

## XII. Mitigation & Commitments

Identify and describe any avoidance, minimization or compensation measures (commitments) in detail. Be specific on what needs to happen and specifically where on the project. Indicate when the commitment should be implemented and who in WisDOT is responsible for fulfilling each commitment (Project Manager, Environmental Coordinator, etc.). Please note if the commitment will be indicated on the final plan, recorded in the Plans, Specifications and Estimates (PS&E), under special provisions in the final plan set, in construction notes, or some other written format. Attach a copy of this completed matrix to the design study report and the PS&E submittal package. Be sure to update it if further commitments are made after the Environmental Document is signed.

<b>Factor</b>	<b>Commitment (If none, indicate N/A)</b>
Business and Economics	Access will be maintained throughout construction.
Community	Access will be maintained throughout construction.
Aesthetics	N/A
Agriculture	N/A
Relocations	N/A
Indirect Impacts	N/A
Cumulative Impacts	N/A
Environmental Justice	N/A
Historic Properties	N/A
Burial Sites	N/A
Tribal Lands	N/A
Section 4(f)	N/A
Section 6(f) or Other Specially Funded Lands	N/A
Wetlands	Wetland impacts will be avoided wherever feasible. Any impacts will be mitigated in accordance with the Cooperative Agreement between the Wisconsin DNR and WisDOT and the WisDOT Wetland Mitigation Banking Technical Guideline. It is the responsibility of the WisDOT design project manager to ensure compliance with this requirement.
Surface Water Resources	N/A
Floodplains	N/A
Groundwater, Wells and Springs	N/A
Coastal Zones	N/A
Unique Wildlife and Habitat Concerns	N/A
Threatened, Endangered and Protected Resources	<p>WisDOT will continue to coordinate with the WDNR on possible impacts to threatened and endangered species.</p> <p>Ground disturbance is anticipated to occur between July and November. If ground disturbance is needed outside of this timeframe, additional consultation with the region environmental coordinator (REC) and USFWS is required.</p>
Air Quality	N/A

Construction Sound	N/A
Traffic Noise	N/A
Hazardous Substances, Contamination and Asbestos	Asbestos inspections are ongoing and will be completed prior to construction. Any asbestos commitments will be incorporated into the project's special provisions.
Stormwater	<p>Storm water management will be carried out in accordance with Clean Water Act (CWA) Section 401 and the WisDOT/WisDNR Cooperative Agreement amendment to minimize potential for adverse impacts. WisDOT will be responsible for preparing and implementing storm water management measures and coordinating such measures with the WisDNR. The WisDOT Project Manager will be responsible for ensuring that this commitment is met during development of final plans and specifications.</p> <p>A Transportation Construction General Permit (TCGP) stormwater permit will be obtained prior to construction.</p>
Erosion Control	Erosion control will be carried out in accordance with the WisDOT/WisDNR Cooperative Agreement amendment to minimize potential for adverse impacts. WisDOT will be responsible for preparing and implementing erosion control plans and coordinating such plans with the WisDNR. The WisDOT Project Manager will be responsible for ensuring that this commitment is met during development of final plans and specifications.
