Jeff,

See my answers below in red.

Can you share the traffic data regarding the intersection planning at Siggelkow interchange? Or was that included with what you previously sent me?

Please also send me a copy of the Environmental Document that was signed by FHWA.

Thanks,
Matt

Subject: 5845-06-03 US 51 Stoughton to McFarland: Project Design Meetings

Hi Matt,

I wanted to follow-up with you regarding the email SW Region Director Dave Vieth sent to you on December 3, 2020. In the email Dave mentioned that WisDOT would be happy to set up regular working meetings with the Village to further discuss the preferred alternative and possible design refinements. The Region could set up regular virtual meetings, either biweekly or monthly, starting in January 2021.

Please let me know if the Village is interested in participating in these regularly scheduled working meetings and the following information to aid in scheduling these meetings:

- Dates/times that the Village would have available to meet on a recurring basis. **Monthly should be sufficient more now. First Tuesday of the month at any time, Second Wednesday of the month in the early afternoon, third Thursday in the afternoon, or fourth Wednesday at any time.**
- Who from the Village should be included on the meeting invite? **I have copied our participants on this message. This includes the Village Engineer (Brian), Public Works Director (Jim), Streets/Utilities Superintendent (Lee), and Village President (Brad).**
- Is the Village able to use Microsoft Teams for a virtual meeting? **Yes.**

WisDOT looks forward to continuing to work with the Village as the US 51 study moves forward to final design and construction. Thank you.

Sincerely,

Jeff Berens, P.E.
