

Braun East REV 1	
CTH H to 90th Street	
Project ID 2704-09-71	
Summary of Changes	
(4/2/2019)	
1.	Pond Q (north side of Braun Rd.) was relocated approximately 500' due east and closer to the CPRR. Drainage, including ditching, slope intercepts, storm sewer, and culverts were changed accordingly to accommodate the shift in the pond.
2.	Resurfacing of Braun Road from 90th Street to Willow Road was eliminated from the project.
3.	Eastern limits of the full depth reconstruction at the 90th Street intersection extended from 209BRE+10 to 210BRE+11.
4.	Northern limits of the full depth reconstruction at the 90th Street intersection extended from 1004NS+84 to 1005NS+50.
5.	Added EB right turn lane at the 90th Street intersection.
6.	South leg of 90th Street intersection widened from 2-lanes to 4-lanes to match width of existing 90th Street to the north of Braun Road.
7.	Southern limits of the full depth reconstruction at the 90th Street intersection extended from 1003NS+19 to 998NS+75.
8.	Curb and gutter radii and sidewalks at 90th Street intersection revised to accommodate new geometry of widened intersection.
9.	Added staging plans and temporary widening on the west side of 90th St to maintain traffic during construction.
