Sia –

Will need to gather pertinent records related to the HFST application. Suggest that you print IDRs and Diaries related to scheduling and then coordinating the work. Email correspondence related to same – coordination with John E., myself, Lalonde, Fahrner, Police.....

Include any material certifications/qualifications obtained prior to installations, other relevant reports – including police reports.

Please assemble by end of day tomorrow. Place in Box Folder under Site Documentation. I'll drag my information to same and let Dulce know when we are done.

Thanks

Kurt Flierl, P.E.

Hello,

Thank you for your recent open records request. Your request included: obtain records, including correspondence, and claims of injury, concerning the contracts, subcontracts etc. with regard to any High Friction Surface Treatment done by LaLonde Contractors, Fahrner subcontractors and their Engineer on the project identified as 225-14-70, STH 32-Lake Drive.

We are currently working within our organization to provide the responsive records and will be in touch when we have more information.

Under Wis. Stat. section 19.35(4)(a), we will work to provide a response “as soon as practicable without delay.” What constitutes a reasonable time for a response to any specific

request depends on the nature of the request, the staff and other resources available to the authority to process the request, the extent of the request, and related considerations. Whether an authority is acting with reasonable diligence in responding to a particular request will depend on the totality of circumstances surrounding that request.

Please note that WisDOT does not make staff available to interpret any records that are provided in response to open records requests.

The Wisconsin Open Records Law authorizes state agencies to charge reasonable copy fees. The cost associated with paper copies is currently \$0.15 per page for standard size, and search or location fees may be charged if they exceed \$50.00. Fees exceeding \$5 may require prepayment before any records will be provided. More detailed information on fees can be reviewed under Wisconsin Statutes section 19.35(3). In the event that fees will be charged, an itemized invoice will be provided to you.

If you have any questions or concerns, please do not hesitate to contact us.

Thank you,

Dulce M. Huerta

Records Coordinator

Dear DOT Records Department,

I would like to obtain records, including correspondence, and claims of injury, concerning the contracts, subcontracts etc. with regard to any High Friction Surface Treatment done by LaLonde Contractors, Fahrner subcontractors and their Engineer on the project identified as

225-14-70, STH 32-Lake Drive.

Thank you very much for your assistance in this matter,

Sincerely, Fran Assa
