---

Good morning Jill, please see the attached DT1077 for the project below.

Mediacom does not have anything for service in the town of Mauston in the vicinity of Colfax St, everything is to the south of that intersection.

We do have a fiber optic line buried along Hwy 58 from the intersection of STH80 south to 37<sup>th</sup> St. I have attached an aerial showing this route. I don't see there should be an issues with the project. Any questions let me know. thanks Craig
