Trans 220 Work Plan Approval

Dan Sande
We Energies – Electric
333 W. Everett Street - A299
Milwaukee, WI 53203

SUBJECT: Zoo IC, Detention Pond
At North Avenue Interchange
Non Hwy
Milwaukee County
Project 1060-34-78
Parcel: N/A
Utility ID: N/A

Dear Mr. Sande:

This letter is to advise you that we have received your proposed Work Plan for the subject project and have found it to be in conformance with Chapter TRANS 220 of the Wisconsin State Statutes.

The utility special provisions in the contract documents are based on your approved work plan. If you make any change to your proposed work plan, please contact me so I can revise the contract documents as necessary.

It is my understanding that no relocation of We Energies - Electric facilities is required for Project 1060-34-78. The anticipated let date for this contract is January 9, 2018. The anticipated start of construction is March 1, 2018.

If you have any questions, please call me.

Respectfully,

Margaret Liedtke

Recommendation for Work Plan Approval

Zoo IC, Detention Pond
At North Ave Interchange
Non Hwy
Milwaukee County
Project 1060-34-78

We Energies - Electric
Parcel: N/A
Utility ID: N/A

Dear Ms. Liedtke,

Enclosed please find a copy of a utility worksheet for We Energies - Electric facilities for the above noted project.

I have reviewed the utility worksheet for conformity with the project plans and hereby recommend its approval. Please let me know if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Kevin Cornell", written over a horizontal line.

Kevin Cornell, PE, PLS
Utility Coordinator, Forward 45

UTILITY WORKSHEET

DT2236 6/2009 s.84.063 Wis. Stats.

Wisconsin Department of Transportation

Utility Company Name We Energies - Electric	PLEASE RETURN THIS WORKSHEET BY February 19, 2017
Project Description – Include Project ID, Title, Limits, Highway, County Zoo IC, Detention Pond At North Avenue Interchange NON HWY Milwaukee County, Wisconsin Design Project ID 1060-33-16 Construction Project ID 1060-34-78	RETURN TO Mr. Kevin Cornnell, PE, PLS Forward 45, LLC 141 NW Barstow Street PO Box 798 Waukesha, WI 53187-0798 e-mail: KCornnell@HNTB.com

1. Describe your proposed relocation plan for the above project, as requested in the enclosed letter, using highway stationing whenever possible. Attach extra sheets if needed.

We Energies Electric relocation plan listed below is based on project plans dated 12-09-2016.

N/A

Any facilities not explicitly identified as being relocated have been deemed to be not in conflict and will remain in place as is. It is expected that contractors will work safely around any facilities left within the workzone. If plans change such that facilities become in conflict, it is expected that you will work with We Energies to resolve said conflict.

2. Conflicting utility facilities will need to be relocated prior to construction. If this is not feasible, provide an explanation and an indication of what work will require coordination with the highway contractor during construction.

N/A

3.

Anticipated Start Date N/A

4.

Estimated construction time required (In working days) N/A
--

5. List the approvals required and the expected time schedule to obtain those approvals.

N/A

6. Include a list of the real estate parcels that the Wisconsin Department of Transportation (DOT) must have acquired to enable your company to complete the necessary facility installations and relocations prior to construction.

N/A

7. Review the enclosed plans for the above project. Are your facilities correct as shown? If not, list the errors. In some cases, it may be easier to return a marked up copy of the plan. **It is very important that your facilities are shown correctly because all construction field personnel will use this information. Uncorrected location errors could create construction delays or damage to utility facilities.**

We Energies electric facilities appear to be shown correctly.

8. Is this work dependent on work by other utilities? If so, which other utilities, and what time schedule has been coordinated with them?

No

9. Please provide the name, address, telephone number and e-mail address of the field contact person for this project, so that we may place this information on the highway plan.

Name

Jason Chapin

Address

500 S 116th St

City, State, ZIP Code

West Allis, WI 53214

Area Code - Telephone Number

E-mail Address

jason.chapin@we-energies.com

10. List any other relevant information that may impact the ultimate goal of preventing construction delay due to uncertain scheduling of utility facility relocations.

Relocation plans were determined based on cross sections shown on project plans. If more extensive EBS work is found to be required during road construction, the road contractor will inform We Energies of the change in plans and work to resolve the conflict in an agreeable manner.

If utilities were not considered in WisDOT's Traffic Mitigation Plan the relocations and schedule described above may be affected and revisions to this work plan may be necessary. If lighting, signals or any other service requirements were not made available prior to submission of this work plan revisions may be necessary.

WisDOT staff are responsible to request any new services (recommended 30 days prior to let date) and the owner of record is required to request any disconnections of existing services through the We Energies Contact Center at 800-242-9137.

11. Yes No
 ☐ ☒ Do you have any facilities that are no longer in use but have been left in place in the project area? If "Yes", approximately where are the facilities located and what type and size of facility is involved?

☐ ☒ Does the line have any remaining product?
☐ ☒ Does the line have any asbestos wrap or any other hazardous materials associated with it?
☐ ☒ Does any part of the line conflict directly with the proposed highway project? If so, what arrangements have been made to remove those portions? This should be mentioned as part of your work plan in question number 1 on this form.

☒ ☐ Is there any reason the highway contractor cannot remove portions of the line left in place?

It is imperative that the highway contractor contact We Energies before removing any gas facilities or electrical underground cables, to verify that they have been discontinued and carry no natural gas or electrical current. The contractor must not assume that unmarked facilities have been discontinued. At no time is it acceptable to push, pull, cut or drill an unmarked facility without explicit consent from We Energies. Contractor must call the We Energies 24 hour Dispatch lines to arrange for this verification.

We Energies Electric Dispatch #1-800-662-4797
We Energies Gas Dispatch #1-800-261-5325

If the above boxes regarding hazardous material or remaining product are checked "No" AND the line has been verified by We Energies to be dead per the above paragraph, it is the responsibility of the road contractor to remove and dispose of all sections of the discontinued facility necessary for them to continue with the project.

If you answered "Yes" to any of the questions above, please attach additional pages.
