	SE-NE Sec 20 T37N R13W	SW-NW Sec 21 T37N R13W
	Town of Barronett, Washburn County	Town of Barronett, Washburn County

Dear Mr. Bos:

As part of the Department of Transportation improvement projects, the Regional Office routinely manages access (driveways) onto the highway by issuing permits for existing driveways meeting all the statutory requirements.

In reviewing our records, we found that there is record of a permit for only one of your two driveways to USH 63 from your property in the Town of Barronett. Your driveways do not meet our current **DESIRABLE** spacing criteria of **1,000 feet** between driveways on the same side of the road. It has been determined that southerly driveway must be removed and the northerly driveway will be allowed to remain. We are planning to remove the southerly driveway as part of the proposed reconstruction of USH63, currently scheduled for 2015.

The following special provisions apply to the remaining driveway:

- **No culvert pipe is required**

- **Any proposed change in land use, traffic volume or type of vehicles utilizing this access, for purposes other than its permitted use, will require the property owner(s) to contact the Department of Transportation for an access determination and permit.**

Your permit should be kept in a safe place that can be accessed readily if an inspector reviews your site during construction and for future reference. If you have any questions, please contact me at 715-635-5059.

Sincerely,

Daniel M. Anderson
