was used. For any items that did not fall within the 25% to 75% range, an alternative bid price was looked up on Bid Express. Printouts for these items are attached. WisDOT BOS provided the bid prices for the two box culverts on the project.

It is complicated to review these since you don't state which items were Estimator only and which required BidX without checking your attachments and assuming the rest are fine.

You need to look at excavation common and embankment together as a combined cost for the project and then divide appropriately between the two items. Many projects have a high price for excavation common and then a \$0.01 bid for embankment. Unless you look at both bid items together, you will get false data for comparison. You need to look at comparable projects that had both items and then remove the outlier (unbalanced) bids for comparison purposes. I have attached a separate spreadsheet that provides this comparison.

Our project has 25,000 CY of marsh so these are not comparable projects. Look at statewide data to get comparable projects.

Racine County drove this average higher so you don't need to raise the average even further in your unit price. Just use \$41.75. Also, if you want to get additional data, you can always check 8.5" concrete price on comparable project to see if it is in the ballpark.

Restrict your search to the low 3 bidders. By slightly lowering the bottom threshold for quantity, you can get multiple additional projects in Outagamie County for comparison.
